, 2003 **Presidential Sheet Music** Danny O. Crew, 2001-01-01 Political historians have traditionally interpreted the people and events of each presidential era by studying books periodicals letters diaries and speeches One source of printed material that has not received much scholarly attention is published music much of which has been all but lost in the archives of libraries and museums These two volumes of Presidential Sheet Music present an exhaustive listing of presidential related music in all printed forms with information on each piece **Cyclopaedia of Favorite Songs**, 1895 Early Concert-life in America (1731-1800) Oscar George Sonneck, 1907 **Louis Armstrong** James Lincoln Collier, 1985-10-10 Louis Armstrong Satchmo To millions of fans he was just a great entertainer But to jazz aficionados he was one of the most important musicians of our times not only a key figure in the history of jazz but a formative influence on all of 20th century popular music Set against the backdrop of New Orleans Chicago and New York during the jazz age Collier re-creates the saga of an old fashioned black man making it in a white world He chronicles Armstrong's rise as a musician his scrapes with the law his relationships with four wives and his frequent feuds with fellow musicians Earl Hines and Zutty Singleton He also sheds new light on Armstrong's endless need for approval his streak of jealousy and perhaps most important what some consider his betrayal of his gift as he opted for commercial success and stardom A unique biography knowledgeable insightful and packed with information it ends with Armstrong's death in 1971 as one of the best known figures in American entertainment

Radio Goes to War Gerd Horten, 2003-10 By focusing on the medium of radio during World War II Horten has provided us

with a window into an important change in radio broadcasting that has previously been ignored by historians The depth of research the book s contribution to our understanding of radio and the war make *Radio Goes to War* an outstanding work Lary May author of *The Big Tomorrow Hollywood and the Politics of the American Way* Radio broadcasting and its impact on American life still remains a neglected area of our national history *Radio Goes to War* demonstrates conclusively how short sighted that omission is As we enter what is sure to be another era of contested claims of government control over freedom of speech the controversies and compromises of wartime broadcasting sixty years ago provide an ominous example of difficult decisions to be made in the future The alliance of big business advertising and wartime propaganda that Horten so convincingly illuminates takes on a heightened significance especially as this relationship has tightened in the last several decades When radio and television go to war again will they follow the same course This is cautionary reading for our new century Michele Hilmes author of *Radio Voices American Broadcasting 1922 1952*
