Round Trip To Byzantium:

Round Trip to Byzantium Harry Barba, 1985-01-01 **Byzantine Commentaries on Ancient Greek Texts, 12th–15th Centuries** Baukje van den Berg, Divna Manolova, Przemysław Marciniak, 2022-09-08 Addresses the importance of ancient literature for Byzantine society and explores various ways of recycling and understanding ancient works (*Gorski Vijenac*) Elizabeth Mary Hill, 1970 **The Gaiety of Language** Frank Lentricchia, 2023-04-28 This study explores the radical poetics of William Butler Yeats and Wallace Stevens focusing on their contributions to modern literary theory and the unique role of imagination in their works By tracing their poetic theories within the broader context of post Romantic criticism the essay critiques both the romantic idealism of the 19th century and the contextual theories of modern criticism Yeats and Stevens challenge the notion of poetry as a direct avenue to transcendental truth redefining the role of the imagination as an artistic force that operates within its own linguistic medium unburdened by metaphysical or empirical agendas Their poetics often interpreted through contrasting lenses such as romantic organicism or the visionary archetypes championed by scholars like Northrop Frye instead offer a framework where poems are self contained entities These works articulate the tension between the impoverished modern imagination and its capacity to find freedom and meaning within the act of creation itself Through close readings of Yeats's and Stevens's prose and poetry this essay argues that their works embody a poetics of will wherein the imagination though constrained by the limitations of a disenchanted modern world still achieves a vital cultural role Unlike their predecessors who viewed poetry as a conduit to metaphysical revelation Yeats and Stevens position the poem as an autonomous artifact that captures fleeting moments of freedom and beauty For the poet the creative act becomes an assertion of control over the chaos of inner and outer realities while for the reader the well wrought poem offers a brief but profound engagement with the artist's vision In this way Yeats and Stevens redefine the purpose of poetry suggesting its essential contribution to human happiness and cultural resilience in an age marked by existential and aesthetic challenges This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1968 **West Coast Review of Books**, 1985 *Science Fiction and Fantasy Literature, 1975-1991* R. Reginald, Mary Wickizer Burgess, Daryl Furumi Mallett, 1992 Science fiction constitutes one of the largest and most widely read genres in literature and this reference provides bibliographical data on some 20 000 science fiction fantasy and horror fiction books as well as nonfiction monographs about the literature A companion to Reginald's *Science Fiction and Fantasy Literature 1700-1974* Gale 1979 the present volume is alphabetically arranged by approximately 10 000 author names The entry for each individual work includes title publisher date and place published number of pages hardbound or paperback format and type of book novel anthology etc Where appropriate entries also provide translation notes series information

pseudonyms and remarks on special features such as celebrity introductions Includes indexes of titles series awards and doubles for locating volumes containing two novels Annotation copyright by Book News Inc Portland OR **2000 Notable American Men** J.  The Iowa Alumni Review ,1986 Power and Status in the Roman Empire, AD 193-284 Inge Mennen,2011-04-26 This book deals with changing power and status relations between the highest ranking representatives of Roman imperial power at the central level in a period when the Empire came under tremendous pressure AD 193 284 Based on epigraphic literary and legal materials the author deals with issues such as the third century development of emperorship the shift in power of the senatorial elite and the developing position of senior military officers and other high equestrians By analyzing the various senior power holders involved in Roman imperial administration by social rank this book presents new insights into the diachronic development of imperial administration appointment policies and socio political hierarchies between the second and fourth centuries AD
