Creative Thinking C J Hollins, 2012-01-28 What would C zanne Monet Picasso Kandinsky and the other founders of modern art think of Damien Hirst's shark in formaldehyde or Tracey Emin's unmade bed Has modern art moved on since the breakthroughs of these early pioneers or are we going round in circles Has modern art merely become a carnival of the shocking grotesque and ridiculous because modern artists have failed to comprehend what Modernism emerged to explore Have modern artists become so intoxicated by the need for notoriety and celebrity status that they are no longer interested in the quest for a genuine art experience In this collection of essays written between 1968 and 2010 C J Hollins reveals his thoughts on these questions in an unflinching attempt to open our eyes to the enigma of modern art From early cave paintings and traditional masterpieces Hollins explores the development of art ending at the current crisis point of our times More importantly he offers concrete theories of what the modern artist should be striving to achieve to move us closer to a new way of perceiving the world
