*Poverty, Urbanization, and Development Policy* A. M. Balisacan, 1994 Poverty and under development are the subjects of this book While the focus is on urban poverty the principal themes running throughout the book apply as well to rural poverty The book traces the roots of the Philippine poverty problem to industrialization and spatial policies that unduly encouraged concentration of infrastructure and social services in major urban centers to trade and macroeconomic policies that severely penalized agriculture labor intensive exports and small to medium scale manufacturing establishments to public spending policies that accorded little attention to human capital formation for the poor and to the lack of strong complementarity of state and market Taking into account economic constraints and political economy considerations the book discusses ways on how to enhance pro poor pro market and pro growth policies particularly those aimed at correcting disincentives against rapid employment expansion balanced urban rural growth and human capital formation

**Poverty in the Philippines** Asian Development Bank, 2009-12-01 Against the backdrop of the global financial crisis and rising food fuel and commodity prices addressing poverty and inequality in the Philippines remains a challenge The proportion of households living below the official poverty line has declined slowly and unevenly in the past four decades and poverty reduction has been much slower than in neighboring countries such as the People s Republic of China Indonesia Thailand and Viet Nam Economic growth has gone through boom and bust cycles and recent episodes of moderate economic expansion have had limited impact on the poor Great inequality across income brackets regions and sectors as well as unmanaged population growth are considered some of the key factors constraining poverty reduction efforts This publication analyzes the causes of poverty and recommends ways to accelerate poverty reduction and achieve more inclusive growth it also provides an overview of current government responses strategies and achievements in the fight against poverty and identifies and prioritizes future needs and interventions The analysis is based on current literature and the latest available data including the 2006 Family Income and Expenditure Survey

Taken from the sustainable livelihoods approach these assets are human physical natural financial and social capital

**Poverty, Growth and Institutions in Developing Asia** E. Pernia,A. Deolalikar,2003-10-07 The theme of this book is that economic growth is key but institutions and other national and subnational attributes matter as well They are critical to explaining differences in social development and poverty reduction across countries and subnational areas that cannot be accounted for by growth alone The book concludes that a more complete strategy needs to consider various institutional factors at the national and subnational levels to achieve rapid and sustained poverty reduction Indeed paying attention to these factors will benefit both growth and poverty reduction **Asian Development Review - Volume 28, Number 1**

*Critical Reflections on Cities in Southeast Asia* Tim Bunnell,Lisa Drummond,Ho,2021-11-15 Critical Reflections draws together the multi disciplinary research of scholars working in on cities across Southeast Asia The fourteen essays collected in the volume are organised into three thematic sections re conceptualisation competition and intervention Collectively these reflections contribute to and interrogate the expanding urban and regional studies literature The volume constitutes a critical corrective to the existing literature which all too often seeks to diagnose contemporary urban trends everywhere from a small number of mostly Western paradigmatic cases Yet while acknowledging the increasing interconnectedness and shared global orientation of most cities in Southeast Asia the volume is wary of positing an equally generalising regional model Individually these essays attend to the diversity of contemporary urban experiences in Southeast Asia **Landscapes of**

**Globalization** Philip F. Kelly,2012-10-02 In this critical and sophisticated analysis Philip F Kelly challenges the conventional

**The Green Tiger** Barbara Goldoftas, 2006 The Philippines was once famous for the beauty of its reef ringed islands white beaches and lush forests In less than a half century its forests were felled its oceans over fished and its coral reefs destroyed The rapid harvest of once abundant resources has brought droughts deadly flash floods and the collapse of vital fisheries As the rural economy weakened and millions migrated to cities they overwhelmed the urban infrastructure Today the Philippines stands as an example of the profound and sweeping consequences of ecological decline In *The Green Tiger* Barbara Goldoftas documents this tragic trajectory But hers is not a story of hopelessness and inevitable defeat In lyrical unflinching prose she traces the struggle for conservation in the Philippines from isolated villages to large cities and in the process illustrates the surprising ways in which conservation and economic growth can effectively co exist

Society & Culture ,

**The Philippines** David Joel Steinberg, 2018-02-19 A unified nation with a single people the Philippines is also a highly fragmented plural society Divided between uplander and lowlander rich and poor Christian and Muslim between those of one ethnic linguistic and geographic region and those of another the nation is a complex mosaic formed by conflicting forces of consensus and national identity and of division and instability It is not possible to comprehend the many changes in the Philippines such as the rise and fall of Ferdinand Marcos or the revolution that toppled him without an awareness of the religious cultural and economic forces that have shaped the history of these islands These forces formed the focus of the first edition of *The Philippines* Of that 1982 edition the late Benigno Aquino Jr noted that anyone wanting to understand the Philippines and the Filipinos today must include this book in his must reading list The fourth edition has been updated through the final years of the Ramos presidency and contains a new section on the impact of President Estrada
