Paths To The Absolute Mondrian Malevich Kandinsky Pollock Newman Rothko And Still:

Paths to the Absolute John Golding, 2023-10-17 A groundbreaking account of the meaning of abstract painting From Mondrian's bold geometric forms to Kandinsky's use of symbols to Pollock's dripped paintings the richly diverse movement of abstract painting challenges anyone trying to make sense of either individual works or the phenomenon as a whole Applying his insights as an art historian and a painter John Golding offers a unique approach to understanding the evolution of abstractionism by looking at the personal artistic development of seven of its greatest practitioners He re creates the journey undertaken by each painter in his move from representational art to the abstract a journey that in most cases began with cubism but led variously to symbolism futurism surrealism theosophy anthropology Jungian analysis and beyond For each artist spiritual quest and artistic experimentation became inseparable And despite their different techniques and philosophies these artists shared one goal to break a path to a new ultimate pictorial truth The book first explores the works and concerns of three pioneering European abstract painters Mondrian Malevich Kandinsky and then those of their American successors Pollock Newman Rothko and Still Golding shows how each painter sought to see the world and communicate his vision in the purest or most expressive form possible For example Mondrian found his way into abstraction through a spiritual response to the landscape of his native Holland Malevich through his apprehension of the human body Kandinsky through a blend of religious mysticism and symbolism Line and color became the focus for many of their creative endeavors In the 1940s and 50s the Americans raised the level of pictorial innovation beginning most notably with Pollock and his Jung inspired concept of action Golding makes a powerful case that at its best and most profound abstract painting is heavily imbued with meaning and content Through a blend of biography art analysis and cultural history *Paths to the Absolute* offers remarkable insights into how a sense of purpose is achieved in painting and how abstractionism engaged with the intellectual currents of its time Please note All images in this ebook are presented in black and white and have been reduced in size

 Socia The Nonsense of Kant and Lewis Carroll Ben-Ami Scharfstein,2024-05-31 What if Immanuel Kant floated down from
 his transcendental heights straight through Alice s rabbit hole and into the fabulous world of Lewis Carroll For Ben Ami
 Scharfstein this is a wonderfully instructive scenario and the perfect way to begin this wide ranging collection of decades of
 startlingly synthesized thought Combining a deep knowledge of psychology cultural anthropology art history and the history
 of religions not to mention philosophy he demonstrates again and again the unpredictability of writing and thought and how
 they can teach us about our experiences Scharfstein begins with essays on the nature of philosophy itself moving from an
 autobiographical account of the trials of being a comparativist to philosophy s function in the outside world to the fear of
 death in Kant and Hume From there he explores an impressive array of art from China and Japan to India and the West from

an essay on sadistic and masochistic body art to one on the epistemology of the deaf and the blind He then returns to philosophy writing on Machiavelli and political ruthlessness then on the ineffable and closes with a review of Walter Kaufmann's multivolume look at the essence of humanity Discovering the Mind Altogether these essays are a testament to adventurous thought the kind that leaps to the furthest reaches of the possible

Acrobatic Modernism from the Avant-Garde to Prehistory Jed Rasula, 2020-02-27 This is a book about artistic modernism contending with the historical transfigurations of modernity As a conscientious engagement with modernity's restructuring of the lifeworld the modernist avant garde raised the stakes of this engagement to programmatic explicitness But even beyond the vanguard the global phenomenon of jazz combined somatic assault with sensory tutelage Jazz like the new technologies of modernity recalibrated sensory ratios The criterion of the new as self making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound's slogan Make It New became the generic rallying cry of renovation The paradigmatic stance of the avant garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and remotest antiquity The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both
