The Literature of Hope in the Middle Ages and Today Flo Keyes, 2006-03-31 The influence of medieval literature is instantly apparent in modern fantasy literature where knights and wizards populate castle strewn landscapes Less obvious but still recognizable is the influence in science fiction which draws on medieval story structure and themes Beyond these superficial similarities deeper connections become evident through an analysis of the literature's social function Like the fantasy and science fiction of today the romances of the Middle Ages were written in times of extreme and prolonged social upheaval In all three genres the storytellers draw on the same archetypes the hero the quest the transformation for stories whose goal is to provide hope Using Jungian theory and comparative analysis this book explores the connections between the three genres It finds common ground among them in plots that often reflect the recurring cycle of life and the elements of psychological rather than literal realism Representative texts such as Malory's *Le Morte D Arthur* the *Witch World* series by Andre Norton and *More Than Human* by Theodore Sturgeon are examined in depth and the use of archetypes in each is thoroughly explored Analysis reveals similarities in images structures and the pervasive belief that a perfectible universe is within man's capabilities if not now then someday

Religion in the History of the Medieval West John Van Engen, 2023-05-31 These ten essays by John Van Engen situate religion in the history of medieval Western Europe as an unavoidable presence in everyday life as a conceptual framework for social and political life as a force integral to its historical dynamics Four of the essays are bibliographical and retrospective in nature reviewing the field broadly but also pointing toward a more dialectical approach to understanding the interaction of religion and society in the European middle ages Other studies deal with large topics usually subsumed under the abstract term Christianization They grapple with learned sources as well as those associated with popular religion and show what can be gained from an imaginative use of all that lawyers and theologians said about religion in their society The essays finally look for the quality and dynamic of change even inventiveness released by religious action and conviction in medieval European society
