Narratives and Imaginings of Citizenship in Latin America Cristina Rojas,Judy Metzler,2016-01-08 This book looks at how citizenship has been imagined and transformed in Latin America through the twentieth and early twenty first centuries from different disciplinary perspectives including anthropology history urban planning geography and political studies It looks beyond citizenship as a formal legal status to explore how ideas about citizenship have shaped political and historical landscapes in different ways through the region It shows how conceptions of citizenship are intertwined with understandings of natural spaces and environments how indigenous politics are de colonizing western liberal conceptions of citizenship and how citizenship is being transformed through local level politics and projects for development In addition to showcasing some of the novel emerging forms of citizenship in the region the book also traces the ways in which historical narratives of citizenship and national belonging persist within present day politics Collectively the chapters show that citizenship remains an important entry point for understanding politics projects of reform and struggles for transformation in Latin America This book was published as a special issue of Citizenship Studies

**The Management Shift V.** Hlupic,2014-10-29 Research shows that corporate life expectancy and performance have declined 75% in the last 50 years organizations need a different approach if they are to survive let alone thrive While people are often stated as a company s greatest asset few businesses have a clear model of leadership that improves engagement removes barriers to innovation and uncovers hidden strengths in people and the organization This book addresses that need and more importantly demonstrates HOW organizations can make The Management Shift to a new way of thinking and working Professor Hlupic argues that organizations now need to adopt a leadership style that focuses on people purpose and knowledge sharing creating new types of value and ultimately improving innovation and engagement leading to improved business Based on leading edge research supported by numerous case studies which demonstrate the power and impact of change The Management Shift

offers managers a practical and systemic approach to diagnose leadership issues in their organization. It then provides an implementation process to shift their mindset and organizational culture to the new level of thinking performance and ultimately business success. *The Economics of Ecosystems and Biodiversity in Business and Enterprise* Joshua Bishop, 2013-06-17 This book is a product of the TEEB study The Economics of Ecosystems and Biodiversity. It provides important evidence of growing corporate concern about biodiversity loss and offers examples of how leading companies are taking action to conserve biodiversity and to restore ecosystems. This book reviews indicators and drivers of biodiversity loss and ecosystem decline and shows how these present both risks and opportunities to all businesses. It examines the changing preferences of consumers for nature friendly products and services and offers examples of how companies are responding. The book also describes recent initiatives to enable businesses to measure value and report their impacts and dependencies on biodiversity and ecosystem services. The authors review a range of practical tools to manage biodiversity risks in business with examples of how companies are using these tools to reduce costs protect their brands and deliver real business value. The book also explores the emergence of new business models that deliver biodiversity benefits and ecosystem services on a commercial basis the policy enabling frameworks needed to stimulate investment and entrepreneurship to realize such opportunities and the obstacles that must be overcome. The book further examines how businesses can align their actions in relation to biodiversity and ecosystem services with other corporate responsibility initiatives including community engagement and poverty reduction. Finally the book concludes with a summary and recommendations for action. **Islamic Microfinance** Hussain Mohi ud Din Qadri, Hassnain Ali, 2024-05-20 Islamic microfinance is one of the most important sectors of Islamic social finance which plays a very important role in curbing poverty and improving the standard of living per capita income employment level as well as achieving Maqasid al Shariah profitability and sustainability. This role of Islamic microfinance has become more crucial in the pandemic period. It has been clearly witnessed in developing countries such as Pakistan and Bangladesh how Islamic microfinance institutions helped deprived and affected communities during the pandemic. Another important development during the pandemic was the introduction of blended models of Islamic microfinance such as waqf based Islamic microfinance a zakat based model and the combination of Islamic commercial and social finance. Islamic microfinance institutions also aim to harness the power of digitalization and fintech but they need to consider the necessary success factors to realize and gain the real benefits of technology. There are some major challenges related to regulations management issues lack of skilled human resources a wide digital divide and low level of financial literacy in developing countries. These challenges need to be addressed to ensure stability steady growth and sustainability in the sector. This book is a compendium on Islamic microfinance including case studies from seven jurisdictions and prospects for the sector. The book will be a major contribution to the literature of Islamic economics and finance and a guide of equal importance for students academics institutions regulators fintechs policy makers and the general public.
