

IGB ACCIDENT/INCIDENT REPORTING AND INVESTIGATION PLAN

Accident/Incident Reporting

It is necessary to report every accident to your supervisor and the IGB Safety Coordinator in order to learn the cause and adopt proper methods to prevent any similar accident. The IGB Safety Department requires that all employees follow the established accident reporting procedures as follows:

Employees will report all accidents, injuries, near misses and property damage immediately to their supervisor or lab manager.

The supervisor/lab manager, upon report of an accident, will immediately administer appropriate first aid or ensure employee(s) receives the necessary medical attention.

If an ambulance (911) is called, The supervisor for the area of the incident and/or the shipping and receiving personnel will notify the Gatehouse Receptionist that emergency forces are responding to the IGB. The Gatehouse receptionist will notify IGB Facilities and Services of the incident so IGB staff can assist in the response to the incident.

The supervisor/lab manager will secure the area and/or equipment involved in the accident is properly secured and assist the employee in filling out the first report of injury/incident.

A copy of the injury/incident report will be forwarded to the IGB safety coordinator. If an injury occurred, a copy **MUST** be forwarded to the UIC office of claims management within 24 hours. **Payment for claims and /or medical bills could be delayed or denied if the report is not sent to claims management!** Below is a link to the first report of injury form.

Investigation

Accidents should be investigated as soon as possible after their occurrence (except when it delays medical treatment or the person involved is distraught). The longer the period of delay in the investigation, the more likely is the chance of witnesses not remembering the facts of the accident. Normally, the immediate supervisor should be the one to do the initial investigation because of his or her knowledge of the employees, equipment, and work practices in the area. There are five main methods of gathering accident information: (1) interviewing the accident victim, (2) interviewing accident witnesses, (3) investigation of the accident scene, (4) re-enactment of the accident, and (5) reconstruction of the accident.

Post Accident Procedures For Chemicals And Propellants Introduction

In today's digital age, the availability of Post Accident Procedures For Chemicals And Propellants books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Post Accident Procedures For Chemicals And Propellants books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Post Accident Procedures For Chemicals And Propellants books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Post Accident Procedures For Chemicals And Propellants versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Post Accident Procedures For Chemicals And Propellants books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Post Accident Procedures For Chemicals And Propellants books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they

can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Post Accident Procedures For Chemicals And Propellants books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Post Accident Procedures For Chemicals And Propellants books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Post Accident Procedures For Chemicals And Propellants books and manuals for download and embark on your journey of knowledge?
