Poverty And The Planet A Question Of Survival:

Poverty and the Planet Ben Jackson, 1994 The Illusion of Progress Alexander Gillespie, 2014-05-14 Is sustainable development a charade sold to an increasingly misled public This book presents a wide ranging penetrating critique of sustainability and what it actually means The author argues that despite the rhetoric of socially and environmentally sustainable development and the ever increasing number of legislative environmental policies the real issues such as consumption population growth and equity are either sidestepped or manipulated in international policy and law Analyzing the main areas of concern economic growth market structure trade aid debt security and sovereignty he shows that the entire development structure and the underpinnings of the debate are leading down quite a different path to that intended by sustainability *Public Support for International Development* OECD Development Centre, 1996-05-21 Is public support for international development failing The question was examined in a number of contexts during a meeting of experts brought together in a joint enterprise by the OECD Development Assistance Committee and the OECD Development Centre Views ranged widely but the overall **Health and Human Rights in a Changing World** Michael Grodin, Daniel Tarantola, George Annas, Sofia Gruskin, 2013-07-04 Health and Human Rights in a Changing World is a comprehensive and contemporary collection of readings and original material examining health and human rights from a global perspective Editors Grodin Tarantola Annas and Gruskin are well known for their previous two volumes published by Routledge on this increasingly important subject to the global community The editors have contextualized each of the five sections with foundational essays each reading concludes with discussion topics questions and suggested readings This book also includes Points of View sections originally written perspectives by important authors in the field Section I is a Health and Human Rights Overview that lays out the essential knowledge base and provides the foundation for the following sections Section II brings in notions of concepts methods and governance framing the application of health and human rights in particular the Human Rights based Approaches to Health Section III sheds light on issues of heightened vulnerability and special protection stressing that the health and human rights record of any nation any community is determined by what is being done and not done about those who are most in need Section IV focuses on addressing system failures where health and human rights issues have been documented recognized even at times proclaimed as priorities and yet insufficiently attended to as a result of State denial unwillingness or incapacity Section V examines the relevance of the health and human rights paradigm to a changing world underscoring contemporary global challenges and responses Finally a Concluding Note brings together the key themes of this set of articles and attempts to project a vision of the future The Social Question in the Global World Ewa Bogalska-Martin, Emmanuel Matteudi, 2018-04-18 In an era of rapid globalisation how can the changes that characterise how the social question is addressed in rich and emerging countries be analysed How can one interpret the crisis in the Welfare State and the emergence of new social policies that push for the financial contribution of beneficiaries and the

development of new forms of solidarity What can be said about the world's poorest countries and their recurrent difficulty in benefiting from international aid to fight against poverty and ensure the protection of all people This volume brings together 24 researchers from around the world to analyse a series of case studies of developed emerging and developing countries They study the evolution or decline observed in these countries and propose some answers to the issue of the way in which the economic model influences how the social question is taken into account around the world A closer look reveals that the manner in which this question is addressed largely determines how the evolution of the world is perceived While the contributors here highlight how capitalism makes it possible to reflect on the issue of social protection they also show the limits of policies unable to guarantee this protection as soon as the economic situation can no longer allow countries to bear its costs

Institutional Performance AP Johan Burger, 2025-02-28 Public institutions are continuously criticised for their lack of performance Often justifiably so as evidenced by well publicised poor audit findings and other applied performance measures But the reality is also that good performance is taken for granted especially when publicly valued outcomes are achieved through services appropriately delivered and integrated In this book the relevance of a public value orientation for institutional performance and management applications to enhance the measured actions of public value leaders and managers towards better performance are discussed Johan Burger is an emeritus professor at Stellenbosch University He has an academic career now spanning 30 years during which he was also Director of the School of Public Leadership for 10 years Prior to his academic career he was an architect and construction project manager in the public sector Initially he project managed the construction of educational facilities but in the latter part became involved in low income housing project management where engaging with communities and households became thoroughly instilled as indispensable way of work
