with us *Women, Clubs and Associations in Britain* David Doughan,Peter Gordon,2007-01-24 Women have been
consistently excluded from all manner of clubs and associations over the years whether as the direct result of an anti woman
policy or indirectly through prohibitive entry requirements social constraints or conflict of interests and tastes Retaliation
from women has taken two directions some women have set up their own exclusive clubs that reflect their own interests and

aims while others have taken on the men and striven to break down resistance to their joining men's clubs on an equal footing. This book traces the development of the current situation drawing from a wide range of sources some of which have never been published before. Looking at the different types of clubs and associations that include women and girls from the WI to the Girl Guides this book is a rich social history full of fascinating observations and stories and will be absorbing reading for anyone interested in sociology, women's history or the transformation of Britain's social life. Shopping for Pleasure Erika Rappaport, 2021-06-08

In *Shopping for Pleasure* Erika Rappaport reconstructs London's Victorian and Edwardian West End as an entertainment and retail center. In this neighborhood of stately homes, royal palaces and spacious parks and squares a dramatic transformation unfolded that ultimately changed the meaning of femininity and the lives of women shaping their experience of modernity. Rappaport illuminates the various forces of the period that encouraged and discouraged women's enjoyment of public life and particularly shows how shopping came to be seen as the quintessential leisure activity for middle and upper class women. Through extensive histories of department stores, women's magazines, clubs, tearooms, restaurants and the theater as interwoven sites of consumption *Shopping for Pleasure* uncovers how a new female urban culture emerged before and after the turn of the twentieth century. Moving beyond the question of whether shopping promoted or limited women's freedom the author draws on diverse sources to explore how business practices, legal decisions and cultural changes affected women in the market. In particular she focuses on how and why stores presented themselves as pleasurable, secure places for the urban woman in some cases defining themselves as instrumental to civic improvement and women's emancipation. Rappaport also considers such influences as merchandizing strategies, credit policies, changes in public transportation, feminism and the financial balance of power within the home. *Shopping for Pleasure* is thus both a social and cultural history of the West End but on a broader scale it reveals the essential interplay between the rise of consumer society, the birth of modern femininity and the making of contemporary London.
