Pacific Paradise:

Paradise of the Pacific, 1893 Touring Pacific Cultures Kalissa Alexeyeff, John Taylor, 2016-12-15 Tourism is vital to the economies of most Pacific nations and as such is an important site for the meaningful production of shared and disputed cultural values and practices This is especially the case when tourism intersects with other important arenas for cultural production both directly and indirectly Touring Pacific Cultures captures the central importance of tourism to the visual material and performed cultures of the Pacific region In this volume we propose to explore new directions in understanding how culture is defined produced experienced and sustained through tourism related practices across that region We ask how is cultural value ownership performance and commodification negotiated and experienced in actual lived practice as it moves with people across the Pacific This collection is a welcome addition to tourism studies or perhaps we should say post or para tourism The essays bring out many facets and experiences too quickly bundled under a single label and focused exclusively on destinations visited by outsiders Tourism we see here actively involves many different populations societies and economies a range of local global regional engagements that can be both destructive and creative Western outsiders aren't the only ones on the move Unequal power neo colonial exploitation and capitalist commodification are very much part of the picture But so are desire adventure pleasure cultural reinvention and economic development The effect overall is an attitude of alert critical ambivalence with respect to a proliferating historical phenomenon A bumpy and rewarding ride James Clifford Professor Emeritus University of California Santa Cruz Voyaging Through the Contemporary Pacific David Hanlon, Geoffrey M. of this defeat it would be difficult to imagine that within 24 months of this event Zuikaku the last survivor of the carriers that had attacked Pearl Harbor would lie at the bottom of the sea. Alongside it lay the other surviving Japanese carriers sacrificed as lures in a failed attempt to block the American invasion of the Philippines leaving the United States to reign supreme on the world's largest ocean. This is the fascinating account of the Central Pacific campaign, one of the most stunning comebacks in naval history as in 14 months the US Navy went from the jaws of defeat to the brink of victory in the Pacific. Albert Wendt and Pacific Literature Paul Sharrad, 2003-11-08 Albert Wendt is the leading writer and exponent of Pacific literature. His work is consistently different in style, politically challenging and ranges across essays, plays, poems, stories and novels, two of which have been filmed. This book is the first full-length study of his work. There is an introduction to Pacific literature as a whole and Wendt's Samoan background. Chapters offer readings of all Wendt's major texts in chronological sequence relating them to his essays, to literary movements of the time and to key motifs from Polynesian culture. There is an extensive bibliography of works by and about Wendt. The Environmental Justice Reader Joni Adamson, Mei Mei Evans, Rachel Stein, 2022-02-08 From the First National People of Color Congress on Environmental Leadership to WTO street protests, the new millennium environmental justice activists have challenged the mainstream movement by linking social inequalities to the uneven distribution of environmental dangers. Grassroots movements in poor communities and communities of color strive to protect neighborhoods and worksites from environmental degradation and struggle to gain equal access to the natural resources that sustain their cultures. This book examines environmental justice in its social, economic, political and cultural dimensions in both local and global contexts with special attention paid to intersections of race, gender and class inequality. The first book to link political studies, literary analysis and teaching strategies, it offers a multivocal approach that combines perspectives from organizations such as the Southwest Network for Environmental and Economic Justice and the International Indigenous Treaty Council with the insights of such notable scholars as Devon Pe a, Giovanna Di Chiro and Valerie Kuletz and also includes a range of newer voices in the field. This collection approaches environmental justice concerns from diverse geographical, ethnic and disciplinary perspectives, always viewing environmental issues as integral to problems of social inequality and oppression. It offers new case studies of native Alaskans' protests over radiation poisoning, Hispanos' struggles to protect their land and water rights, Pacific Islanders' resistance to nuclear weapons testing and nuclear waste storage, and the efforts of women employees of maquiladoras to obtain safer living and working environments along the U.S.-Mexican border. The selections also include cultural analyses of environmental justice arts such as community art and greening projects in inner-city Baltimore and literary analyses of writers such as Jimmy Santiago Baca, Linda Hogan, Barbara Neely, Nez Perce orators Ken Saro Wiwa and Karen Yamashita, artists who address issues such as toxicity and cancer, lead poisoning of urban African American communities and Native American struggles to remove dams and save salmon. The book closes with a section of essays that offer models to teachers hoping to incorporate these issues and texts into their

classrooms By combining this array of perspectives this book makes the field of environmental justice more accessible to scholars students and concerned readers World in Motion Gary M. Kroll, Richard H. Robbins, 2008-12-16 The essays collected in *World in Motion* all address the same issue The global paradox that modern prosperity has entailed extreme environmental degradation Gary M Kroll and Richard H Robbins present readings covering all principal viewpoints on this matter from the neoliberal belief that environmental and social problems can be fixed through a growing economy to the critics of globalization who equate growth with environmental degradation This book asks an important question Can we simply accelerate growth under the assumption that increased prosperity and new technologies will allow us to reverse environmental damage Or do we need to transform our modes of living radically to maintain the health of the world around us Nature Across Cultures Helaine Selin, 2003-09-30 *Nature Across Cultures Views of Nature and the Environment in Non Western Cultures* consists of about 25 essays dealing with the environmental knowledge and beliefs of cultures outside of the United States and Europe In addition to articles surveying Islamic Chinese Native American Aboriginal Australian Indian Thai and Andean views of nature and the environment among others the book includes essays on Environmentalism and Images of the Other Traditional Ecological Knowledge Worldviews and Ecology Rethinking the Western non Western Divide and Landscape Nature and Culture The essays address the connections between nature and culture and relate the environmental practices to the cultures which produced them Each essay contains an extensive bibliography Because the geographic range is global the book fills a gap in both environmental history and in cultural studies It should find a place on the bookshelves of advanced undergraduate students graduate students and scholars as well as in libraries serving those groups *Creating Island Resorts* Brian King, 2002-06-01 This work studies tropical island resorts the people who live and work there and the tourists who visit them The author includes but goes beyond the more commonly encountered marketing and economic analyses of resort destinations by examining social cultural mythical environmental organizational and political dimensions *Hollywood's South Seas and the Pacific War* S. Brawley, C. Dixon, 2012-08-06 This book explores the expectations experiences and reactions of Allied servicemen and women who served in the wartime Pacific and viewed the South Pacific through the lens of Hollywood s South Seas Based on extensive archival research it explores the intersections between military experiences and cultural history **Pacific Illusion** M.
