science such as conflict analysis and social movements The book is indexed by author and subject *Charismatic Leadership and Social Movements* Jan Willem Stutje, 2012-08-01 Much of the writing on charisma focuses on specific traits associated with exceptional leaders a practice that has broadened the concept of charisma to such an extent that it loses its distinctiveness and therefore its utility More particularly the concept's relevance to the study of social movements has not moved beyond generalizations The contributors to this volume renew the debate on charismatic leadership from a historical perspective and seek to illuminate the concept's relevance to the study of social movements The case studies here include such leaders as Mahatma Gandhi the architect of apartheid Daniel F Malan the heroine of the Spanish Civil War Dolores Ibarruri la pasionaria and Mao Zedong These charismatic leaders were not just professional politicians or administrators but sustained a strong symbiotic relationship with their followers one that stimulated devotion to the leader and created a real group identity *Renewal* Anne Hendershott, Christopher White, 2013-12-03 In the wake of the clergy abuse scandal of the last decade many media commentators predicted the end of the Catholic priesthood Demands for an end to celibacy coupled with calls for women's ordination dominated discussions on the effectiveness of the Catholic Church in America *Renewal* argues that rather than a decline of the priesthood and a diminishing influence of the Catholic Church we are living in a time of transformation and revitalization The aging generation of progressives that continues to lobby Church leaders to change Catholic teachings on reproductive rights same sex marriage and women's ordination is being replaced by younger men and women who are attracted to the Church because of the very timelessness of its teachings *Halduskultuur* 6, 2005

Leadership in Health and Social Care Louise Jones, Clare L. Bennett, 2012-09-01 From reviews I found this book to be an excellent read My favourite part is at the end of each chapter where the authors very kindly give a chapter summary I would say this with learning outcomes for each chapter is the reader's pot of gold and an excellent resource for students The social and political stance of this text is sensitively weaved throughout encouraging the wider thought processes of the reader Images and illustrations provide a welcome and useful change to the traditional academic text and I would recommend the book as an important reference resource for those starting on their leadership journey or for those wanting to update A well informed easy read that I will be recommending to our students to support their studies *The Biomedical Scientist* 2013 70 4 This is an excellent book for anyone who is starting to take an interest in Leadership within their health or social care role Overall the book is clearly aimed at practitioners and should be a must read for those who wish to understand more about practical leadership and who aspire to more senior positions within their field of practice Lecturer Staffordshire University Faculty of Health Sciences *Leadership in Health and Social Care* is an accessible text for students and practitioners seeking to develop their leadership skills I commend this book to you as a way in to the leadership world for anyone working in health and social care It treats you like an adult and expects you to take responsibility for your own leadership development We now know that good leadership has a direct relationship with good services and we can certainly no longer afford mediocrity We

The Military and Negotiation Deborah Goodwin, 2004-11-23 A new investigation of the role of the modern soldier diplomat and the nature of military negotiation in comparison with negotiation in other key contexts This new book presents a detailed analysis of the role of the military in current operations as negotiators and liaison workers in the field It shows how very few in the academic world are writing on this specific role of the military and the nature of negotiation in this situation and such a volatile context This publication is a first in this context and has a keen audience in light of the current world order This study breaks new ground in analyzing the nature of military negotiation in relation to more generic forms of negotiation and assessing the role of the modern soldier diplomat in recent deployments around the world The author is an academic working within the military environment very few people have the same capacity and accessibility to firsthand evidence and observation Whilst peacekeeping has grown in the last decade or so no one has successfully investigated the role of the military and their approach to non violent conflict resolution on the ground as few have access to such work to make a viable detailed assessment of the nature of negotiation in a violent context but Dr Goodwin is able to do so

Cults, Religion, and Violence David G. Bromley, J. Gordon Melton, 2002-05-13 This explores the question of when and why violence by and against new religious cults erupts and whether and how such dramatic conflicts can be foreseen managed and averted The authors leading international experts on religious movements and violent behavior focus on the four major episodes of cult violence during the last decade the tragic conflagration that engulfed the Branch Davidians in Waco Texas the deadly sarin gas attack by the Aum Shinrikyo in Tokyo the murder suicides by the Solar Temple in Switzerland and Canada and the collective suicide by the members of Heaven s Gate They explore the dynamics leading to these dramatic episodes in North America Europe and Asia and offer insights into the general relationship between violence and religious cults in contemporary society The authors conclude that these events usually involve some combination of internal and external dynamics through which a new religious movement and society become polarized
