**Imperial China** Benjamin A. Elman,2000-03-22 A very important study of one of the most important institutions in Chinese history one without which the China we have today would certainly be a vastly different place Peter Bol author of This Culture of Ours Intellectual Transitions in T ang and Sung China *Religion and Chinese Society Vol. 1* John Lagerwey,2021-09-24 Thirty years ago Hu Shih s views of Chinese society and history were representative of Sinology in general China itself had no native religion just local customs its only real religion was an import Buddhism These views have now been completely overturned with massive implications for our understanding not only of China but also of humanity as a whole it is no longer possible to imagine that at least one major traditional society constructed and construed itself without reference to a non mundane world that permeated every facet of society and it therefore becomes indispensable for students of China to take the history of Chinese religion into account and for students of religion to take into account the Chinese experience of and Chinese categories for dealing with religious phenomena The present volumes contain a selection of twenty one essays presented in a conference convened jointly by the Ecole francaise d Extreme Orient and the Centre for the Study of Religion and Chinese Society of the Chinese University of Hong Kong on Religion and Chinese Society The Transformation of a Field and Its Implications for the Study of Chinese Culture held on May 29 June 2 2000 The collection aims at providing as wide a coverage as possible of recent research in the history of Chinese religion and seeks to draw some

tentative conclusions about the implications for the study of Chinese religion and society in general      *The Chinese Dreamscape, 300 BCE - 800 CE* Robert Ford Campany, 2022-03-07 Dreaming is a near universal human experience but there is no consensus on why we dream or what dreams should be taken to mean In this book Robert Ford Campany investigates what people in late classical and early medieval China thought of dreams He maps a common dreamscape an array of ideas about what dreams are and what responses they should provoke that underlies texts of diverse persuasions and genres over several centuries These writings include manuals of dream interpretation scriptural instructions essays treatises poems recovered manuscripts histories and anecdotes of successful dream based predictions In these many sources we find culturally distinctive answers to questions peoples the world over have asked for millennia What happens when we dream Do dreams foretell future events If so how might their imagistic code be unlocked to yield predictions Could dreams enable direct communication between the living and the dead or between humans and nonhuman animals The Chinese Dreamscape 300 BCE 800 CE sheds light on how people in a distant age negotiated these mysteries and brings Chinese notions of dreaming into conversation with studies of dreams in other cultures ancient and contemporary Taking stock of how Chinese people wrestled with and celebrated the strangeness of dreams Campany asks us to reflect on how we might reconsider our own notions of dreaming      **Daoism** Ronnie L. Littlejohn, 2009-03-16 The way that can be told is not the eternal Way the name that can be named is not the eternal Name So begins the first verse of the mysterious Dao De Jing foundation text of the ancient Chinese religion of Daoism Often attributed to semi mythical sage Laozi the origins of this enigmatic document which probably came into being in the third century BCE are actually unknown But the tenets of Daoism laid down in the Dao De Jing and in later texts like the Yi Jing or Book of Changes continue to exert considerable fascination particularly in the West where in recent years they have been popularized by writers such as the novelist Ursula K LeGuin In this fresh and engaging introduction to Daoism Ronnie L Littlejohn discusses the central facets of a tradition which can sometimes seem as elusive as the slippery notion of Dao itself The author shows that fundamental to Daoism is the notion of Wu wei or non action a paradoxical idea emphasizing alignment of the self with the harmony of the universe a universe in continual flux and change This flux is expressed by the famous symbol of Dao the taiji representing yin and yang eternally correlating in the form of a harmonious circle Exploring the great subtleties of this ancient religion Littlejohn traces its development and encounters with Buddhism its expression in art and literature its fight for survival during the Cultural Revolution and its manifestations in modern day China and beyond      **Buddhism and Tales of the Supernatural in Early Medieval China** Zhenjun Zhang, 2014-08-21 This book demonstrates the historical changes in early medieval China as seen in the tales of the supernatural thematic transformation from traditional demonic retribution to Karmic retribution from indigenous Chinese netherworld to Buddhist concepts of hell and from the traditional Chinese savior to a new savior Buddha It also examines Buddhist imagery and the flourish of new motifs in the fantastic dreamworld and their relationship with Buddhism This study

relates the Youming lu to the development of popular Chinese Buddhist beliefs attempting to single out ideas that differ from the beliefs found in Buddhist scriptures as well as miraculous tales written especially to promote Buddhism Daoism James Miller, 2008-02-01 From T ai Chi to the Ming Dynasty this is an engrossing guide to the elusive Chinese tradition of Daoism Spanning the centuries and crossing the globe this engaging introduction covers everything Daoist from the religion of the ancients to 21st century T ai Chi and meditation Complete with a timeline of Daoist history and a full glossary Daoism A Beginner s Guide will prove invaluable not only to students but also to general readers who wish to learn more about the origins and nature of a profound tradition and about its role and relevance in our fast moving 21st century existence

Celestial Masters Terry Kleeman, 2020-10-26 In 142 CE the divine Lord Lao descended to Mount Cranecall Sichuan province to establish a new covenant with humanity through a man named Zhang Ling the first Celestial Master Facing an impending apocalypse caused by centuries of sin Zhang and his descendants forged a communal faith centering on a universal priesthood strict codes of conduct and healing through the confession of sins this faith was based upon a new bureaucratic relationship with incorruptible supernatural administrators By the fourth century Celestial Master Daoism had spread to all parts of China and has since played a key role in China s religious and intellectual history Celestial Masters is the first book in any Western language devoted solely to the founding of the world religion Daoism It traces the movement from the mid second century CE through the sixth century examining all surviving primary documents in both secular and canonical sources to offer a comprehensive account of the development of this poorly understood religion It also provides a detailed analysis of ritual life within the movement covering the roles of common believer or Daoist citizen novice and priest or libationer *Identity Reflections* Brian R. Dott, 2020-05-11 The social structure of contemporary Korea contains strong echoes of the hierarchical principles and patterns governing stratification in the Chos n dynasty 1392 1910 namely birth and one s position in the bureaucracy At the beginning of Korea s modern era the bureaucracy continued to exert great influence but developments undermined instead of reinforced aristocratic dominance Furthermore these changes elevated the secondary status groups of the Chos n dynasty those who had belonged to hereditary endogamous tiers of government and society between the aristocracy and the commoners specialists in foreign languages law medicine and accounting the clerks who ran local administrative districts the children and descendants of concubines the local elites of the northern provinces and military officials These groups had languished in subordinate positions in both the bureaucratic and social hierarchies for hundreds of years under an ethos and organization that based predominantly on family lineage consigned them to a permanent place below the Chos n aristocracy As the author shows the political disruptions of the late nineteenth and early twentieth centuries however rewarded talent instead of birth In turn these groups newfound standing as part of the governing elite allowed them to break into and often dominate the cultural literary and artistic spheres as well as politics education and business Mount Tai in northeastern China has long been a sacred site Indeed it epitomizes China s religious

and social diversity Throughout history it has been a magnet for both women and men from all classes emperors aristocrats officials literati and villagers For much of the past millennium however the vast majority of pilgrims were illiterate peasants who came to pray for their deceased ancestors as well as for sons good fortune and health Each of these social groups approached Mount Tai with different expectations Each group s or individual s view of the world interpersonal relationships and ultimate goals or dreams in a word its identity was reflected in its interactions with this sacred site This book examines the behavior of those who made the pilgrimage to Mount Tai and their interpretations of its sacrality and history as a means of better understanding their identities and mentalities It is the first to trace the social landscape of Mount Tai to examine the mindsets not just of prosperous male literati but also of women and illiterate pilgrims and to combine evidence from fiction poetry travel literature and official records with the findings of studies of material culture and anthropology
