Pages from the Past D. H. Bocking,1979 **The Frontier World of Edgar Dewdney** Brian Titley,2011-11-01 The Frontier World of Edgar Dewdney is a biographical study of a man who played a key role in the cataclysmic events which marked the political social and economic transformation of western Canada in the latter half of the nineteenth century An immigrant adventurer seeking his fortune in the colonies Dewdney was embroiled in the gold rushes of the 1860s the B C debates on Confederation the Riel Rebellion of 1885 political evolution in the North West Territories and the Klondike gold rush For several years Dewdney held important public offices such as Indian commissioner of the North West Territories and Minister of the Interior positions which allowed him to shape the course of events In many ways Dewdney s career is a metaphor for the maturing western frontier In following his exploits we follow the story of a region experiencing breathtaking change Brian Titley s purpose in this book is not to praise but to offer a critical appraisal of Dewdney as a type a representative of that class of adventurer who saw in the new land an unprecedented opportunity for self aggrandisement

Perspectives of Saskatchewan Jene M. Porter,2008-11-01 At the turn of the nineteenth century Saskatchewan was one of the fastest growing provinces in the country In the early 1900s it revolutionized the Canadian political landscape and gave rise to socialist governments that continue to influence Canadian politics today It was the birthplace of Canada s publicly funded health care system and home to a thriving arts and literary community that helped define western Canadian culture In *Perspectives of Saskatchewan* twenty one noted scholars present an in depth look at some of the major developments in the province s history including subjects such as art literature demographics politics northern development and religion It lays the foundations for a greater understanding of Saskatchewan s unique history identity and place in Canada [Report of the Saskatchewan Archives Board](#) Saskatchewan Archives Board,1976 **Saskatchewan History** ,2017 *Saskatchewan Politicians* University of Regina. Canadian Plains Research Center,2004 The more than 275 biographies of Saskatchewan politicians from the past 100 years that are included in this volume represent but a fraction of those who have been elected to public office in the province These are only the longer serving the most distinguished the most famous the most infamous Together their individual stories tell our collective political story in Saskatchewan the birthplace of Medicare and socialism in North America *Hromada: The Changing Ukrainian Community in Saskatchewan* Alan B. Anderson,2025-08-13 The story of any immigrant community at its core depicts the changing meaning of home and identity the home and identity you leave behind those which you build on new shores in new places in new ways How any change to that home and identity changes the children who grow up into it how in a very real way each new generation is built from the foundation of the home and identity the previous generation laid down This story is about Ukrainian Canadians who first settled in large often robust communities in Saskatchewan beginning in the late 1890s How has the Ukrainian community hromada in Ukrainian in Saskatchewan been changing with each generation since the arrival of the first settlers This book describes what became of

those first arrivals How did their birthplace shape them Where did they settle and how How were the relationships between different communities and ethnic groups in Ukraine translated on the other side of the Atlantic Even after growing into their new home these communities faced massive rural depopulation that would impact subsequent generations and those home communities We follow in their footsteps tracing the new challenges they faced in cities and how they would understand and maintain their cultural identity today Since 2022 the arrival in Saskatchewan of thousands of individuals and families displaced by Russia's full scale invasion of Ukraine has proven challenging but has been supported by the existing strong Ukrainian Canadian community here

The Fate of Labour Socialism James Naylor, 2016-01-01 Almost a century before the New Democratic Party rode the first orange wave their predecessors imagined a movement that could rally Canadians against economic insecurity win access to necessary services such as health care and confront the threat of war The party they built during the Great Depression the Co operative Commonwealth Federation CCF permanently transformed the country's politics Past histories have described the CCF as social democrats guided by middle class intellectuals a party which shied away from labour radicalism and communist agitation James Naylor's assiduous research tells a very different story a CCF created by working class activists steeped in Marxist ideology who sought to create a movement that would be both loyal to its socialist principles and appealing to the wider electorate The Fate of Labour Socialism is a fundamental reexamination of the CCF and Canadian working class politics in the 1930s one that will help historians better understand Canada's political intellectual and labour history

Lost Harvests Sarah Carter, 2019-09-19 Agriculture on Plains Indian reserves is generally

thought to have failed because the Indigenous people lacked either an interest in farming or an aptitude for it In **Lost Harvests** Sarah Carter reveals that reserve residents were anxious to farm and expended considerable effort on cultivation government policies more than anything else acted to undermine their success Despite repeated requests for assistance from Plains Indians the Canadian government provided very little help between 1874 and 1885 and what little they did give proved useless Although drought frost and other natural phenomena contributed to the failure of early efforts reserve farmers were determined to create an economy based on agriculture and to become independent of government regulations and the need for assistance Officials in Ottawa however attributed setbacks not to economic or climatic conditions but to the Indians character and traditions which they claimed made the Indians unsuited to agriculture In the decade following 1885 government policies made farming virtually impossible for the Plains Indians They were expected to subsist on one or two acres and were denied access to any improvements in technology farmers had to sow seed by hand harvest with scythes and thresh with flails After the turn of the century the government encouraged land surrenders in order to make good agricultural land available to non Indian settlers This destroyed any chance the Plains Indians had of making agriculture a stable economic base Through an examination of the relevant published literature and of archival sources in Ottawa Manitoba Saskatchewan and Alberta Carter provides an in depth study of government policy Indian responses and the socio economic condition of the reserve communities on the prairies in the post treaty era The new introduction by the author offers a reflection on **Lost Harvests** the influences that shaped it and the issues and approaches that remain to be explored

Canadian Working Class History Laurel Sefton MacDowell, Ian Walter Radforth, 2000 **Canadian Working Class History** Selected Readings is an updated version of the bestselling reader that brings together recent and classic scholarship on the history politics and social groups of the working class in Canada Some of the changes readers will find in the new edition include better representation of women scholars and nine provocative and ground breaking new articles on racism and human rights women s equality gender history Quebec sovereignty and the environment

Lost Harvests Sarah A. Carter, 1990-10-01 Despite repeated requests for assistance from Plains Indians the Canadian government provided very little help between 1874 and 1885 and what little they did give proved useless Although drought frost and other natural phenomena contributed to the failure of early efforts reserve farmers were determined to create an economy based on agriculture and to become independent of government regulations and the need for assistance Officials in Ottawa however attributed setbacks not to economic or climatic conditions but to the Indians character and traditions which they claimed made the Indians unsuited to agriculture In the decade following 1885 government policies made farming virtually impossible for the Plains Indians They were expected to subsist on one or two acres and were denied access to any improvements in technology farmers had to sow seed by hand harvest with scythes and thresh with flails After the turn of the century the government encouraged land surrenders in order to make good agricultural land available to non Indian settlers

This destroyed any chance the Plains Indians had of making agriculture a stable economic base Through an examination of the relevant published literature and of archival sources in Ottawa Manitoba Saskatchewan and Alberta Carter provides the first in depth study of government policy Indian responses and the socio economic condition of the reserve communities on the prairies in the post treaty era *Cloud-capped Towers* Alex MacDonald,2007 Montana ,1993 **Canada , The Prairie Agrarian Movement Revisited** Kenneth Murray Knuttila,2007 The formation of the Territorial Grain Growers Association in 1901 was not the only important event in the early history of what has come to be known broadly as the agrarian movement in the Canadian prairies but it was a defining moment in some respects Arguably it signalled the formation of an agrarian class but at least it was an indicator of an awakening of a democratic consciousness among family farmers Ultimately the Association provided a venue for analysis and critique the development of strategies and tactics and of course the nurturing of leadership and organizational forms that would have a profound influence upon politics and the state in the three prairie provinces and the Dominion as well as the creation of co operatives and other forms of direct action These eighteen essays honouring the 100th anniversary in 2001 of the formation of the TGGGA explore important aspects of the historical legacy of the agrarian movement and contemplate their relevance to the current setting for the rural prairies

BOOK JACKET **Medicine that Walks** Maureen K. Lux,2001-12-15 In this seminal work Maureen Lux takes issue with the biological invasion theory of the impact of disease on Plains Aboriginal people She challenges the view that Aboriginal medicine was helpless to deal with the diseases brought by European newcomers and that Aboriginal people therefore surrendered their spirituality to Christianity Biological invasion Lux argues was accompanied by military cultural and economic invasions which combined with the loss of the bison herds and forced settlement on reserves led to population decline The diseases killing the Plains people were not contagious epidemics but the grinding diseases of poverty malnutrition and overcrowding Medicine That Walks provides a grim social history of medicine over the turn of the century It traces the relationship between the ill and the well from the 1880s when Aboriginal people were perceived as a vanishing race doomed to extinction to the 1940s when they came to be seen as a disease menace to the Canadian public Drawing on archival material ethnography archaeology epidemiology ethnobotany and oral histories Lux describes how bureaucrats missionaries and particularly physicians explained the high death rates and continued ill health of the Plains people in the quasi scientific language of racial evolution that inferred the survival of the fittest The Plains people s poverty and ill health were seen as both an inevitable stage in the struggle for civilization and as further evidence that assimilation was the only

path to good health The people lived and coped with a cruel set of circumstances but they survived in large part because they consistently demanded a role in their own health and recovery Painstakingly researched and convincingly argued this work will change our understanding of a significant era in western Canadian history Winner of the 2001 Clio Award Prairies Region presented by the Canadian Historical Association and the 2002 Jason A Hannah Medal
