Klinzing, F. Rizk, R. Marcus, L.S. Leung, 2013-04-17

When the four of us decided to collaborate to write this book on pneumatic conveying there were two aspects which were of some concern Firstly how could four people who live on four different continents write a book on a fairly complex subject with such wide lines of communications Secondly there was the problem that two of the authors are chemical engineers It has been noted that the majority of chemical engineers who work in the field of pneumatic conveying research have spent most of their time considering flow in vertical pipes As such there was some concern that the book might be biased towards vertical pneumatic conveying and that the horizontal aspects which are clearly the most difficult would be somewhat neglected We hope that you as the reader are going to be satisfied with the fact that you have a truly international dissertation on pneumatic conveying and also that there is an even spread between the theoretical and practical aspects of pneumatic conveying technology **Publications from 1941 to August of 1991**, 1991 *Scientific and Technical Books and Serials in Print*, 1989 **Directory of Published Proceedings**, 1983 Fluidization IX Liang-Shih Fan, Ted M. Knowlton, 1998 Index of Conference Proceedings, 1994 *Books in Print*, 1987 Books in Print Supplement, 1985 **Recent Advances in Fluidization and Fluid-particle Systems** D. V.
