Paths To The Heart: Sufism And The Chris James S. Cutsinger, 2010-08-01 Despite the long and well known history of conflict between Christians and Muslims their mystical traditions especially in the Christian East and in Sufism have shared for centuries many of the same spiritual methods and goals The purpose of this book the first major publication of its kind is to promote precisely this more inward kind of ecumenical perspective These essays point to a spiritual heart in which the deeper meaning of Christian and Muslim beliefs and practices come alive and where spiritual pilgrims may discover beyond the level of seemingly contradictory forms an inner commonality with those who follow other paths

Still Listening: Sowing the Seeds of the Jesus Prayer Bruce Batstone, 2023-09-22 Fairacres Publications 206 I have conversations with people about how they pray the Jesus Prayer as they walk the city streets as they travel on buses or on the Tube as they cycle or as they sit at home From these experiences I have come more and more to see the Jesus Prayer as a way of praying well suited to urban life a form of attentiveness practice that can help us to grow in God experience amid the changes and chances of metropolitan living This book explains the prayer its ethos and how to begin to practise it in daily life

Journeys East Harry Oldmeadow, 2004-04-28 This is the first book to treat the impact of religious philosophical and

psychological traditions of the East on Western intellectuals artists travellers and spiritual seekers in the twentieth century Addressed to both general readers and scholars of religion it is especially valuable for its penetrating and inter religious analysis of two of the most compelling themes now facing the world the emergence of cross cultural religious understanding of the natural order and ecological crisis and the metaphysical basis for both the formal diversity and essential unity of religious traditions of both East and West The West has long romanticized the mysterious East but it has also judged its traditions as uncivilized Our notions about Eastern spirituality have been formed by a succession of travellers scientists artists intellectuals poets philosophers and missionaries as well as by Eastern travellers who have spent time in the West This book helps us to recognize the influence of Eastern ideas upon modern Western thought by tracing the history of engagements between East and West up until the present day It concludes with a section that helps us to perceive the timeless value of the many Eastern contributions to the West s current intellectual and spiritual state
