Poems By Fred Chappell:

Source Fred Chappell, 1985-11-01 In a noteworthy career Fred Chappell has created a body of verse that will likely endure as long as the North Carolina mountains that are the setting of so many of his poems In such works as the tetralogy *Midquest* and the long poem *Castle Tzingal* Chappell has shown himself to be a master of his craft acutely inquisitive and keenly observant adept at a variety of forms and styles Earlier this year Chappell's poetic achievement was honored when he received the Bollingen Prize in Poetry With *Source* his newest collection Chappell again reveals himself as a mature and gifted poet writing at the peak of his powers The poems in *Source* show the breadth and diversity of Chappell's range They are by turn soft and lyrical elegiac and formal speculative and experimental They draw on mythic images of the past and horrific visions of the future but most important they reflect Chappell's southern roots and his knowledge of a simple people and a simple way of life as seen in these lines from *Humility* In the necessary field among the round Warm stones we bend to our gleaning The brown earth gives in to our hands and straw By straw burns red aslant the vesper light The village behind the graveyard tolls softly begins To glow with new laid fires This is the country we return to when For a moment we forget ourselves When we watch the sleeping kitten quiver After long play or rain comes down warm Here we might choose to live always here where Ugly rumors of ourselves do not reach Where in the whisper light of the kerosene lamp The deep Bible lies open like a turned down bed

C Fred Chappell, 1993 Fred Chappell has long been considered one of the South's finest writers of both fiction and poetry C not only provides abundant justification for that assessment but also makes clear the inadequacy of the geographical stricture Chappell is indeed a writer of world class stature C is of course the roman numeral for one hundred the precise number of poems that appear in this dazzling collection Delicate highly wrought miracles of compression and insight these pieces gleam with passion humor and intelligence Like many things that gleam however they also have sharp edges and while they may make us laugh they can also wound Chappell himself perhaps voices this warning most eloquently

in Proem In such a book as this The poet Martial says Some of the epigrams Shall have seen better days And some are hit or miss But some like telegrams Deliver intelligence With such a sudden blaze The shine can make us wince At times Chappell's tone is acerbic as in this sly comment on the self indulgence of some confessional poets If my peccadilloes were so small I never would undress at all a couplet that would surely draw a delighted chuckle from Alexander Pope himself With the apparent effortlessness of a master Chappell also can suffuse a poem with sensual wonder in A Glorious Twilight for example an ecstatic speaker rhapsodizes about a woman painting her nails such a brilliant shade of bright she seems to have sprouted 22 fingers And sometimes his jeweler's eye and the sheer artfulness of his language align the shutters of our perception so precisely that we can see for a hushed instant the incandescence of the everyday moment As common as air Startling as fire Satirical or elegiac bitter or rejoicing giddy or profound each of these one hundred poems is unnervingly alive All readers who delight in observing an artist at the height of his powers are sure to find C both an inspiration and an eloquent reminder that poetry language squeezed against the unsayable until it burns remains our last fragile link with the infinite BOOK

JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Shadow Box* Fred

Chappell, 2009-07-15 In this sharply innovative collection renowned poet Fred Chappell layers words and images to create a new and dramatic poetic form the poem within a poem Like the shadow box in the volume's title each piece consists of an inner world contained framed supported by an outer the two interdependent sometimes supplementary often contrary For example the grim but gorgeous *The Caretakers* is a landscape that reveals another image inside it Chappell also introduces sonnets in which the sestet nests within the octet Play serves as an important component but the poems do not depend upon gamesmanship or verbal strategems Instead they delicately or wittily trace human feelings respond somberly to the news of the world and rejoice in humankind's plentiful variety of attitudes and beliefs Just as an x ray can show the inner structure of a physical object so the techniques in *Shadow Box* display the internal energies of the separate works With this new form the enclosed or embedded or inlaid poem Chappell broadens the expressive possibilities of formal poetry intrigues the imagination in an entirely new way and offers surprise and revelation in sudden flashes At once revolutionary and traditional *Shadow Box* contains an Aladdin's trove of surprises **Midquest** Fred Chappell, 1989 *Ever After* Fred

Chappell, 2024-10-10 In his final book the celebrated poet Fred Chappell reflects on life and the beyond Details drawn from daily actions religion classical myth and the Appalachian landscape adorn this autumnal collection that unearths connections both strong and tenuous among apparently disparate subjects all percolated with Chappell's signature wit and warm vision A student's observation that Poems are how we see with our eyes closed comes to resemble an icon of sorrow A stairway to heaven ends with a jug of wine Memories assume shifting appearances Often written in traditional sonnet forms Chappell's poems display astonishing technical skill and indefatigable humanity as they gaze on the challenges of life and the great unknown A spirited and friendly farewell *Ever After* shows an accomplished and much beloved American writer gracing us

with poems of remarkable originality craft and insight *The World Between the Eyes* Fred Chappell,1990-09-01 Although Fred Chappell has long been recognized as a novelist of talent and achievement his poetry has been known to only a few because he has chosen to publish little Now in this collection his work becomes widely available for the first time The subjects of these poems range from the poet s love for his wife and son to that hallowed American institution the skin flick from baseball to blues From Trios II to the slaughter of pigs Their forms vary from short lyrics often humorous or ironic to longer narratives more serious and intense All in all it is a stunning performance by a consummate artist in his first appearance **Spring Garden** Fred Chappell,1995-10-01 *Backsass* Fred Chappell,2004-01-29 This collection of humorous and satiric verse takes its title from that thoroughly southern term meaning irreverent retort ironic remark or scoffing observation The ancient Roman poet Juvenal noted that his world made it hard not to write satire Fred Chappell finding his contemporary era analogous to that of imperial Rome has in Backsass given in to the impulse for invective and mockery Whether addressing the political the poetical or the practical Chappell brandishes his lexical sword ribbing our shortcomings offering tonic advice and occasionally shedding a tear for our fallen ideals Some poetry is fine wine Backsass is the driest of martinis **A New Pléiade** Fred Chappell,1998 The bucolic musings of Fred Chappell greet the reader followed by the searching graceful reflections of Kelly Cherry the unconventional observations of R H W Dillard and the eccentric creations of Brendan Galvin George Garrett s precise shining insights precede David R Slavitt s erudite witty contemplations and Henry Taylor brings us full circle back to a pastoral world reminiscent of Chappell s rural samplings
