David Brown, 1998-08-19 After a history of funding environmentally costly megaprojects the World Bank now claims that it is trying to become a leading force for sustainable development For more than a decade nongovernmental organizations NGOs and grassroots movements have formed transnational coalitions to reform the World Bank and the governments that it funds The Struggle for Accountability assesses the efforts of these groups to make the World Bank more publicly accountable The book is organized into four parts Part I describes the NGOs and grassroots movements that are the book's central focus Part II presents case studies of four projects that provoked the emergence of transnational advocacy coalitions Indonesia's Kedung Ombo dam the Mt Apo geothermal plant in the Philippines Brazil's Planaforo Amazon development project and the remarkable campaign of Ecuador's indigenous people to influence national economic policy that led to their participation in the design of a development loan Part III looks at the origins and politics of reform in four areas of broader World Bank policy the rights of indigenous peoples

The Oxfam Poverty Report Kevin Watkins, 1995 Fifty years ago the United Nations Charter proclaimed universal rights to shared prosperity peace and security How far has that vision of world citizenship been realised Despite advances in human welfare and technology there is today a growing polarisation between rich and poor One in four of the world's people live in absolute poverty unable to meet their basic needs armed conflict is affecting millions of people and the global environment is under threat Yet there is a failure of political will to address the silent emergency of poverty The Oxfam Poverty Report draws on Oxfam's experience of working in over 70 countries to examine the causes of poverty and conflict It identifies the structural forces which deny people their basic rights and gives a wide range of examples of the ways in which men and women are bringing about positive change at every level from the household to the international arena Oxfam believes that it is time to renew the UN vision of universal basic rights The Report concludes by proposing policy and institutional reforms which would transform international institutions and trading relations and calls for a new commitment to work together to eradicate poverty and bring sustainable peace and security for all the world's people

Monitoring Environmental Progress, 1995-01-01 Annotation Showcases improvements in environmentally sustainable development indicators by using them to analyze policy oriented issues The World Bank is both a compiler and a user of environmentally sustainable development ESD indicators Although the Bank is more a user than a compiler of indicators in general it believes in ensuring proper communication between users and compilers especially for users who are policymakers It is essential that policymakers have at least rough indicators of whether environmental conditions are improving or deteriorating in broad areas of concern This report showcases improvements in ESD indicators by using them to analyze policy oriented issues The report examines issues in developing indicators that are understood by compilers and users including definitions methodology and practical considerations It addresses the gray area where physical indicators of environmental conditions blend into policymaking and proposes a change in the role of national accounting where poor measurement of environmental aspects can send distorted signals to decisionmakers
