*Rebuilding Communities in a Refugee Settlement* Lina Payne,1998 Includes statistics      **Rights in Exile** Guglielmo Verdirame,Barbara E. Harrell-Bond,2005 Of the estimated 12 million refugees in the world more than 7 million have been confined to camps effectively warehoused in some cases for 10 years or more Holding refugees in camps was anathema to the founders of the refugee protection regime Today with most refugees encamped in the less developed parts of the world the humanitarian apparatus has been transformed into a custodial regime for innocent people Based on rich ethnographic data *Rights in Exile* exposes the gap between human rights norms and the mandates of international organisations on the one hand and the reality on the ground on the other It will be of wide interest to social scientists and to human rights and international law scholars Policy makers donor governments and humanitarian organizations especially those adopting a rights based approach will also find it an invaluable resource But it is the refugees themselves who could benefit the most if these actors absorb its lessons and apply them      **Transitional Settlement** Tom Corsellis,Antonella Vitale,2005 Included on CD ROM Shelter training a training tool complementing the Transitional settlement displaced populations guidelines Shelter library key documents for the transitional settlement and shelter sector      Habitat Debate ,1999      Post-Conflict Security in South Sudan Nyambura Wambugu,2019-07-25 Just eight years after the signing of the Comprehensive Peace Agreement CPA and two years after gaining independence the world s newest nation state descended once more into violence and civil war Why have policies of liberal peacebuilding failed to bring lasting stability to the region And what now for South Sudan Nyambura Wambugu an academic with more than ten years practical advisory and policymaking experience adopts a holistic and multi thematic approach to answer these crucial questions Rooting her analysis as deeply as the initial militarisation of Sudan in the 1950s Wambugu considers the complex and overlapping issues that have afflicted the region since 2005 In the process Wambugu demonstrates the failure of the billions of dollars spent on liberal peacebuilding and elucidates the possibility of demilitarisation as a lasting and sustainable alternative Such issues are common in post conflict states and the book therefore acts as a case study for better understanding the deeply entrenched causes of instability and identifying the most sustainable paths to peace This meticulously researched account is essential reading for all students researchers and policymakers working on post conflict societies      **International African Bibliography** ,2003

development challenge not only a humanitarian concern A surge in violent conflict as well as increasing levels of disaster risk and environmental degradation driven by climate change has forced people to leave or flee their homes both internally displaced as well as refugees The rate of forced displacement befalling in different countries all over the world today is phenomenal with an increasingly higher rate of the population being affected on daily basis than ever These displacement situations are becoming increasingly protracted many lasting over 5 years Therefore there is a need to develop more sustainable and resilient approaches to rebuild these displaced communities ensuring the long term satisfaction of communities and enhancing the social cohesion between the displaced and host communities Accordingly chapters are arranged around five main themes of rebuilding communities after displacement Response management for displaced communities The Built environment in resettlement planning Governance of displacement Socio Economic interventions for sustainable resettlement
