Post Mortem Why Canadas Mail Wont Move:

The Politics of Postal Transformation Robert Malcolm Campbell, 2002 The postal system is a multi billion dollar industry and one of the world s largest employers Until recently it has been controlled by government owned monopolies designed to provide universal postal service However in response to technological and international competition as well as public disenchantment with subsidies and inefficiencies governments have embraced a range of new strategies The Politics of Postal Transformation investigates the most important policy innovations that have been instituted to match domestic political expectations with international and technological realities Robert Campbell s comparative analysis provides recommendations for policy makers around the world and lays the foundation for informed speculation about the possible future domination of the system by a select group of postal behemoths Book jacket *Post Mortem* David

Stewart-Patterson, 1987-01-01 **The Politics and Economics of Eric Kierans** John N. McDougall, 1993 In this political biography John McDougall argues that the successes and failures of Eric Kierans public life provide insights into the policy dilemmas that Canada faces in attempting to remain a united and independent country Since his first political appointment as a minister in Jean Lesage s Quebec government in the early 1960s Kierans has consistently addressed the issues dominating Canadian public life for the past thirty years Privatization and State-Owned Enterprises Paul W.

Macavoy, W.T. Stanbury, George Yarrow, Richard Zeckhauser, 2012-12-06 The book is divided into three major sections The first presents a theoretical discussion that underlies the other essays The second section deals with privatization issues from the perspective of the United States The third describes research addressed to the U K and Canada In the first chapter Richard Zeckhauser and Murray Horn develop a wide ranging theoretical framework for assessing the capabilities and role of state owned enterprises it provides a foundation for the analyses that follow In The Control and Performance of State Owned Enterprises they describe state owned enterprises as an extreme case of the separation of ownership and control The focus is on management the incentives it faces and the conflicts to which it is subjected The distinguishing characteristics of public enterprise the authors suggest give it a comparative advantage over both public bureaucracy and private enterprise in certain situations They argue that legislators are more likely to prefer SOEs over private enterprise when the efficiency of private enterprise is undermined by regulation or the threat of opportunistic state action when the informational demands of subsidizing private production to meet distributional objectives are high when it is difficult to assign property rights or when state ownership is ideologically appealing These considerations suggest why SOEs are usually assigned special rights and responsibilities and they help explain observed regularities in the distribution of SOEs across countries and sectors Zeckhauser and Horn apply principal agent theory to identify the key factors underlying the performance of state owned enterprises *The Canadian Forum* , 1987-04 Canadian Book Review Annual , 1987 To Russia with Fries George

Cohon, 2012-11-13 You might think that an autobiography by the senior chairman of McDonald s in Canada and Russia would

be a modestly boastful ho hum business story of expansion and board room debates wrapped in some nice reminiscences about his family You would be very wrong Because this is George Cohon s autobiography and George Cohon Call me George please is not an ordinary man not in his approach to business and not in his approach to telling his life story It s true that George Cohon is one of the most successful businessmen of his generation and that he s also one of the most colourful But the man you ll meet in the pages of To Russia With Fries is considerably more complex than that description suggests Here you ll encounter a man who not only dreamed the impossible dream of opening a McDonald s restaurant in the heart of the Soviet Union of all places but had the patience the persistence and above all the good humour to navigate the maze of obstacles set in his course by a scornful communist bureaucracy You ll meet a man whose heart is bigger than his assets he s donating all the royalties from this book to charity a man with a serious sense of fun who loves and is frequently on the receiving end of practical jokes a man whose life so far has been extraordinary by any standard You ll discover a man who is a natural and creative entrepreneur and an acknowledged expert on starting a business in Russia He s been there and done that long before the crash of the Iron Curtain From a man who can think and do six things at once he s been told he has a mind like a butterfly comes a very lively and hugely entertaining story that has universal appeal
