No Place To Go Lezlie Lowe,2018-09-11 Adults don't talk about the business of doing our business We work on one assumption the world of public bathrooms is problem and politics free No Place To Go Answering the Call of Nature in the Urban Jungle reveals the opposite is true No Place To Go is a toilet tour from London to San Francisco to Toronto and beyond From pay potties to deserted alleyways No Place To Go is a marriage of urbanism social narrative and pop culture that shows the ways momentous and mockable public bathrooms just don't work Like for the homeless who faced with no place to go sometimes literally take to the streets Ever heard of a municipal poop map For people with invisible disabilities such as Crohn's disease who stay home rather than risk soiling themselves on public transit routes For girls who quit sports teams because they don't want to run to the edge of the pitch to pee Celebrities like Lady Gaga and Bruce Springsteen have protested bathroom bills that will stomp on the rights of transpeople And where was Hillary Clinton after she arrived back to the stage late after the first commercial break of the live televised Democratic leadership debate in December 2015 Stuck in a queue for the women's bathroom Peel back the layers on public bathrooms and it's clear many more people want for good access than have it Public bathroom access is about cities society design movement and equity The real question is Why are public toilets so

**The Making of Things** Frank Jacobus,Angela Carpenter,Rachel Smith Loerts,Justin M. Tucker,Randal Dickinson,2021-07-29 The Making of Things is about effect and intention in the schematic architectural model a deep dive into the nature of architectonic form as the underlying syntax for all architectural work By focusing on primitive geometries alongside fundamental principles of architectural thinking and making this book enhances the reader s capacity to intellectually and physically craft models that effectively communicate intention With over 650 diagrams this book acts as an expansive visual glossary that reveals the underlying structure of architectonics and acts as an encyclopedia of formal possibilities Supporting essays in the book explore the nature of perception abstraction and metaphor to provide a theoretical basis of formal effects in architecture This structure enables readers to make clear and direct connections between the things you construct and the reasons you construct them This book is a bridge from the what to the why of form making It is a pedagogical notebook a design primer that prompts discourse about the nature of objects This is a must have desk reference for beginning architecture and interior design students to stimulate their creative approaches and gain foundational knowledge of the underlying effects of formal typologies and how they manifest themselves in built forms around the world     **A Critical History of Contemporary Architecture** Asst Prof David Rifkind,Dr Elie G

Haddad,2014-03-28 This book provides a comprehensive critical overview of the developments in architecture from 1960 to 2010 The first section provides a presentation of major movements in architecture after 1960 and the second a geographic survey that covers a wide range of territories around the world This book not only reflects the different perspectives of its various authors but also charts a middle course between the aesthetic histories that examine architecture solely in terms of its formal aspects and the more ideological histories that subject it to a critique that often skirts the discussion of its formal aspects     **Bibliografia nazionale italiana** ,1998     **Architecture of the Borderlands** Anne Boddington,1999-11 Anne
