*Rebuilding the Nest* David Blankenhorn, Steven Bayme, Jean Bethke Elshtain, 1990      Rebuilding the nest : a new commitment to the American family David ; Bayme Blankenhorn (Steven ; Elshtain, Jean Bethke, eds), 1990      *War Over the Family* David Popenoe, 2017-09-29 One of the most surprising and controversial social debates of the past two decades has been about the meaning and importance of marriage and the family in contemporary American life Referred to by some as a culture war over the family the debate has pitted those concerned about the weakening of the traditional married parent nuclear family especially in its impact on children against those arguing that nothing has gone wrong with families that they are merely diversifying David Popenoe has been one of the most influential figures in laying out for a wide audience the importance of family decline and what it means for our children our society and our future      *Flat Broke with Children* Sharon Hays, 2004-11-04 This text explores the impact of recent welfare reform on motherhood marriage and work in women's lives It also focuses on what welfare reform reveals about work and family life and its impact on us all      *Love, Marriage, and Jewish Families* Sylvia Barack Fishman, 2015-12-22 The concepts of gender love and family as well as the personal choices regarding gender role construction sexual and romantic liaisons and family formation have become more fluid under a society wide softening of boundaries hierarchies and protocols Sylvia Barack Fishman gathers the work of social historians and legal scholars who study transformations in the intimate realms of partnering and family construction among Jews Following a substantive introduction the volume casts a broad net Chapters explore the current situation in both the United States and Israel attending to what once were considered unconventional household arrangements including extended singlehood cohabitating couples single Jewish mothers and GLBTQ families along with the legal ramifications and religious backlash Together these essays demonstrate how changes in the understanding of male and female roles and expectations over the past few decades have contributed to a social revolution with profound and paradoxical effects on partnering marriage and family formation This diverse anthology with chapters focusing on demography ethnography and legal texts will interest scholars and students in Jewish studies women's and gender studies Israel studies and American Jewish history sociology and culture      *Higher Education and the New Society* George Keller, 2008-11-01 While he celebrated higher education as the engine of progress in every aspect of American life George Keller also challenged academia's sacred cows and entrenched practices with provocative ideas designed to induce creative discomfort Completed shortly before his death in 2007 *Higher Education and the New Society* caps the career of one of higher education's exceptional minds Refining and expanding ideas Keller developed over his fifty year career this book is a clarion call for change In the face of a transformed American society marked by population shifts technological upheavals and a volatile economic landscape Keller urges leaders in higher education to see and confront their own serious problems With characteristic forthrightness and inimitable wit Keller targets critical areas where bold thinking is especially important taking on such explosive issues as the configuration

of academic disciplines the runaway problem of big time sports the decline of the liberal arts and the urgent problems of finances and costs Keller expected this book to ignite discussion and controversy within academic circles and he hoped fervently that it would also lead to real thinking real analysis and urgently needed transformation

**Handbook of Marriage and the Family** Marvin B. Sussman, Suzanne K. Steinmetz, Gary W. Peterson, 2013-06-29 To know where we are going as scholars educators and practitioners in the field of marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a position to provide information on marriage and family life Included in the eclectic collection of texts we reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health professionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual

**The American Paradox** David G. Myers,2008-10-01 DIVFor Americans entering the twenty first century it is the best of times and the worst of times Material wealth is at record levels yet disturbing social problems reflect a deep spiritual poverty In this compelling book well known social psychologist David G Myers asks how this paradox has come to be and more important how we can spark social renewal and dream a new American dream Myers explores the research on social ills from the 1960s through the 1990s and concludes that the materialism and radical individualism of this period have cost us dearly imperiling our children corroding general civility and diminishing our happiness However in the voices of public figures and ordinary citizens he now hears a spirit of optimism The national dialogue is shifting away from the expansion of personal rights and toward enhancement of communal civility away from efforts to raise self esteem and toward attempts to arouse social responsibility away from whose values and toward our values Myers analyzes in detail the research on educational and other programs that deal with social problems explaining which seem to work and why He then offers positive and well reasoned advice suggesting that a renewed social ecology for America will rest on policies that balance me thinking with we thinking div

Family Homelessness Karleen Jackson,2021-12-24 First published in 2000 This book examines the multiple factors which contribute to family homelessness and uses quantitative and qualitative analyses to identify those factors which represent the major supports and barriers to homeless exit and housing stability Results show that while family homelessness is not caused by a single issue but a combination of issues including alcohol substance abuse untreated mental illness domestic violence family configuration lack of community or social supports and or lack of affordable housing options community and social supports provide the single most significant impact on the ability of families to exit homelessness and maintain stable housing Quantitative data suggests that investing in community social supports for homeless families could facilitate their exit from homelessness and increase housing stability for families at risk while reducing those supports might increase homelessness Qualitative data indicates that supportive relationships are instrumental to understanding that while homelessness is a

terrible experience those who experience homelessness are not terrible people Furthermore recognizing that a loss of housing does not necessarily mean the loss of one's symbolic representation of home could assist families in viewing homelessness as a transformational learning experience rather than a traumatic failure Why America Needs Religion Guenter Lewy, 1996 In this trenchant analysis of the moral decline of modern America Lewy describes the moral crisis caused by secular modernity and points to the role of religiousness as a necessary bulwark against today's social ills **Handbook of Contemporary Families** Marilyn Coleman, Lawrence H Ganong, 2004 Coleman and Ganong recruited an outstanding group of scholars to contribute to the Handbook of Contemporary Families Authors represent a wide array of disciplines and the topics touch on every aspect of family life The organization of the book is excellent and the writing of high quality Scholars and students alike will find the book a valuable resource Alan Booth Penn State University Marilyn Coleman and Larry Ganong have produced a comprehensive handbook exploring the changes and challenges confronting contemporary families The chapters written by some of the most distinguished social scientists studying families give a balanced research based analysis of some of the most contentious issues of our time E Mavis Hetherington University of Virginia This useful handbook brings together many of the most important new findings and provocative ideas about America's diverse and changing families An excellent resource Stephanie Coontz author of *The Way We Really Are* Coming to Terms with America's Changing Families What has happened to marriage and families What is the current state of families Where are families headed Where is family scholarship headed As families face challenges today brought on by events that have changed their perception of the world there is a need for a clear assessment of what has happened to families in the past and an examination of some data based theories about what is likely to happen in the future The Handbook of Contemporary Families explores how families have changed in the last 30 years and speculates about future trends Editors Marilyn Coleman and Lawrence H Ganong along with a multidisciplinary group of contributors critique the approaches used to study relationships and families while suggesting modern approaches for the new millennium The Handbook looks at how changes within the contemporary family have been reflected in family law family education and family therapy Features of this Handbook Examines a diverse array of families and relationships in which people live including chapters on alternative lifestyles gay and lesbian relationships economically distressed families religion and families racial and ethnic diversity a feminist vision for families older families and the effect of computers and other technology on family relationships Includes both a historical review and future speculation on the subjects covered in each chapter Interdisciplinary contributors representing a variety of fields such as history family studies sociology law therapy social work psychology nursing and human development The Handbook of Contemporary Families is an excellent resource for advanced undergraduate and graduate students researchers educators and practitioners who study and work with families in several disciplines including Family Science Human Development and Family Studies Sociology Marriage Family Therapy and Social Work *On Our*
