Christopher John Murray

Paul Nizan Committed Literature In A Conspiratorial World:

Paul Nizan W. Redfern, 2015-03-08 Sartre's friend and sometime rival Paul Nizan was a prototype of the angry young man. Ideologically a Marxist, politically a Communist, professionally a writer, endowed with a sharper mind and greater literary ability than his own, Nizan diagnosed the ills of French society in the 1930s. His writings vilified by the Party, he left in September 1939 and is being rediscovered in France. W. D. Redfern gives now the first full-length appraisal in English of his life and work. Nizan as a writer and a critical intelligence is seen in Mr. Redfern's analysis of his radical imagination and its deployment in his novels, polemical essays, journalism, and correspondence. His place among his contemporaries is also assessed. Mr. Redfern thus illuminates the political and literary worlds of the philosophical rebels: Bertolt Brecht, Friedrich Mann, the Communists, and idealists Aragon, Malraux, Weil in Paris during the 1920s and 1930s. Originally published in 1972, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Historical Dictionary of French Literature John Flower, 2013-01-17 Almost all of us know French literature even if we don't know French because it is probably the second largest and certainly the most translated into English. And even if we don't read, we would have seen film and television versions, think *Count of Monte Cristo* and even a musical rendition *Les Mis*. So this is a particularly interesting volume in the literature series since it covers French literature from the earliest times to the present. It is also a particularly rich literature espousing every genre from poetry to novel to biography to drama and adopting every style including realism and surrealism and expressing the views of all classes and political stands with recently strong feminist and gay strains. Obviously the core dictionary section includes among its panoply of often substantial and detailed entries hundreds of authors, dozens of significant works, the various styles mentioned above, and many others, events that have impacted literature such as the Dreyfus Affair and the Algerian War, and literary prizes. The chronology manages to cover about 1,200 years of literary output. And the introduction sets it all out neatly from one historical and literary period to the next. The bibliography, broken down by period and author, directs us to further reading in both French and English.

Encyclopedia of Modern French Thought Christopher John Murray, 2013-01-11 In this wide-ranging guide to twentieth-century French thought, leading scholars offer an authoritative, multi-disciplinary analysis of one of the most distinctive and influential traditions in modern thought. Unlike any other existing work, this important work covers not only philosophy but also all the other major disciplines including literary theory, sociology, linguistics, political thought, theology, and more.

French Political Travel Writing in the Interwar Years

Martyn Cornick, Martin Hurcombe, Angela Kershaw, 2017-02-10 This book studies travel writing produced by French authors

between the two World Wars following visits to authoritarian regimes in Europe and the Union of Soviet Socialist Republics USSR It sheds new light on the phenomenon of French political travel in this period by considering the well documented appeal of Soviet communism for French intellectuals alongside their interest in other radical regimes which have been much less studied fascist Italy the Iberian dictatorships and Nazi Germany Through analyses of the travel writing produced as a result of such visits the book gauges the appeal of these forms of authoritarianism for inter war French intellectuals from a broad political spectrum It examines not only those whose political sympathies with the extreme right or extreme left were already publicly known but also non aligned intellectuals who were interested in political models that offered an apparently radical alternative to the French Third Republic This study shows how travel writing provided a space for reflection on the lessons France might learn from the radical political experiments of the inter war years It argues that such writing can usefully be read as a form of utopian thinking distinguishing this from colloquial understandings of utopia as an ideal location Utopianism is understood neither as a fantasy ungrounded in the real nor as a dangerously totalitarian ideal but in line with Karl Mannheim Paul Ric ur and Ruth Levitas as a form of non congruence with the real that it seeks to transcend The utopianism of French political travel writing is seen to lie not in the attempt to portray the destination visited as utopia but rather in the pursuit of a dialogue with radical political alterity

The Cambridge Companion to the French Novel

Timothy Unwin, 1997-10-28 This volume offers a unique and valuable insight into the novel in French over the past two centuries In a series of essays acknowledged experts discuss a variety of topics including nineteenth century realism women and fiction popular fiction experiment and innovation war and the Holocaust the Francophone novel and postmodern fiction They offer a challenging reassessment of major figures while deliberately reading traditional views of literary history against the grain Theoretical discussion is combined with close reading of texts and exploration of context comparison with other genres and other literatures and reference to novels from earlier periods This companionable introduction includes a chronology and guide to further reading From it emerges a strong sense of the vitality and energy of the modern French novel and of the debates surrounding it

The Spectrum of Political Engagement

David L. Schalk, 2015-03-08 Why do artists poets philosophers writers and others who are usually classified as intellectuals leave the ivory tower to dirty their hands in the political arena In an effort to illuminate the intellectual s struggle to come to grips with the issues raised by political involvement David Schalk examines the life and thought of five intellectuals engag s in France during the period between 1920 and 1945 From communist to fascist these figures Paul Nizan Jean Paul Sartre Emmanuel Mounier Julien Benda and Robert Brasillach cover the full political spectrum and Professor Schalk studies their diverse reactions to the social political and economic tensions of the interwar period Broadly defining engagement as political involvement that is voluntary conscious and freely chosen usually by intellectuals the author poses the intellectual s dilemma in the following terms When we are engag he writes we fear that we are debasing our highest values when we are not we worry that we have

become in Paul Nizan's trenchant phrase *mere chiens de garde* watchdogs. He then investigates the origins and the popularization of the concept of engagement in the early 1930s, the arguments used to denounce it and to defend it, its different manifestations and finally its effects on the socio-political actuality of the world.
