Reason Truth And History:

Reason, Truth and History Hilary Putnam, 1981-12-31 This is a timely book with penetrating discussion of issues very much in the forefront of the contemporary philosophy. Despite the prominence of negative arguments it contains much to contribute positively to our understanding of what is needed for a conception of rationality and objectivity that covers ethics and value theory generally as well as physics.

Reason, Truth and History Hilary Putnam, 1981-12-31 Hilary Putnam deals in this book with some of the most fundamental persistent problems in philosophy: the nature of truth, knowledge and rationality. His aim is to break down the fixed categories of thought which have always appeared to define and constrain the permissible solutions to these problems.

Reason, Truth and History Hilary Putnam, 1998 **Reason, Truth, and Theology in Pragmatist Perspective** Paul D. Murray, 2004 In this work Paul Murray explores which style of rationality is most appropriate to Christian theology in the contemporary pluralist, postfoundationalist, postmodern context. At its heart is a fresh consideration of the American pragmatist tradition focussing on the writings of Richard Rorty and Nicholas Rescher. Where Rorty correctly diagnoses the failures of foundationalist objectivism, Rescher's pragmatic idealism is presented as healing the ills in Rorty's own neo-pragmatism. The significant resonance between Rescher's view of rationality and Christian understanding of the Trinity is explored. In turn, Donald MacKinnon's influential writings are presented as exemplifying just such an approach to theology. Murray both articulates an enriched form of Christian postliberalism committed to receiving and learning from other traditions of thought and practice and probes the claim that the dynamics of human rationality can be expected to reflect the Trinitarian dynamics of God's being. Paul Murray presents us here with an exhaustive and insightful study of recent pragmatic theory in which he sets up rhythms of healing and completion as well as interrogation. Particularly remarkable is his exploration of Christianity as the deep and in some sense final interlocutor of pragmatic tradition. I strongly recommend this book. Olivier Davis, Professor of Christian Doctrine, King's College London. This is a mature, wide-ranging work that by uniting the intellectual and the practical carries both rational and ethical conviction. It does equal justice to the classic teachings of Christianity and to the challenges to rethink them in dialogue with modern and postmodern approaches. The result is a conception of Christianity both generously orthodox and deeply engaged with contemporary life and thought. It is especially good to see the profound contribution of Donald MacKinnon understood and developed with such perception and relevance. David F. Ford, Regius Professor of Divinity, University of Cambridge. Paul Murray is currently Lecturer in Systematic Theology within the Department of Theology at the University of Durham, England. He has previously held posts at St Cuthbert's Seminary, Ushaw College, Durham, and Newman College of Higher Education, Birmingham. Essays of his exploring issues in philosophical theology, science and theology, and contemporary Roman Catholic theology have appeared in leading journals and edited collections. This is his first monograph.

Realism & Antirealism William P. Alston,2002 Throughout the past century a debate has raged over the thesis of realism and its alternatives In this volume of original essays a group of philosophers explores the ongoing controversy **The Apologetic Value of Human Holiness** Victoria S. Harrison,2000-11-30 The Apologetic Value of Human Holiness begins by providing the first comprehensive account of the model of human holiness developed by the leading theologian Hans Urs von Balthasar In so doing the book also provides the first detailed explication of his Christocentric philosophical anthropology Part 2 argues that von Balthasar anticipates some key developments in late twentieth century Anglo American analytical philosophy and that certain of these developments in particular the internal realism of Hilary Putnam provide powerful support for von Balthasar s theological philosophy The final part elucidates von Balthasar s core intuition that human holiness is of immense apologetic value for religious faith and concludes with a new internalist theory of religious pluralism The Apologetic Value of Human Holiness will be seen as an important and original contribution to both Philosophy of Religion and Theology and is likely to prove essential reading in upper level undergraduate and postgraduate courses in both subjects

Closer to the Truth Than Any Fact Jennifer Jensen Wallach, 2010-04-01 Although historians frequently use memoirs as source material too often they confine such usage to the anecdotal and there is little methodological literature regarding the genre's possibilities and limitations This study articulates an approach to using memoirs as instruments of historical understanding Jennifer Jensen Wallach applies these principles to a body of memoirs about life in the American South during Jim Crow segregation including works by Zora Neale Hurston Willie Morris Lillian Smith Henry Louis Gates Jr William Alexander Percy and Richard Wright Wallach argues that the field of autobiography studies which is currently dominated by literary critics needs a new theoretical framework that allows historians too to benefit from the interpretation of life writing Her most provocative claim is that due to the aesthetic power of literary language skilled creative writers are uniquely positioned to capture the complexities of another time and another place Through techniques such as metaphor and irony memoirists collectively give their readers an empathetic understanding of life during the era of segregation Although these reminiscences bear certain similarities it becomes clear that the South as it was remembered by each is hardly the same place

The History of Continental Philosophy Alan D. Democracy and Conflict Frederic R. Kellogg,2023-12-15 The economist Kenneth Arrow proved in 1951 that a society of diverse individual preferences could only be ordered by dictatorship His impossibility theorem is still an axiom of contemporary welfare economics and has never been seriously challenged The American philosopher John Dewey who died in 1952 had claimed that voting and electoral mechanisms do not define democratic self government His broad conception of social conflict addresses preference diversity and resolves Arrow s impossibility Since the 1980s political scientists have focused on decision through democratic deliberation Dewey saw that conversation alone is inadequate for resolution of conflicts in a democracy Conflict is accompanied by discourse but preferences are grounded in habits Social habits resist adjustment in response to discourse alone but demonstrably adjust in the process of conflict resolution Preference conflict is distinguished from Marxist and later models as a discovery and transformation process It advances an original updated theory of social conflict in a democracy relevant to today s problematic situations from discrimination to climate change and political polarization
