Patrons Clients And Empire Chieftaincy And Over Rule In Asia Africa And The Pacific:

Patrons, Clients, and Empire Colin Newbury, 2003-01-02 *Patrons Clients and Empire* challenges the stereotypes of despotic imperial power in Asian African and Pacific colonies by analysing the relationship between rulers and rulers on both sides of the imperial equation It seeks an answer to the question how were European officials able to govern so many societies for so long Rejecting the usual explanations of collaboration and indirect rule this study looks to pre imperial structures in the indigenous hierarchies which supplied patrimonial models of chieftaincy for territorial government For nawabs chiefs emirs sultans and their officials and followers there were dynastic and economic advantages in accepting the terms of European over rule as well as the threat of deposition For European officials few in numbers and with limited military and financial resources there were ready made systems of local government that could be co opted reformed or left relatively untouched Both sides played politics as patrons and clients within a dual system of administration based on a mixture of force and self interest Surveying a wide variety of cases and employing a patron client model this study embraces pre colonial colonial and post colonial politics in new states It covers the chronology of early European dependency on local rulers the reasons for reversal of status among chiefs and administrators the longer period of political bargaining over access to local resources in terms of land labour and taxes and the ultimate fate of indigenous rulers in the period of party politics leading to independence

Patrons, Clients, and Empire Colin Walter Newbury, 2003 **Winding up the British Empire in the Pacific Islands** W. David McIntyre, 2016-11-24 Little has been written about when how and why the British Government changed its mind about giving independence to the Pacific Islands Using recently opened archives *Winding Up the British Empire in the Pacific Islands* gives the first detailed account of this event As Britain began to dissolve the Empire in Asia in the aftermath of the Second World War it announced that there were some countries that were so small remote and lacking in resources that they could never become independent states However between 1970 and 1980 there was a rapid about turn Accelerated decolonization suddenly became the order of the day Here was the death warrant of the Empire and hastily arranged independence ceremonies were performed for six new states Tonga Fiji Solomon Islands Tuvalu Kiribati and Vanuatu The rise of anti imperialist pressures in the United Nations had a major role in this change in policy as did the pioneering examples marked by the release of Western Samoa by New Zealand in 1962 and Nauru by Australia in 1968 The tenacity of Pacific Islanders in maintaining their cultures was in contrast to more strident Afro Asia nationalisms The closing of the Colonial Office by merger with the Commonwealth Relations Office in 1966 followed by the joining of the Commonwealth and Foreign Offices in 1968 became a major turning point in Britain's relations with the Islands In place of long nurtured traditions of trusteeship for indigenous populations that had evolved in the Colonial Office the new Foreign Commonwealth Office concentrated on fostering British interests which came to mean reducing distant commitments and focussing on the Atlantic world and Europe

International Order in Diversity Andrew Phillips, J. C. Sharman, 2015-04-23

This book explains how a diverse Indian Ocean international system arose and endured during Europe's crucial opening stages of imperial expansion Converging Worlds Louise A. Ochonu, 2014-02-14 Moses E Ochonu explores a rare system of colonialism in Middle Belt Nigeria where the British outsourced the business of the empire to Hausa Fulani subcolonials because they considered the area too uncivilized for Indirect Rule Ochonu reveals that the outsiders ruled with an iron fist and imagined themselves as bearers of Muslim civilization rather than carriers of the white man's burden Stressing that this type of Indirect Rule violated its primary rationale *Colonialism by Proxy* traces contemporary violent struggles to the legacy of the dynamics of power and the charged atmosphere of religious difference *Empires of Intelligence* Martin Thomas, 2008 *Empires of Intelligence* argues that colonial control in British and French empires depended on an elaborate security apparatus Thomas shows the crucial role of intelligence gathering in maintaining imperial control in the years before decolonization **Empires of the Weak** J. C. Sharman, 2020-11-10 What accounts for the rise of the state the creation of the first global system and the dominance of the West The conventional answer asserts that superior technology tactics and institutions forged by Darwinian military competition gave Europeans a decisive advantage in war over other civilizations from 1500 onward In contrast *Empires of the Weak* argues that Europeans actually had no general military superiority in the early modern era J C Sharman shows instead that European expansion from the late fifteenth to the late eighteenth centuries is better explained by deference to strong Asian and African polities disease in the Americas and maritime supremacy earned by default because local land oriented polities were largely indifferent to war and trade at sea Europeans were overawed by the mighty Eastern empires of the day which pioneered key military innovations and were the greatest early modern conquerors Against the view that the Europeans won for all time Sharman contends that the imperialism of the late nineteenth and early twentieth centuries was a

relatively transient and anomalous development in world politics that concluded with Western losses in various insurgencies. If the twenty first century is to be dominated by non Western powers like China this represents a return to the norm for the modern era. Bringing a revisionist perspective to the idea that Europe ruled the world due to military dominance, *Empires of the Weak* demonstrates that the rise of the West was an exception in the prevailing world order. **Fueling Sovereignty** Naosuke Mukoyama, 2024-03-21. Explores the impact of oil and other natural resources on the formation of sovereign states.

British Royal Visits and Black Loyalism in Twentieth-century Southern Africa Hilary Sapire, 2024-10-31. Exploring the entwined histories of British royal visits to Southern Africa in the twentieth century, this book analyses the clashing voices of dissent and cheering crowds that accompanied royal tours, providing insight into the shifting nature of Black loyalism. Originating in the Indigenous empire, loyalism of eighteenth century Canada, Black loyalism encompassed loyalty to the British crown and a shared ideology of rights and entitlements which positioned the crown as a source of protection against white settler rapacity, colonial violence and racial oppression. However, expressions of monarchical devotion were often double edged and addressed the fundamental contradiction of a crown that was both the source of rights and complicit in colonial conquest, appropriation and misrule. It was on royal occasions such as jubilees, coronation celebrations and especially royal visits when the sovereign was literally amongst their more distant subjects that loyalist sentiment was rekindled, reinvented and made directly relevant to the concerns of the day. By analysing change and continuity in Black perspectives towards both the British and Indigenous African monarchy during these visits, this book offers a fruitful way into examining an array of Black Southern African discourses on governance, political values and cultural identities across the region. It argues that the refashioning of British imperial monarchy in the twentieth century was profoundly shaped by African initiatives and reimaginings and provides valuable reading for those researching imperialism, popular attitudes to the British monarchy in the twentieth century and the diverse politics and identities of southern Africa.
