German Idealism and the Jew Michael Mack, 2013-11-01 In *German Idealism and the Jew* Michael Mack uncovers the deep roots of anti Semitism in the German philosophical tradition While many have read German anti Semitism as a reaction against Enlightenment philosophy Mack instead contends that the redefinition of the Jews as irrational oriental Others forms the very cornerstone of German idealism including Kant s conception of universal reason Offering the first analytical account of the connection between anti Semitism and philosophy Mack begins his exploration by showing how the fundamental thinkers in the German idealist tradition Kant Hegel and through them Feuerbach and Wagner argued that the human world should perform and enact the promises held out by a conception of an otherworldly heaven But their respective philosophies all ran aground on the belief that the worldly proved incapable of transforming itself into this otherworldly ideal To reconcile this incommensurability Mack argues philosophers created a construction of Jews as symbolic of the worldliness that hindered the development of a body politic and that served as a foil to Kantian autonomy and rationality In the second part Mack examines how Moses Mendelssohn Heinrich Heine Franz Rosenzweig and Freud among others grappled with being both German and Jewish Each thinker accepted the philosophies of Kant and Hegel in varying degrees while simultaneously critiquing anti Semitism in order to develop the modern Jewish notion of what it meant to be enlightened a concept that differed substantially from that of Kant Hegel Feuerbach and Wagner By speaking the unspoken in German philosophy this book profoundly reshapes our

understanding of it The Popes Against the Jews David I. Kertzer, 2007-12-18 In this meticulously researched unflinching and reasoned study National Book Award finalist David I Kertzer presents shocking revelations about the role played by the Vatican in the development of modern anti-Semitism Working in long sealed Vatican archives Kertzer unearths startling evidence to undermine the Church's argument that it played no direct role in the spread of modern anti-Semitism In doing so he challenges the Vatican's recent official statement on the subject We Remember Kertzer tells an unsettling story that has stirred up controversy around the world and sheds a much needed light on the past *Antisemitism* Dan Cohn-Sherbok, 2011-08-26 Dan Cohn Sherbok has provided us with a magisterial overview of antisemitism Whatever your religion or your politics Cohn Sherbok's *Antisemitism* is necessary reading The Most Reverend and Right Honourable Justin Welby Archbishop of Canterbury A very readable overview on four millennia of Judaeophobia a timely book and shows the flame of antisemitism continues to burn bright Rabbi Professor Walter Homolka *Antisemitism* has featured in the history of Western civilization for over 3 000 years Dan Cohn Sherbok traces its origins and its manifestations from political opposition to racial persecution to religious and philosophical justification for some of history's most outrageous acts Against this background of intolerance and persecution Cohn Sherbok describes Jewish emancipation from the late eighteenth century and its gradual transformation into the parallel political and nationalistic ideal of Zionism *Antisemitism A World History of Prejudice* offers a clear and readable account of why antisemitism has featured so strongly in world history and provides extensive discussion of the issues that exist to this day Unlike most studies of the subject it does not focus exclusively on Christian antisemitism but explores the origins of Arab and organized Communist antisemitism and Nazi racism Brought right up to date with an exploration of how modern day antisemitism ought to be defined in order to combat it this revised edition is essential reading not only for history students and theologians but anyone interested in learning about why the Jews have been hated for so long **Roots of Hate** William Brustein, 2003-10-13 William I Brustein offers the first truly systematic comparative and empirical examination of anti-Semitism within Europe before the Holocaust Brustein proposes that European anti-Semitism flowed from religious racial economic and political roots which became enflamed by economic distress rising Jewish immigration and socialist success To support his arguments Brustein draws upon a careful and extensive examination of the annual volumes of the *American Jewish Year Books* and more than 40 years of newspaper reportage from Europe's major dailies The findings of this informative book offer a fresh perspective on the roots of society's longest hatred **2000** Susan Sarah Cohen, 2012-05-24 This work includes international secondary literature on anti-Semitism published throughout the world from the earliest times to the present It lists books dissertations and articles from periodicals and collections from a diverse range of disciplines Written accounts are included among the recorded titles as are manifestations of anti-Semitism in the visual arts e.g. painting caricatures or film action taken against Jews and Judaism by discriminating judiciaries pogroms massacres and the systematic extermination during the Nazi period The bibliography also

covers works dealing with philo Semitism or Jewish reactions to anti Semitism and Jewish self hate An informative abstract in English is provided for each entry and Hebrew titles are provided with English translations **The Socialism of Fools?**

William Brustein, Louisa Roberts, 2015-07-23 This study examines fully the role that the historic European left has played in developing and espousing anti Semitic views *The Myth of the Jewish Race* Alain F. Corcos, 2005 As a youth the author who had two Jewish grandparents was defined as a Jew by Vichy France his parents however refused to register the family as Jews In March 1944 Corcos and his brother fled to Spain and joined the Allied Forces in North Africa States that antisemites consider Jewishness to be inherited and to embody inferior evil traits This view is based on two false biological premises that there are pure races of humans and that some races are superior to others Rejects these premises by considering modern biology and Jewish history The latter indicates that the Jews cannot be a race due to their lack of sexual isolation diversity among Jews is a result of both intermarriage and proselytism Sees the Spanish limpieza de sangre statutes and the Inquisition as precursors of Nazi racism Observes that sometimes Jews have joined antisemites in accepting biological determinism Intermarriage in countries such as China India and the USA has led to considerable biological diversity among Jews and to the reduction of diversity between Jews and non Jews if such diversity existed at all Stresses that if antisemites have worried about contamination of their race by the Jews they have already missed the boat since Jews have mixed with non Jews for many centuries *The Souls of Jewish Folk* James M. Thomas, 2023-10 The Souls of Jewish Folk argues that late nineteenth century Germany's struggle with its Jewish question what to do with Germany's Jews served as an important and to date underexamined influence on W E B Du Bois's considerations of America's anti Black racism at the turn of the twentieth century Du Bois is well known for his characterization of the twentieth century's greatest challenge the problem of the color line This proposition gained prominence in the conception of Du Bois's *The Souls of Black Folk* 1903 which engages the questions of race racial domination and racial exploitation James M Thomas contends that this conception of racism is haunted by the specter of the German Jew In 1892 Du Bois received a fellowship for his graduate studies at the University of Berlin from the John F Slater Fund for the Education of Freedmen While a student in Berlin Du Bois studied with some of that nation's most prominent social scientists What *The Souls of Jewish Folk* asks readers to take seriously then is how our ideas and indeed intellectual work itself are shaped by and embedded within the nexus of people places and prevailing contexts of their time With this book Thomas examines how the major social political and economic events of Du Bois's own life including his time spent living and learning in a late nineteenth century Germany defined in no small part by its violent anti Semitism constitute the soil from which his most serious ideas about race racism and the global color line sprang forth
