Possessing Albany, 1630-1710 Donna Merwick, 2003-02-13 This book reconstructs the manifold ways by which Dutch people of seventeenth century New York took hold of the New World As the author reminds us the Dutch understood themselves to be republican urban mobile mercantile and amphibious in short properly Dutch She shows how the Dutch possessed the land traded over it surrendered it to the English and then lived out their lives balancing a gaze that the conquerors had for land against their own

Crossroads of Empire Ned C. Landsman, 2022-02-03 This work examines colonial New York New Jersey and Pennsylvania as central to both warfare and the emerging British Atlantic world of culture and trade In this probing history Ned C Landsman demonstrates how the Middle Colonies came to function as a distinct region He argues that while each territory possessed varying social religious and political cultures the collective lands of New York New Jersey and Pennsylvania were unified in their particular history and place in the imperial and Atlantic worlds Landsman shows that the societal cohesiveness of the three colonies originated in the commercial and military rivalries among Native nations and developed further with the competing involvement of the European powers They eventually emerged as the focal point in the contest for dominion over North America In relating this progression Landsman discusses various factors in the region s development including the Enlightenment evangelical religion factional politics religious and ethnic diversity and distinct systems of Protestant pluralism Ultimately he argues it was within the Middle Colonies that the question was first posed What is the American

The Pinkster King and the King of Kongo Jeroen Dewulf, 2016-12-20 The Pinkster King and the King of Kongo presents the history of the nation s forgotten Dutch slave community and free Dutch speaking African Americans from seventeenth century New Amsterdam to nineteenth century New York and New Jersey It also develops a provocative new interpretation of one of America s most intriguing black folkloric traditions Pinkster Jeroen Dewulf rejects the usual interpretation of this celebration of a slave king as a form of carnival Instead he shows that it is a ritual rooted in mutual aid and slave brotherhood traditions By placing these traditions in an Atlantic context Dewulf identifies striking parallels to royal election rituals in slave communities elsewhere in the Americas and he traces these rituals to the ancient Kingdom of Kongo and the impact of Portuguese culture in West Central Africa Dewulf s focus on the social capital of slaves follows the mutual aid to seventeenth century Manhattan He suggests a much stronger impact of Manhattan s first slave community on the development of African American identity in New York and New Jersey than hitherto assumed While the earliest works on slave culture in a North American context concentrated on an assumed process of assimilation according to European standards later studies pointed out the need to look for indigenous African continuities The Pinkster King and the King of Kongo suggests the necessity for an increased focus on the substantial contact that many Africans had with European primarily Portuguese cultures before they were shipped as slaves to the Americas The book has already garnered honors as the winner of the Richard O Collins Award in African Studies the New Netherland Institute

The Contest for the Delaware Valley Mark L. Thompson, 2013-06-03 In the first major examination of the diverse European efforts to colonize the Delaware Valley Mark L. Thompson offers a bold new interpretation of ethnic and national identities in colonial America For most of the seventeenth century the lower Delaware Valley remained a marginal area under no state's complete control English Dutch and Swedish colonizers all staked claims to the territory but none could exclude their rivals for long in part because Native Americans in the region encouraged the competition Officials and settlers alike struggled to determine which European nation would possess the territory and what liberties settlers would keep after their own colonies had surrendered The resulting struggle for power resonated on both sides of the Atlantic Ocean While the rivalry promoted patriots who trumpeted loyalties to their sovereigns and nations it also rewarded cosmopolitans who struck deals across imperial colonial and ethnic boundaries Just as often it produced men such as Henry Hudson Willem Usselinx Peter Minuit and William Penn who did both Ultimately The Contest for the Delaware Valley shows how colonists officials and Native Americans acted and reacted in inventive surprising ways Thompson demonstrates that even as colonial spokesmen debated claims and asserted fixed national identities their allegiances along with the settlers often shifted and changed Yet colonial competition imposed limits on this fluidity forcing officials and settlers to choose a side Offering their allegiances in return for security and freedom colonial subjects turned loyalty into liberty Their stories reveal what it meant to belong to a nation in the early modern Atlantic world

Cultivating a Landscape of Peace Matthew Dennis, 2018-10-18 This book examines the peculiar new worlds of the Five Nations of the Iroquois the Dutch and the French who shared cultural frontiers in seventeenth century America Viewing early America from the different perspectives of the diverse peoples who coexisted uneasily during the colonial encounter between Europeans and Indians he explains a long standing paradox the apparent belligerence of the Five Nations a people who saw themselves as promoters of universal peace In a radically new interpretation of the Iroquois Dennis argues that the Five Nations sought to incorporate their new European neighbors as kinspeople into their Longhouse the physical symbolic embodiment of Iroquois domesticity and peace He offers a close original reading of the fundamental political myth of the Five Nations the Deganawidah Epic and situates it historically and ideologically in Iroquois life Detailing the particular nature of Iroquois

peace he describes the Five Nations diligent efforts to establish peace on their own terms and the frustrations and hostilities that stemmed from the fundamental contrast between Iroquois and European goals expectations and perceptions of human relationships Planning the Unthinkable Peter René Lavoy, Scott Douglas Sagan, James J. wary of external influences These fraternal Black mutual aid and burial society structures were critically important to the development and resilience of Black Christianity in America through periods of changing social conditions Afro Atlantic Catholics shows how a sizable minority of enslaved Africans actively transformed the American Christian landscape and would lay a distinctly Afro Catholic foundation for African American religious traditions today This book will appeal to scholars in the history of Christianity African American and African diaspora studies and Iberian studies **Going Dutch**, 2008-01-31 This volume investigates the place of Dutch history and Dutch derived culture in America over the last four centuries It considers how the Dutch have fared in America and it explores how American conceptions of Dutchness have developed from Henry Hudson s historic voyage to Manhattan in 1609 through the rise of Dutch design at the turn of the twenty first century Essays probe a rich array of topics Dutch themes in American arts and letters the place of Dutch paintings in American collections shifting American interests in Dutch art literature and architecture the experience of Dutch immigrants in America and the Dutch Reformed Church in America Going Dutch presents a much needed overview of the Dutch American experience from its beginnings to the present Contributors include Julie Berger Hochstrasser Willem Frijhoff Joyce D Goodfriend Hans Krabbendam Joseph Manca Nancy T Minty Mark A Peterson Christopher Pierce Judith Richardson Louisa Wood Ruby Benjamin Schmidt Robert Schoone Jongen Annette Stott Tity de Vries and Dennis P Weller Lines Drawn Upon the Water Karl S. A Search for Sovereignty Lauren Benton, 2009-11-30 A Search for Sovereignty approaches world history by examining the relation of law and geography in European empires between 1400 and 1900 Lauren Benton argues that Europeans imagined imperial space as networks of corridors and enclaves and that they constructed sovereignty in ways that merged ideas about geography and law Conflicts over treason piracy convict transportation martial law and crime created irregular spaces of law while also attaching legal meanings to familiar geographic categories such as rivers oceans islands and mountains The

resulting legal and spatial anomalies influenced debates about imperial constitutions and international law both in the colonies and at home This study changes our understanding of empire and its legacies and opens new perspectives on the global history of law
