## **Reason Why Personal Promises And Help:**

**The Art of Self-Improvement** Anna Katharina Schaffner, 2021-01-01 A brilliant distillation of the key ideas behind successful self improvement practices throughout history showing us how they remain relevant today Schaffner finds more in contemporary self improvement literature to admire than criticize A revelatory book Kathryn Hughes Times Literary Supplement Self help today is a multi billion dollar global industry one often seen as a by product of neoliberalism and capitalism Far from being a recent phenomenon however the practice of self improvement has a long and rich history extending all the way back to ancient China For millennia philosophers sages and theologians have reflected on the good life and devised strategies on how to achieve it Focusing on ten core ideas of self improvement that run through the world s advice literature Anna Katharina Schaffner reveals the ways they have evolved across cultures and historical eras and why they continue to resonate with us today Reminding us that there is much to learn from looking at time honed models Schaffner also examines the ways that self improvement practices provide powerful barometers of the values anxieties and aspirations that preoccupy us at particular moments in time and expose basic assumptions about our purpose and nature

Practical Reason in Law and Morality Neil MacCormick, 2011-04-28 The concept of practical reason is central to contemporary thought on ethics and the philosophy of law acting well means acting for good reasons Explaining this requires several stages How do reasons relate to actions at all as incentives and in explanations What are values how do they relate to human nature and how do they enter practical reasoning How do the concepts of right and wrong fit in and in what way do they involve questions of mutual trust among human beings How does our moral freedom our freedom to form our own moral commitments relate to our responsibilities to each other How is this final question transposed into law and legal commitments This book explores these questions vital to understanding the nature of law and morality It presents a clear account of practical reason valuable to students of moral philosophy and jurisprudence at undergraduate or postgraduate levels For more advanced scholars it also offers a reinterpretation of Kant s views on moral autonomy and Smith s on self command marrying Smith s moral sentiments to Kant s categorical imperative in a novel way The book concludes and underpins the author s Law State and Practical Reason series Taken together the books offer an overarching theory of the nature of law and legal reason the role of the State and the nature of moral reason and judgement Reasons for Our Faith. Six Lectures on Modern Misrepresentations of the Christian Religion and the Christian Evidences, Etc William ANDERSON (Minister of the Octagon Chapel, Bath.), 1874

*From Promise to Contract* Dori Kimel, 2003-03-14 Liberal theory of contract is traditionally associated with the view according to which contract law can be explained simply as a mechanism for the enforcement of promises The book bucks this trend by offering a theory of contract law based on a careful philosophical investigation of not only the similarities but also the much overlooked differences between contract and promise Drawing on an analysis of a range of issues pertaining to the moral underpinnings of promissory and contractual obligations the

relationships in the context of which they typically feature and the nature of the legal and moral institutions that support them the book argues for the abandonment of the over simplified notion that the law can systematically replicate existing moral or social institutions or simply enforce the rights or the obligations to which they give rise without altering these institutions in the process and while leaving their intrinsic qualities intact In its place the book offers an intriguing thesis concerning not only the relationship between contract and promise but also the distinct functions and values that underlie contract law and explain contractual obligation In turn this thesis is shown to have an important bearing on theoretical and practical issues such as the choice of remedy for breach of contract and broader concerns of political morality such as the appropriate scope of the freedom of contract and the role of the state in shaping and regulating contractual activity The book's arguments on such issues while rooted in distinctly liberal principles of political morality often produce very different conclusions to those traditionally associated with liberal theory of contract thus lending it a new lease of life in the face of its traditional as well as contemporary critiques

**Love, Reason and Morality** Katrien Schaubroeck, Esther Kroeker, 2016-07-28 This book brings together new essays that explore the connection between love and reasons The observation that considerations of love carry significant weight in the deliberative process opens up new perspectives in the classic discussion about practical reasons and gives rise to many interesting questions about the nature of love's reasons about their source and legitimacy about their relation to moral and epistemic reasons and about the extent to which love is sensitive to reasons The contributors to this volume orient questions related to love within the broader context of the contemporary discussion on practical reasons and move forward the conversation about the normative dimensions of love Love Reason and Morality will be of interest to philosophers working on issues of normativity meta ethics and moral psychology and especially those interested in the source of practical reasons and the role of attachments in practical deliberation

*Reasons for our faith, 6 lects. on modern misrepresentations of the Christian religion and the Christian evidences, with references and notes* William Anderson, 1874

*Natural Reasons* Susan L. Hurley, 1989 This provocative study revives a classical idea about rationality by developing analogies between the structure of personality and the structure of society in the context of contemporary work in the philosophy of mind ethics decision theory and social choice theory

*Responsibility and the Demands of Morality* Stephen J. White, 2025-01-08 Stephen J White 1983 2021 was developing a comprehensive view of responsibility and its limits when his life was tragically cut short This volume contains his collected papers White's view of responsibility spans across ethics action theory and interpersonal epistemology Its core idea is that to be responsible for doing or believing something is to be answerable for why one has done it or why one believes it and to be responsible for a state of affairs is to be answerable for why things are that way rather than some other way White deploys this conception of responsibility to illuminate the notions of autonomy coercion shared reasoning self prediction doxastic wronging and peer disagreement He also investigates the nature of practical reasoning he argues against a production

oriented conception of practical reasoning delineates the scope of transmission principles in means ends reasoning and identifies a limited for self prediction in practical reasoning that is subject to an anti opportunism constraint The papers form the outline of a deep ethical outlook that takes seriously our personal and collective responsibilities and yet leaves room for personal autonomy both in thought and in action

**Reasons and Recognition** R. Jay Wallace,Rahul Kumar,Samuel Freeman,2011-09-08 Reasons and Recognition brings together fourteen new papers on an array of topics from the many areas to which philosopher Thomas Scanlon has made path breaking contributions each of which develops a distinctive and independent position while critically engaging with central themes from Scanlon s own work in the area

*The Rules of Rescue* Theron Pummer,2023 This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations In *The Rules of Rescue* Theron Pummer argues that we are often morally required to engage in effective altruism directing altruistic efforts in ways that help the most Even when the personal sacrifice involved makes it morally permissible not to help at all he contends it often remains wrong to provide less help rather than more He argues that the ubiquity of opportunities to help distant strangers threatens to make morality extremely demanding and that it is only thanks to adequate permissions grounded in considerations of cost and autonomy that we may pursue our own plans and projects He concludes that many of us are required to provide no less help over our lives than we would have done if we were effective altruists

*Oxford Studies in Metaethics* Russ Shafer-Landau,2007-04-19 This is a periodical publication devoted to original philosophical work on the foundations of ethics and includes study being carried out at the intersections of ethical theory with metaphysics epistemology philosophy of language and philosophy of mind
