Postcolonial Theory And Criticism:

Postcolonial Theory and Criticism Uma Kant Dwivedi, Ashti Alamgeer, 2012 Postcolonial Criticism Nicholas Harrison, 2003-04-11 In the field of postcolonial studies the full richness and complexity of the connections between literature history and ideology are often overlooked by critics hurrying to stake out their political positions As a result many arguments are built on unjustified assumptions about the sort of work that literature and criticism can and cannot do In this important and timely book Harrison sheds new light on what is actually at issue in postcolonial criticism Focusing on a series of major works from Conrad's *Heart of Darkness* to Djébar's autobiography via Camus's *The Outsider* and Fanon's polemics the book draws on and elucidates a wide range of theoretical and critical work To students unfamiliar with postcolonial criticism it offers a way into the field via key issues and specific examples rather than abstract theoretical summary while for those already working in the area it raises crucial questions about the very basis of postcolonial critical practice Postcolonial Criticism is a major intervention in the field of postcolonial studies which re-examines critical suppositions about reading and representation and which calls into question established notions about the relations between literature and colonialism

Postcolonialisms Gaurav Gajanan Desai, Supriya Nair, 2005 Canonical articles most unexcerpted explore postcolonialism's key themes power and knowledge while articles by contemporary scholars expand the discipline to include discussions of the discovery of the New World Native American and indigenous identities in Latin America and the Pacific settler colonies in Africa and Australia English colonialism in Ireland and feminism in Nigeria and Egypt The inclusion of a broad sampling of histories and theories attests to multiple even competing postcolonialisms while the skillful organization of the volume provides a useful map of the field in terms of recognizable patterns shared family resemblances and common genealogies

The Post-colonial Studies Reader Bill Ashcroft, Gareth Griffiths, Helen Tiffin, 1995 The Post Colonial Studies Reader is the most comprehensive selection of key texts in post colonial theory and criticism yet compiled This collection covers a huge range of topics featuring nearly ninety of the discipline's most widely read works The Reader's 90 extracts are designed to introduce the major issues and debates in the field of post colonial literary studies This field itself however has become so varied that no collection of readings could encompass every voice which is now giving itself the name post colonial The editors in order to avoid a volume which is simply a critical canon have selected works representing arguments with which they do not necessarily agree but rather which above all stimulate discussion thought and further exploration Post colonial theory has occurred in all societies into which the imperial force of Europe has intruded though not always in the official form of theoretical text Like the description of any other field the term has come to mean many things but this volume hinges on one incontestable phenomenon the historical fact of colonialism and the palpable consequences to which this phenomenon gave rise The topic involves talk about experience of various kinds migration slavery suppression resistance representation difference race gender place and reaction to the European influence and about the fundamental experiences of speaking and

writing by which all these come into being In compiling this reader the editors have sought to stimulate people to ask How might a genuinely post colonial literary enterprise proceed The fourteen sections include Issues and Debates Universality and Difference Textual Representation and Resistance Postmodernism and Post Colonialism Nationalism Hybridity Ethnicity and Indigeneity Feminism and Post Colonialism Language The Body and Performance History Place Education and Production and Consumption Contributors include many of the leading post colonial theorists and critics such as Franz Fanon Chinua Achebe Gayatri Chakravorty Spivak Ngugi wa Thiong'o Homi Bhabha Derek Walcott Edward Said and Trinh T Minh-ha in addition to a number of the discourse's newer voices The Post Colonial Studies Reader will prove an authoritative compilation representing an invaluable contribution to the study of post colonial theory and criticism

Literatures in a Postcolonial Era Susheila Nasta, 2000. Essays on the contribution of African, Caribbean, Asian, and diaspora writers to English literature. The new literatures have most commonly been seen as a staging post en route to the current postcolonial era. Yet these literatures and the diverse cultural histories they represent are older than such recent interpretations of them. This collection of essays investigates ways in which we can return to reading these new literatures without falling back on current critical assumptions. *Postcolonialism* Ato Quayson, 2000-01-11. This important new book provides a critical introduction to the rapidly expanding field of postcolonial studies. **Postcolonial contraventions** Laura Chrisman, 2013-07-19. This electronic version has been made available under a Creative Commons BY-NC-ND open access license. This book analyses black Atlantic studies, colonial discourse analysis, and postcolonial theory, providing paradigms for understanding imperial literature, Englishness, and black transnationalism. Its concerns range from the metropolitan centre of Conrad's *Heart of Darkness* to fatherhood in Du Bois's *The Souls of Black Folk*, from the marketing of South African literature to cosmopolitanism in Achebe, and from utopian discourse in Parry to Jameson's theorisation of empire. *Contemporary Postcolonial Theory* Padmini Mongia, 2021-01-07. There is a crisis in contemporary postcolonial theory while an enormous body of challenging research has been produced. Under its auspices, severely critical questions about the validity and usefulness of this theory have also been raised. This Reader is positioned at the juncture where it can address these contestations. It makes available some of the classics of the field, engages with the issues raised by contemporary practitioners, but also offers several of the arguments that strongly critique postcolonial theory. Although postcolonial theory purports to be interdisciplinary and frequently anti-foundationalist, traces of disciplinary formations and linearity have continued to haunt its articulations. This Reader, on the other hand, offers a uniquely interdisciplinary mapping. It is concerned with three main areas: definitional problems and contests, including the current challenges to postcolonial theory; the disciplining of knowledge where the multiple resonances of the word disciplining are all engaged; and the location of practice where the relations between intellectual practice and historical conditions are explored. Finally, since the guiding principle of this Reader is simultaneous attention to the enabling and constraining mechanisms of historical realities and institutional practices, the commentary problematizes the writing of histories, the formations of canons, and indeed the production of Readers. **Postcolonial Theory and Autobiography** David Huddart, 2008-04-18. Cultural theory has often been criticized for covert Eurocentric and universalist tendencies. Its concepts and ideas are implicitly applicable to everyone, ironing over any individuality or cultural difference. Postcolonial theory has challenged these limitations of cultural theory.

and Postcolonial Theory and Autobiography addresses the central challenge posed by its autobiographical turn. Despite the fact that autobiography is frequently dismissed for its Western masculine bias, David Huddart argues for its continued relevance as a central explanatory category in understanding postcolonial theory and its relation to subjectivity. Focusing on the influence of post-structuralist theory on postcolonial theory and vice versa, this study suggests that autobiography constitutes a general philosophical resistance to universal concepts and theories. Offering a fresh perspective on familiar critical figures like Edward W. Said and Gayatri Chakravorty Spivak by putting them in the context of readings of the work of Jacques Derrida, Gilles Deleuze and Alain Badiou, this book relates the theory of autobiography to expressions of new universalisms that together with postcolonial theory rethink and extend norms of experience, investigation and knowledge.

Sugirtharajah, 2023. *The Oxford Handbook of Postcolonial Biblical Criticism* is a comprehensive treatment of a relatively new form of scholarship. Generally speaking, postcolonialism aims to critique and dismantle hegemonic worldviews and power structures while giving voice to previously marginalized peoples and systems of thought. This approach has inevitably engaged with the text and reception of the Bible, a scripture that Western colonizers introduced to and often imposed upon their colonial subjects. With a globally diverse list of contributors, the Handbook aims to cover the perspective and context of the authors of the Bible as well as the modern experiences of imperialism, resistance, decolonization and nationalism.
