ROEHNER, Tony Syme, Bertrand M Roehner, 2009-06-30 The aim of this book is to analyze clusters of similar elementary occurrences that serve as the building blocks of more global events Making connections between seemingly unrelated case studies Roehner and Syme apply scientific methodology to the analysis of history Their book identifies the recurring patterns of behavior that shape the histories of different countries separated by vast stretches of time and space Taking advantage of a broad wealth of historical evidence the authors decipher what may be seen as a kind of genetic code of history

Hareven, Josef Ehmer, 2001 This collection of original essays by scholars on the historical study of the family from various parts of the world represent a new departure in this field The essays cover a great variety of topics and many countries are represented The essays open up new debates and point to new directions in the field by examining dimensions of family relations that had not been sufficiently addressed in previous scholarship

Essays in Philosophy and Its History Wilfrid Sellars, 2012-12-06 In pulling these essays together for inclusion in one volume I do not believe that I have done them violence Since they originally appeared at different times and places they constitute a scattered object Nevertheless to the author's eye they have unities of theme and development which if they fail to give them the true identity of the book may to adapt a metaphor from Hume generate those smooth and easy transitions of the imagination which arouse dispositions appropriate to surveying such identical objects For the juxtaposition of historical and systematic studies I make no apology It has been suggested with a friendly touch of malice that if Science and Metaphysics consists as its subtitle proclaims of Variations on Kantian Themes it would be no less accurate to subtitle my historical essays variations on Sellarsian themes But this is as it should be Philosophy is a continuing dialogue with one's contemporaries living and dead and if one fails to see oneself in one's respondent and one's respondent in oneself there is confrontation but no dialogue The

Repertoires and Cycles of Collective Action Mark Traugott, 1995 The modern era has generated a bewildering profusion of popular protest including widespread social movements and sporadic revolutionary upheaval Despite the seemingly chaotic character of such collective action social scientists have increasingly noted the remarkable regularities exhibited by even the most tumultuous social change In this volume sociologists political scientists and historians come together to assess the complementary concepts of repertoires and cycles as tools for illuminating the consistent patterns that emerge from the apparent chaos The significance of repertoires recurrent forms or tactics of social protest is explored in an essay on eighteenth and nineteenth century Britain by the originator of the concept Charles Tilly Sidney Tarrow whose work has most directly linked the concept of repertoires with that of cycles the recurrent peaks and troughs in the historical incidence of collective action contributes an essay that focuses on twentieth century Italy Other essays investigate the rhythms and logic of social change in contexts as diverse as sixteenth through nineteenth century Japan nineteenth century Europe and twentieth century America Through inquiries into the consequences of violent repression for social mobilization the struggle to control the linguistic terms of social conflict the unacknowledged antecedents of contemporary movements and the importance of movement families this volume demonstrates the usefulness of these two concepts and defines the relationship between them Collected from past issues of *Social Science History* with a new introduction and two new essays *Repertoires and Cycles of Collective Action* will reward an interdisciplinary audience of readers with the extraordinary vitality that emerges from this rich blend of historical perspectives Contributors Charles Brockett Craig Calhoun Doug McAdam Marc
