Backgrounds to Restoration and Eighteenth-Century English Literature ,1989-02-21 In this time of proliferating scholarship one of the most welcome publications is this intelligently selected and annotated bibliography of secondary material Understanding the value of selectivity Spector has limited his entries to books and significant articles Perhaps because of his avowed interest in redefining the period he has been careful to include articles on historiography and critical method which apply to the eighteenth century He has not however slighted the older works of twentieth century scholarship A valuable resource not only to students of literature and related fields but to anyone interested in learning about the eighteenth century Analytical philosophy science aesthetics education and language in addition to literary criticism The author begins with a thoughtful examination of the history of Restoration eighteenth century scholarship Divided into 22

subject categories the bibliography presents annotated listings of existing bibliographic sources and noteworthy books and articles published since the late 1920s This authoritative new work allows the reader to explore the cultural climate that influenced the activity of writing and to understand the complex forces that shaped the period and its literature The bibliography is an appropriate choice for literary reference collections in academic and public libraries Sex and Enlightenment Rita Goldberg,1984-06-21 Dr Goldberg argues that Samuel Richardson had expressed a powerful and hitherto unperceived sexual mythology in *Clarissa* making it the popular masterpiece it quickly became There had never before been a work of literature in which the rape of a woman became the moral indictment of an age *Clarissa* was a book which changed minds It is not surprising that Diderot the French philosophe drew on Richardson as the inspiration for his own novel *La Religieuse* Richardson s novels had achieved Diderot s declared aim as editor of the great *Encyclopédie* to change the way people think For both writers it had become clear that the boudoir had replaced the Puritan closet and the Catholic confessional as the location for tests of virtue Dr Goldberg offers an original comparative reading of the works of these French and English innovators She leaves us in little doubt that our understanding of what it means to be a woman in our culture owes much to the turbulent world of Richardson and Diderot **the Norton History of Modern Europe** ,1971
