Postmodernism And History:

The Postmodern History Reader Keith Jenkins, 1997 The Postmodern History Reader introduces students to the new points of controversy in the study of history and provides a framework by which to understand postmodernism and a guide to explore it further The Idea of the Postmodern Johannes Willem Bertens, 1995 On Postmodernism *Postmodernism and History* Willie Thompson, 2017-03-14 In this clear jargon free guide Willie Thompson provides a concise introduction to postmodernist theory and its significant impact on the study of history Although this is a hotly debated topic with much of the current literature being both polemical and inaccessible to the beginner Thompson offers straightforward explanations of complex concepts and shows how the debates are relevant to students own work Postmodernism and History Considers the origins of postmodernism in both the ideas of poststructuralist thinkers particularly Michel Foucault and the political and cultural developments of the late 20th century Explores themes such as the treatment of historical evidence problems of historical representation feminist history ethical judgements on past events and the validity of metanarrative or long term historical explanation Discusses critically the work of a number of current and recent practicing historians including Joan Scott Roy Porter Patrick Joyce and James Vernon who have used postmodernist ideas in their writing Enquires how far postmodern thought has been absorbed into mainstream historiography **Postmodernism for Historians** Callum G. Brown, 2013-12-02 Postmodernism is an essential approach to History This is the first dedicated primer on postmodernism for the historian It offers a step by step guide to postmodern theory includes a guide to how historians have applied the theory and provides a review of why its critics are wrong In simple and clear language it takes the reader through the chain of theory that developed in the 20th century to become now in the early 21st century the leading stimulant of new forms of research in History With separate chapters on The Sign The Discourse Post Structuralism The Text The Self and Morality this book will encourage a new critical awareness of Theory when reading books of History and when writing essays and dissertations Armed with the principal ideas of Saussure Barthes Foucault and Derrida the historians can formulate how to combine empirical History with the excitement of fresh perspectives and new skills merged in the new moral impetus of the postmodern condition Designed for the beginner this is the essential postmodern starting point **A Poetics of Postmodernism** Linda Hutcheon, 2003-09-02 First published in 1988 Routledge is an imprint of Taylor Francis an informa company Postmodernism in History Beverley Southgate, 2003-09-02 This book traces the philosophical precursors of postmodernism and identifies the roots of current concerns Beverley Southgate describes the core constituents of postmodernism and provides a lucid and profound analysis of the current concerns **On the Future of History** Ernst Breisach, 2007-11-01 What does postmodernism mean for the future of history Can one still write history in postmodernity To answer questions such as these Ernst Breisach provides the first comprehensive overview of postmodernism and its complex relationship to history and historiography Placing postmodern theories in their intellectual and historical contexts he shows

how they are part of broad developments in Western culture Breisach sees postmodernism as neither just a fad nor a universal remedy In clear and concise language he presents and critically evaluates the major views on history held by influential postmodernists such as Derrida Foucault Lyotard and the new narrativists Along the way he introduces to the reader major debates among historians over postmodern theories of evidence objectivity meaning and order truth and the usefulness of history He also discusses new types of history that have emerged as a consequence of postmodernism including cultural history microhistory and new historicism For anyone concerned with the postmodern challenge to history both advocates and critics alike *On the Future of History* will be a welcome guide

Cultural History and Postmodernity Mark Poster, 1997 In a series of incisive readings of signature historical works Mark Poster charts the move from social history to new practices of cultural history that are drawing strength from poststructuralist interpretive strategies and raising issues found in feminist and postcolonialist discourse In the process he sets forth an outline for a postmodern historiography that can negotiate the contested terrain between the ambiguities of discourse and the pull of the real As Poster provides close readings of leading historians and theorists such as Lawrence Stone Francois Furet Michel de Certeau and Michel Foucault key themes animate his work the often irreducible difference between past and present the relationship of writing and representation to power and domination the dissolving distinctions between high and low culture production and consumption and reality and fiction and most important a new perspective on human agency and the construction of political subjects

Why History? Keith Jenkins, 2005-11-18 *Why History* is an introduction to the issue of history and ethics Designed to provoke discussion the book asks whether a good knowledge and understanding of the past is a good thing to have and if so why In the context of postmodern times *Why History* suggests that the goal of learning lessons from the past is actually learning lessons from stories written by historians and others If the past as history has no foundation can anything ethical be gained from history *Why History* presents liberating challenges to history and ethics proposing that we have reached an emancipatory moment which is well beyond the end of history

Uses of History Francis Barker, Peter Hulme, Margaret Iversen, 1991 Seven essays from a symposium at the U of Essex no date noted explore the viability of modern critical theories in illuminating the Renaissance focusing especially on the plays of Shakespeare Distributed in the US by St Martin's Press Annotation copyrighted by Book News Inc Portland OR

Postmodernism in History Beverley C. Southgate, 2003 *Our Shadowed Present* J. C. D. Clark, 2003 At a time of the widespread rejection of history by politicians and intellectuals Jonathan Clark's new book is a landmark defence of continuity a key account of how public morality civic involvement and our sense of tradition depend on what historians write

Historiography Between Modernism and Postmodernism Jerzy Topolski, 1994 *From Puritanism to Postmodernism* Malcolm Bradbury, Richard Ruland, 1992-12-01 From Modernist Postmodernist perspective leading critics Richard Ruland American and Malcolm Bradbury British address questions of literary and cultural nationalism They demonstrate that since the seventeenth century American writing has

reflected the political and historical climate of its time and helped define America's cultural and social parameters. Above all, they argue that American literature has always been essentially modern, illustrating this with a broad range of texts from Poe and Melville to Fitzgerald and Pound to Wallace Stevens, Gwendolyn Brooks, and Thomas Pynchon. From Puritanism to Postmodernism, it pays homage to the luxuriance of American writing by tracing the creation of a national literature that retained its deep roots in European culture while striving to achieve cultural independence.

The Logic of History C. Behan McCullagh, 2004. The Logic of History defends the practice of history as more reliable than has recently been acknowledged, arguing that historians make their accounts as fair as they can and avoid misleading their readers.

Materialist Philosophy of History Branko Mitrovic, 2020-07-08. What does it mean for our understanding of history if we assume that everything is physical and that no immaterial entities, forces, or phenomena exist? A Materialist Philosophy of History: A Realist Antidote to Postmodernism examines the implications of a materialist worldview in contemporary philosophy of history. Materialism has wide-ranging consequences for historical research as well as for the credibility of various conceptions of the historical past. Branko Mitrovic shows how these implications pertain both to the nature of social institutions and the capacities of historical figures to decide, act, acquire beliefs, and communicate, and to the methodology of historical research and problems such as the interpretation and the translation of historical documents. A materialist view also entails rejecting the view that forces such as culture, language, or society can construct physical reality or that the historical past is constructed through the work of the historian. This book examines these consequences and presents a comprehensive materialist perspective on historical research and the understanding of the historical past.
