Ezra Pound and 20th-Century Theories of Language James Dowthwaite, 2019-05-23 Ezra Pound is one of the most significant poets of the twentieth century a writer whose poetry is particularly notable for the intensity of its linguistic qualities Indeed from the principles of Imagism to the polyphony of his Cantos Pound is central to our conception of modernism's relationship with language This volume explores the development of Pound's understanding of language in the context of twentieth century linguistics and the philosophy of language It draws on largely unpublished archival material in order to provide a broadly chronological account of the development of Pound's views and their relation to both his own poetry and to modernist writing as a whole

Beginning with Pound's contentious relationship with philology and his antagonism towards academia the book traces continuities and shifts across Pound's career culminating in a discussion of the centrality of language to the conception of his Cantos. While it contains discussions around significant figures in twentieth century linguistic thought such as Ferdinand de Saussure and Ludwig Wittgenstein the book attempts to recover the work of theorists such as Leonard Bloomfield, Lucien Lévy-Bruhl and C. K. Ogden figures who were once central to modernism but who have largely been pushed to the periphery of modernist studies. The picture of Pound that emerges is a figure whose understanding of language is not only bound up with modernist approaches to anthropology, politics and philosophy but which calls for a new understanding of modernism's relationship to each.

The Pound Biennial Anderson Araujo, Ron Bush, 2025-04-11 The Ezra Pound Studies Biennial claims a place as the flagship journal entirely devoted to Pound's work at a time when Pound studies represents one of the most active fields in modernist scholarship. Elaborating on the life work and international reception of one of the prime movers of the modernist revolution in the arts and letters this inaugural volume joins an ever increasing number of studies examining Pound's letters, prose, poetry, translations, companions and international reception and taking the form among other things of critical essays and editions, digital projects and monographs. Building on this work the current volume features twelve high caliber contributions written by a diverse group of established and emerging Pound scholars. Their subjects include the genesis of Pound's Pisan Cantos, the poet's political and economic preoccupations, his association with modernist women writers, his fascination with typography and with the Italian Renaissance and his translations of Noh plays and French poetry.

The Cambridge History of American Modernism Mark Whalan, 2023-07-20 The Cambridge History of American Modernism examines one of the most innovative periods of American literary history. It offers a comprehensive account of the forms, genres and media that characterized US modernism, coverage ranges from the traditional such as short stories, novels and poetry to the new media that shaped the period's literary culture such as jazz, cinema, the skyscraper and radio. This volume charts how recent methodologies such as ecocriticism, geomodernism and print culture studies have refashioned understandings of the field and attends to the contestations and inequities of race, sovereignty, gender, sexuality and ethnicity that shaped the period and its cultural production. It also explores the geographies and communities wherein US modernism flourished from its distinctive regions to its metropolitan cities, from its hemispheric connections to the salons and political groupings that hosted new cultural collaborations.
