Practical Religion And Practical Gnosticism:

Against the Protestant Gnostics Philip J. Lee,1993-08-19 In this penetrating and provocative assessment of the current state of religion and its effects on society at large Philip J Lee criticizes conservatives and liberals alike as he traces gnostic motifs to the very roots of American Protestantism With references to an extraordinary spectrum of writings from sources as diverse as John Calvin Martin Buber Tom Wolfe Margaret Atwood and Emily Dickinson he probes the effects of gnostic thinking on a wide range of issues Calling for the restoration of a dialectical faith and practice the book points to positive ways of restoring health to endangered Protestant churches *The Religious Quests of the Graeco-Roman World* Samuel Angus,1929 *The Gnosis* William Kingsland,2000 Goes back to the initial teachings that were used in the creation of the Christian religion and demonstrates that they were actually derived from the Gnosis or Ancient Wisdom Gnosis is a Greek word meaning knowledge or to know In the early Church those who were mystics or Gnostics were rejected and considered heretics What makes this book so important is that it identifies certain mystical teachings from early times as rightfully belonging in the Church According to Kingsland this is the real Christian message as originally understood by the Gospel writers *The Voudon Gnostic Workbook* Michael Bertiaux,2007-07-01 A long awaited new edition of the seminal text on the spiritual system that is a convergence of Gnosticism and Haitian voodoo The Voudon Gnostic Workbook is a singular sacred work that is comprehensive in scope from how to be a lucky Hoodoo to how magick and voodoo intersect energetically to esoteric time travel Complete with charts and graphs and instructive interdimensional physics The Voudon Gnostic Workbook is an object of desire among students of the occult Weiser s long anticipated republication of this rare text will be an event in the annals of esoteric publishing as the book itself is somewhat of an unholy grail There are listservers devoted to it and much discussion of the mysteries held within its pages While The Voudon Gnostic Workbook has remained a controversial book considered important for masters of metaphysics it recently came into popular culture and renewed popularity when Grant Morrison revealed it had been the inspiration for his cult comics The Invisibles using the cribbed time travel from Bertiaux s masterwork Voodoo is not an evil religion and is much misunderstood It derives from the Dahomean Gods called the Loa Esoteric voodoo is actually a highly practical procedure for leading us into making contact with the deepest levels of our being and most ancient modes of consciousness Michael Bertiaux s Voudon Gnostic Workbook is the most comprehensive and illuminating contemporary book on the subject Launched out of a correspondence course and series of classes for students and followers of Voudon Gnosticism and the OTO this seminal text is at once one of the most mysterious and magnificent of all esoteric books **Practical Alchemy** Brian Cotnoir,2021-07-01 A concise guide to the history theory and practice of alchemy the great work the art of working with the energies of nature for spiritual development healing and transformation Alchemy is a means of understanding and working in concert with the energies of nature for spiritual development healing and transformation In this book Brian Cotnoir offers a step by step introduction that

explores alchemy's mysteries while illustrating its use as a modern spiritual system of attainment. He provides an overview of the history of alchemy from the first meldings of Egyptian technology to the Middle Ages, the golden age of alchemy to contemporary techniques. He demystifies the relationship between alchemy and chemistry and provides evidence that alchemy is much more than a medieval form of psychotherapy. The guide also includes practical laboratory experiments that safely and intelligently lead readers to an understanding of this ancient art and spiritual practice. Provides step by step instruction for beginning a practice in alchemy. Explains the theory underlying the art and science of alchemy and how it works. Demystifies the relationship between alchemy and chemistry while going well beyond the psychological interpretation advanced by nonscientists. Introduces the practice of alchemy to students of the Western magical arts. This book was previously published as *The Weiser Concise Guide to Alchemy*. This new edition includes a foreword by Robert Allen Bartlett, author of *Real Alchemy*.

Gnosis Dan Merkur, 1993-10-05 *Gnosis* traces the use of powerful gnostic visionary techniques from Hellenistic Gnosticism and Jewish merkabah mysticism through Muhammad, the Ismaeilis, and theosophical Sufism to medieval neoplatonism and renaissance alchemy.

The Evolution of Christianity Lyman Abbott, 1900 *The Gnostic Gospels* Orion Kassel, *Discover the Mystical Heart of Early Christianity*. Abolishing Death Irene Masing-Delic, 1992-11-01 The idea of abolishing death was one of the most influential myth-making concepts expressed in Russian literature from 1900 to 1930 especially in the works of writers who attributed a life modeling function to art To them art was to create a life so aesthetically organized and perfect that immortality would be an inevitable consequence This idea was mirrored in the thought of some who believed that the political revolution of 1917 would bring about a revolution in basic existential facts specifically the belief that communism and the accompanying advance of science would ultimately be able to bestow physical immortality and to resurrect the dead According to one variant for example the dead were to be resurrected by extrapolation from the traces of their labor left in the material world The author finds the seeds of this extraordinary concept in the erosion of traditional religion in late nineteenth century Russia Influenced by the new power of scientific inquiry humankind appropriated various divine attributes one after the other including omnipotence and omniscience but eventually even aiming toward the realization of individual physical immortality and thus aspiring to equality with God Writers as different as the decadent Fyodor Sologub the political Maxim Gorky and the gothic Nikolai Ognyov created works for making mortals into gods transforming the raw materials of current reality into legend The book first outlines the ideological context of the immortalization project notably the impact of the philosophers Fyodorov and Solovyov The remainder of the book consists of close readings of texts by Sologub Gorky Blok Ognyov and Zabolotsky Taken together the works yield the salvation program that tells people how to abolish death and live forever in an eternal self-created cosmos gods of a legend that was made possible by creative artists imaginative scientists and inspired laborers

The History of the Christian Religion and Church, During the Three First Centuries August Neander, 1843

THE GNOSTIC JESUS Edward D. Andrews, 2021-06-09 Jesus is identified by some Gnostics as an embodiment of the supreme being who became incarnate to bring gnosis to the earth In contrast others

adamantly denied that the supreme being came in the flesh claiming Jesus to be merely a human who attained enlightenment through gnosis and taught his disciples to do the same Among the Mandaean Jesus was considered a *m iha kdaba* or false messiah who perverted the teachings entrusted to him by John the Baptist Still other traditions identify Mani and Seth the third son of Adam and Eve as salvific figures In the course of a century and a half Gnosticism comes and goes before us like a splendid vision And yet its influence upon Christianity was profound and permanent It gave occasion to a great expansion of Christian thought to a clearer idea of the historical relation of Christianity to earlier and surrounding religions and to a better definition of the basis of true faith Therefore it deserves a more careful study than it has only recently received
