Reappraising Durkheim for the Study and Teaching of Religion Today Idinopulos, Brian C. Wilson, 2018-09-24

Reappraising Durkheim for the Study and Teaching of Religion Today is an occasion to critically analyze and reassess the work of this intellectual pioneer. It is also an effort to signal the continuing importance of Durkheim for today's graduate and advanced undergraduate classrooms. Reappraising Durkheim brings together ten new critical essays in which noted sociologists, psychologists, phenomenologists, philosophers, and historians of religion grapple with the questions Durkheim raised and the solutions he proposed. Taken together, the volume is a careful historical and multi-disciplinary study of Durkheim that will lead students to a better understanding of how to study religion. Reappraising Durkheim will be an excellent text for courses focusing on theory and method in the academic study of religion at both the graduate and advanced undergraduate level. It would therefore be appropriate for use in departments of religious studies, philosophy, sociology, and anthropology.

Teaching Durkheim Terry F. Godlove, 2005. Emile Durkheim's work on religion occupies a central place in religious studies classrooms today. This volume is designed as a resource for teachers offering practical advice about productive ways to approach central texts and difficult pedagogical issues.

[The Oxford Handbook of the Sociology of Religion](#) Peter Clarke, 2011-02-04. The Oxford Handbook of the Sociology of Religion draws on the expertise of an international team of scholars providing both an entry point into the sociological study and understanding of religion and an in-depth survey into its changing forms and content in the contemporary world. The role and impact of religion and spirituality on the politics, culture, education, and health in the modern world is rigorously discussed and debated. The study of the sociology of religion forges interdisciplinary links to explore aspects of continuity and change in the contemporary interface between society and religion. Using a combination of theoretical, methodological, and content-led approaches, the fifty-seven contributors collectively emphasise the complex relationships between religion and aspects of life from scientific research to law, ecology to art, music to cognitive science, crime to institutional health care, and more. The developing character of religion, irreligion, and atheism, and the impact of religious diversity on social cohesion are explored. An overview of current scholarship in the field is provided in each themed chapter with an emphasis on encouraging new thinking and reflection on familiar and emergent themes to stimulate further debate and scholarship. The resulting essay collection provides an invaluable resource for research and teaching in this diverse discipline.

The Power of the Sacred Hans Joas, 2021-02-16. Disenchantment is a key term in the self-understanding of modernity. But what exactly does this concept mean? What was its original meaning when Max Weber introduced it? And can the conventional meaning or Max Weber's view really be defended given the present state of knowledge about the history of religion? In *The Power of the Sacred*, Hans Joas develops the fundamentals of a new sociological theory of religion by first reconstructing existing theories from the eighteenth century to the present. Through a critical reading and reassessment of key texts in the three empirical disciplines

of history psychology and sociology of religion including the works of David Hume J G Herder Friedrich Schleiermacher William James Emile Durkheim and Ernst Troeltsch Joas presents an understanding of religion that lays the groundwork for a thorough study of Max Weber's views on disenchantment After deconstructing Weber's highly ambiguous use of the concept Joas proposes an alternative to the narratives of disenchantment and secularization which have dominated debates on the topic He constructs a novel interpretation that takes into account the dynamics of ever new sacralizations their normative evaluation in the light of a universalist morality as it first emerged in the Axial Age and the dangers of the misuse of religion in connection with the formation of power Built upon the human experience of self transcendence rather than human cognition or cultural discourses *The Power of the Sacred* challenges both believers and non believers alike to rethink the defining characteristics of Western modernity Alfred Loisy and the Making of History of Religions Annelies

Lannoy,2020-08-10 This monograph studies the professionalization of History of religions as an academic discipline in late 19th and early 20th century France and Europe Its common thread is the work of the French Modernist priest and later Professor of History of religions at the Collège de France Alfred Loisy 1857-1940 who participated in many of the most topical debates among French and international historians of religions Unlike his well studied Modernist theology Loisy's writings on comparative religion and his rich interactions with famous scholars like F Cumont M Mauss or J G Frazer remain largely unknown This monograph is the first to paint a comprehensive picture of his career as a historian of religions before and after his excommunication in 1908 Through a contextual analysis of publications by Loisy and contemporaries and a large corpus of private correspondence it illuminates the scientification of the discipline between 1890-1920 and its deep entanglement with religion politics and society Particular attention is also given to the role of national and transnational scholarly networks and the way they controlled the theoretical and institutional frameworks for studying the history of religions **The Resurgence of Religion** David S. Zeidan,2018-11-13 This book is a comparative study of basic themes in

Christian and Islamic fundamentalist discourses analyzing and comparing texts from a wide variety of fundamentalist leaders and movements looking for family resemblances and significant differences in order to better understand the contemporary phenomenon of religious resurgence After placing fundamentalisms in a theoretical framework the study looks at selected themes important to fundamentalists noting resemblances and differences These themes include their anti secularist stance their theocentric worldviews their reliance on inerrant sacred scriptures and their attitudes to politics government state and democracy The study also looks at the fundamentalist view of the world as a perennial battlefield between the forces of good and those of evil in the realm of ideologies as well as politics and the legitimation of violence **IBSS: Sociology: 2002**
