Friedrich Max Müller and the Sacred Books of the East Arie L. Molendijk, 2016-07-21 This volume offers a critical analysis of one of the most ambitious editorial projects of late Victorian Britain: the edition of the fifty substantial volumes of the Sacred Books of the East, 1879-1910. The series was edited and conceptualized by Friedrich Max Müller, 1823-1900, a world famous German born philologist, orientalist and religious scholar. Müller and his influential Oxford colleagues secured financial support from the India Office of the British Empire and from Oxford University Press. Arie L. Molendijk documents how the series has become a landmark in the development of the humanities, especially the study of religion and language in the second half of the nineteenth century. The edition also contributed significantly to the Western perception of the religious or even mystic East which was textually represented in English translations. The series was a token of the rise of big science and textualized the East by selecting their sacred books and bringing them under the power of western scholarship.

The Sacred Books of the East: The Satapatha-Brahmana, pt. 1, 1882 *Asiatic Review*, 1898 Beginning in 1895 includes the Proceedings of the East India Association. *Sacred Books of the East*, 1882 *The Sacred Books of the East* Friedrich Max Müller, 1900 **The Sacred Books of the East: The Satapatha-Brahmana, pt. 4**, 1897 **Alexander Histories and Iranian Reflections** Parivash Jamzadeh, 2012-08-17 Alexander the Great's military campaign to conquer the Achaemenid empire included a propaganda campaign to convince the Iranians his kingship was compatible with their religious and cultural norms. This campaign proved so successful that the overt display of Alexander's Iranian and Zoroastrian preferences alienated some of his Greek and Macedonian allies. Parivash Jamzadeh shows how this original propaganda material displayed multiple layers of Iranian influences. Additionally, she demonstrates that the studied sources do not always offer an accurate account of the contemporary Iranian customs and occasionally included historical inaccuracies. One of the most interesting finds in this study is the confusion of historical sources that arose between the opponents Darius III and Alexander. Jamzadeh argues that the Iranian propaganda regarding Alexander the Great has contributed to this confusion.
