Power and Innocence: A Search for the Sources of Violence Rollo May, 1998-03-17 Stressing the positive creative aspects of power and innocence Rollo May offers a way of thinking about the problems of contemporary society Rollo May defines power as the ability to cause or prevent change innocence on the other hand is the conscious divesting of one's power to make it seem a virtuous form of powerlessness that Dr May sees as particularly American in nature From these basic concepts he suggests a new ethic that sees power as the basis for both human goodness and evil Dr May discusses five levels of power's potential in each of us the infant's power to be self-affirmation the ability to survive with self-esteem self-assertion which develops when self-affirmation is blocked aggression a reaction to thwarted assertion and finally violence when reason and persuasion are ineffective Library Book Catalog United States. Livingston, Violence forgiveness and healing Domestic violence is a widespread though largely invisible problem often exacerbated by

the pastoral urge to keep the family together at all costs Yet if that is not a solution how should the church relate to batterers I believe that the Christian community if it is to be genuinely a community of healing and hope must attend to both the victims and the perpetrators of domestic violence says David Livingston Addressing the complex phenomenon of intimate violence against wives lovers and children Livingston profiles batterers and battering and traces it to larger cultural pathologies He explores the ambiguous role of religion and then offers practical advice of pastoral and programmatic efforts to embrace simultaneously the twin Christian imperatives of forgiveness and responsibility

Savage Constructions Wendy C. Hamblet, 2008-03-26 Savage Constructions composes a critical examination of the popular assumption that violence is an essential quality of certain ethnic or racial populations Wendy Hamblet challenges the supposition all too common in the West that darker skinned peoples are inherently violent To challenge this myth Savage Constructions offers a theory of subjectivity transformed by historical violence It rethinks how African peoples once living in simple neighborly communities more democratic and egalitarian than modern states have come to the condition of abjection misery and fierce aggression in which we find them today This rethinking she argues that Western affluence is built upon slaughter slavery and colonial oppression and suggests that prosperous nations of the West owe a great debt to the societies they trampled en route to their prosperity This work is important because Newly independent nations of Africa are a primary example of a much vaster phenomenon Western powers continue to sack poorer weaker countries through covert intrigue outright war crippling debts and unfair global labor and trade policies The violences continue because many Westerners still harbor metaphysical assumptions about the supremacy of white Christians over less civilized darker skinned peoples These assumptions depress the possibilities of ethnic minorities within the West continue to influence foreign policy and frustrate global relations and ensure that the overwhelming collateral damage of modern wars is color conscious Savage
