Congress, 2004 **Heidegger on Concepts, Freedom and Normativity** Sacha Golob, 2014-01-16 This book offers a fundamentally new account of the arguments and concepts which define Heidegger s early philosophy and locates them in relation to both contemporary analytic philosophy and the history of philosophy Drawing on recent work in the philosophy of mind and on Heidegger s lectures on Plato and Kant Sacha Golob argues against existing treatments of Heidegger on intentionality and suggests that Heidegger endorses a unique position with respect to conceptual and representational content he also examines the implications of this for Heidegger s views on truth realism and being He goes on to explore Heidegger s work on the underlying issue of normativity and focuses on his theory of freedom arguing that it is freedom that links the existential concerns of Being and Time to concepts such as reason perfection and obligation His book offers a distinctive new perspective for students of Heidegger and the history of twentieth century philosophy **Unincorporated Business Entities** Larry E. Ribstein, 2000 Authentic Knowing Imants Barušs, 1996 What is the meaning of life Where

does everything come from Why is anything In Authentic Knowing Imants Baruss shows us how we might transform ourselves so that we can come closer to answering these existential questions Baruss argues persuasively that our knowledge is limited by the interpretations of experiences provided by the society around us These include the materialistic explanations belonging to a traditional scientific worldview which can account for neither the nature of matter nor anomalous phenomena such as near death experiences However authenticity the effort to act on the basis of one s own understanding can form the basis for answers to existential and scientific questions      **Federal Register** ,2014
