*Goethe's Lyric Poems in English Translation Prior to 1860* Lucretia Van Tuyl Simmons,1919      **Spinoza and Law**  
AndreSantos Campos,2017-07-05 This volume collects some of the best writings on Spinoza s philosophy of law and includes a critical examination of Spinoza s theory of the types of law his natural law theory as well as the modern reformulation of his approach to the nature of laws and to natural rights This collection of essays some of which are published in the English language for the very first time shows how Spinoza was able to deliver a revolutionary idea of natural law that breaks away from the traditions of natural law and of legal positivism The bulk of Spinoza s references to law derive from his metaphysical and political texts but they have sufficient depth in order to form a groundbreaking theory of law that has been somewhat neglected by modern jurisprudence The volume also features an introduction which places Spinoza s writings in the context of modern jurisprudence as well as an extensive bibliography It is suited to the needs of jurisprudence scholars teachers and students and is an essential resource for all law libraries it is also essential to anybody who wishes to engage in Spinoza studies nowadays whose practical philosophy has received a recent boom in attention by readers throughout the world

*The Royalist Republic* Helmer J. Helmers,2015-01-08 In 1649 Charles I was executed before Whitehall Palace in London This event had a major impact not only in the British Isles but also on the continent where British exiles diplomats and agents waged propaganda battles to conquer the minds of foreign audiences In the Dutch Republic above all their efforts had a significant impact on public opinion and succeeded in triggering violent debate This is the first book length study devoted to the continental backlash of the English Civil Wars Interdisciplinary in scope and drawing on a wide range of sources from pamphlets to paintings Helmer Helmers shows how the royalist cause managed to triumph in one of the most unlikely places in early modern Europe In doing so Helmers transforms our understanding of both British and Dutch political culture and provides new contexts for major literary works by Milton Marvell Huygens and many others      **Philosophia reformata**
