Reanimation in Philosophy Palmer Talbutt, 1986 To find more information on Rowman Littlefield titles please visit us at www.rowmanlittlefield.com Laconic philosophical encyclopedia. LaPhiEnia (LPE) Oleg Starchen, 2022-05-15 I am not very well know English so I apologies for mistakes This encyclopedia is about the love of wisdom and it is laconic which is defined by its name This encyclopedia is such not in the academic sense but in the Hegel sense because the great philosopher Georg Hegel created the original work Encyclopedia of philosophical Sciences Therefore a LAconic PHilosophical ENcyclopedia or for short i e speaking laconically LaPhiEnia LPE is also OrPhiEnia Oleg Starchen 2018 Marcuse in the Twenty-First Century Robert Kirsch, Sarah Surak, 2018-12-07 This book engages the critical theory of political philosopher Herbert Marcuse to imagine spaces of resistance and liberation from the repressive forces of late capitalism Marcuse an influential counterculture voice in the 1960s highlighted the smooth democratic unfreedom of postwar capitalism a critique that is well adapted to the current context The compilation begins with a previously unpublished lecture delivered by Marcuse in 1966 addressing the inadequacy of philosophy in its current form arguing how it may be a force for liberation and social change This lecture provides a theoretical mandate for the volume s original contributions from international scholars engaging how topics such as higher education aesthetics and political organization can contribute to the project of building a critical rationality for a qualitatively better world offering an alternative to the bleak landscape of neoliberalism The essays in this volume as whole engage the current context with an urgency appropriate to the problems facing an encroaching authoritarianism in political society with an interdisciplinary lens that speaks to the complexity of the problems facing modern society The chapters originally published as a special issue in New Political Science **Evil Spirits** Gary Banham, Charlie Blake, 2000 Incorporating a diversity of approaches from a variety of disciplines this book provides a major reassessment of the question of nihilism in modernity and interrogates this through the growing interest in angels and demons in contemporary philosophy The collection examines the uncanny return of angelic and demonic principles in current cultural production and thinking and aims to show that the repression of thought about spiritual entities at the onset of modernity is linked to the appearance of a new form of evil that manifests itself through nihilism Roberto Esposito Peter Langford, 2015-05-15 Roberto Esposito Law Community and the Political provides a critical legal introduction to this increasingly influential Italian theorist s work by focusing on Esposito s reconceptualisation of the relationship between law community and the political The analysis concentrates primarily on Esposito s Cat gories de l Impolitique Communitas Immunitas and B os which it is argued are animated by an abiding concern with the position of critique in relation to the tradition of modern and contemporary legal and political philosophy Esposito s fundamental rethinking of these notions breaks with the existing framework of political and legal philosophy through the critique of its underlying presuppositions And in the process Esposito rethinks the very form of critique As the first monograph length study of Esposito in English

Roberto Esposito Law Community and the Political will be of considerable interest to those working in the areas of contemporary legal and political thought and philosophy

Kant, Adorno, and the Forms of History William S. Allen, 2025-02-06 Kant Adorno and the Forms of History sets the works of Theodor Adorno Immanuel Kant and Peter Weiss in dialogue revealing how an interrogation of the aesthetics of the whole and the conception of history in Western thought reveals new ways of thinking about history and historically To conceive of history as such it is necessary to conceive it as a whole but doing so carries implications about its development and direction Furthermore such an idea makes it difficult to consider its parts without subsuming them to the whole thereby making individuals merely instrumental to achieving the aims of history William S Allen brings the thought of Kant Adorno and Weiss to bear on these tensions tracing how Adorno s reconsideration of history through his readings of Kant s Critique of Judgement are distinct from formulations offered by other thinkers Marx Hegel Lyotard Allen establishes that Kant s Critique of Judgement is not only a sustained analysis of the development of forms whether aesthetic or organic but also a tacit interrogation of the form of the whole and the possibilities of thinking it Kant Adorno and the Forms of History argues that Adorno has taken up this interrogation more than any other thinker and through his aesthetics has introduced an alternative thought which has been modified and extended in the work of Peter Weiss in his last novel The Aesthetics of Resistance Within this thought lies the possibility of thinking history without the whole without unity or purpose which is a possibility that may offer new insights in the face of imminent environmental economic and political collapse

Literary Studies and Human Flourishing

James F. English, Heather Love, 2023 The Humanities and Human Flourishing series publishes edited volumes that explore the role of human flourishing in the central disciplines of the humanities and whether and how the humanities can increase human happiness The contributors to this volume of essays investigate the question what do literary scholars contribute to social scientific research on human happiness and flourishing Of all humanities disciplines none is more resistant to the program of positive psychology or the prevailing discourse of human flourishing than literary studies The approach taken in this volume of essays is neither to gloss over that antagonism nor to launch a series of blasts against positive psychology and the happiness industry Rather the contributors reflect on how their literary research work to which they are personally committed might become part of an interdisciplinary conversation about human flourishing The contributors areas of research are wide ranging covering literary aesthetics book history digital humanities and reader reception as well as the important inter disciplines of gender and sexuality studies disability studies and black studies fields in which issues of stigma and exclusion are paramount and which have critiqued the discourse of human flourishing for its failure to grapple with structural inequality and human difference Literary scholars are drawn more readily to the problematic than to the decidable but by dwelling on the trouble spots in a field of inquiry still largely confined to the sciences Literary Studies and Human Flourishing provides the groundwork for new and more productive forms of interdisciplinary collaboration and exchange

Mind, 1988 A journal of philosophy covering epistemology metaphysics philosophy of language philosophy of logic and philosophy of mind Science and the Shaping of Modernity Charles Wolfe, Anik Waldow, 2024-12-23 This book collects a variety of short essays on Stephen Gaukroger's thought by leading scholars both senior and junior Stephen Gaukroger 1950-2023 was one of the preeminent specialists of early modern science and philosophy particularly their interrelations including under the heading natural philosophy on the international scene since the 1980s starting with his prominent Cartesian scholarship and biography and moving towards the formidable 4 volume series on science and the shaping of modernity from Emergence of a Scientific Culture to Civilization and the Culture of Science dealing not just with early modernity but with the Enlightenment German Romanticism and 20th century society This volume covers the thought of this highly recognized scholar and engages with his works covering early modern philosophy enlightenment and contemporary periods making it a must read for any philosopher and historian of science Revue roumaine de philosophie, 2007 The Barbarian Principle Jason M. Wirth, Patrick Burke, 2013-09-04 Toward the end of his life Maurice Merleau-Ponty made a striking retrieval of F W J Schelling's philosophy of nature The Barbarian Principle explores the relationship between these two thinkers on this topic opening up a dialogue with contemporary philosophical and ecological significance that will be of special interest to philosophers working in phenomenology and German idealism Heidegger's Hidden Sources Reinhard May, 2005-08-02 Heidegger's Hidden Sources documents for the first time Heidegger's remarkable debt to East Asian philosophy In this groundbreaking study Reinhard May shows conclusively that Martin Heidegger borrowed some of the major ideas of his

philosophy on occasion almost word for word from German translations of Chinese Daoist and Zen Buddhist classics The discovery of this astonishing appropriation of non Western sources will have important consequences for future interpretations of Heidegger s work Moreover it shows Heidegger as a pioneer of comparative philosophy and transcultural thinking *Beyond Blaxploitation* Novotny Lawrence, Gerald R. Butters, 2016-11-28 *Beyond Blaxploitation* is a much needed pedagogical tool informing film scholars critics and fans alike about blaxploitation s richness and complexity

Reinhabiting Reality Freya Mathews, 2012-02-01 In this sequel to *For Love of Matter A Contemporary Panpsychism* also published by SUNY Press Freya Mathews argues that replacing the materialist premise of modern civilization with a panpsychist one transforms the entire fabric of culture in profound ways She claims that the environmental crisis is a symptom of deeper issues facing modern civilization arising from the loss of the very meaning of culture To come to grips with this crisis requires a change in the metaphysical premise of modernity deeper than any as yet envisaged even by the radical ecology movement This is a change with profound implications for the full range of existential questions and not merely for questions regarding our relationship with nature *New Directions in the Ethics of Assisted Suicide and Euthanasia* Michael Cholbi, Jukka Varelius, 2023-03-03 This book provides novel perspectives on ethical justifiability of assisted dying in the revised edition of *New Directions in the Ethics of Assisted Suicide and Euthanasia* Going significantly beyond traditional debates about the value of human life the ethical significance of individual autonomy the compatibility of assisted dying with the ethical obligations of medical professionals and questions surrounding intention and causation this book promises to shift the terrain of the ethical debates about assisted dying The novel themes discussed in the revised edition include the role of markets disability gender artificial intelligence medical futility race and transhumanism Ideal for advanced courses in bioethics and healthcare ethics the book illustrates how social and technological developments will shape debates about assisted dying in the years to come *American Book Publishing Record* , 1987
