Praxis And Action:

Praxis and Action Richard J. Bernstein, 2011-06-03 From the Introduction This inquiry is concerned with the themes of praxis and action in four philosophic movements Marxism existentialism pragmatism and analytic philosophy It is rare that these four movements are considered in a single inquiry for there are profound differences of emphasis focus terminology and approach represented by these styles of thought Many philosophers believe that similarities among these movements are superficial and that a close examination of them will reveal only hopelessly unbridgeable cleavages While respecting the genuine fundamental differences of these movements this inquiry is undertaken in the spirit of showing that there are important common themes and motifs in what first appears to be a chaotic babble of voices I intend to show that the concern with man as an agent has been a primary focal point of each of these movements and further that each contributes something permanent and important to our understanding of the nature and context of human activity Praxis and Action Richard J. Bernstein, 1962

La Cosecha Eduardo C. Fernández, 2000 marks a new stage in the development of U S Hispanic Latino theology *Kairos Preaching* David Schnasa Jacobsen, Robert Allen Kelly, Although lectionary and worship allow us to deepen our appreciation for the Bible and the themes and emphases of the Christian calendar they sometimes fail to allow preachers to speak the gospel directly to the situations that occupy their congregations This book is designed to help pastors and seminarians discover resources they already have to unpack situations and understand them theologically in light of their task of preaching the gospel International Encyclopedia of Public Policy and Administration Volume 1 Jay Shafritz, 2019-03-01 This is the first volume of a four volume encyclopaedia which combines public administration and policy and contains approximately 900 articles by over 300 specialists This Volume covers entries from A to C It covers all of the core concepts terms and processes of applied behavioural science budgeting comparative public administration develo

The Case for Work Jean-Philippe Deranty, 2024-10-08 The modern work ethic is in crisis The numerous harms and injustices harboured by current labour markets and work organisations combined with the threat of mass unemployment entailed in rampant automation have inspired a strong post work movement in the theoretical humanities and social sciences echoed by many intellectuals journalists artists and progressives Against this widespread temptation to declare work obsolete *The Case for Work* shows that our paltry situation is critical precisely because work matters It is a mistake to advocate a society beyond work on the basis of its current organisation In the first part of the book the arguments feeding into the case against work are located in the long history of social and political thought This comprehensive genealogical inquiry highlights many conceptual and methodological issues that continue to plague contemporary accounts The second part of the book makes the case for work in a positive way through a dialectical argument The very feature of work that its critics emphasise namely that it is a realm of necessity is precisely what makes it the conduit for freedom and flourishing provided each member of society is in a position to face this necessity in conditions that are equal and just *Sartre in*

Search of an Ethics Paul Crittenden, 2019-07-31 In the postwar years Jean Paul Sartre set himself the task of writing a book on ethics His concern was to take up issues raised by his existentialist ontology and to resolve problems in his bleak account of the human situation in *Being and Nothingness* I am searching he said for an ethics for the present time For several years he prepared background notes but then put the material aside as too abstract and idealistic leaving it for publication after his death Years later he returned to ethics this time in the hope of developing an account related to the Critique of Dialectical Reason But once again he left the inquiry incomplete There was yet a third attempt towards the end of his life when Sartre was blind and weak a poignant witness to his abiding interest in ethics This took the form of interviews with Benny L vy which appeared in a controversial publication just before his death Sartre in *Search of an Ethics* is a study of each of these stages in his ethical quest with a focus on the major themes of his existentialist and dialectical ethics in the context of some of his main philosophical and literary writings

Cambridge Handbook of Strategy as Practice Damon Golsorkhi, Linda Rouleau, David Seidl, Eero Vaara, 2015-09-03 Now in its second edition this extended and thoroughly updated handbook introduces researchers and students to the growing range of theoretical and methodological perspectives being developed in the vibrant field of strategy as practice With new authors and additional chapters it shows how the strategy as practice approach in strategic management moves away from disembodied and asocial studies of firm assets technologies and practices to explore and explain the contribution that strategizing makes to people working at all levels of an organization It breaks down many of the traditional paradigmatic barriers in strategy to investigate who the strategists are what they do how they do it and what the consequences or outcomes of their actions are This essential work summarizes recent developments in the field while presenting a clear agenda for future research

Pentecostal Spirituality Steven Jack Land, 1993-01-01 In this classic book leading Pentecostal scholar Steven J Land offers a constructive and controversial

interpretation a re vision of the Pentecostal tradition As Pentecostalism approaches its centennial Land argues that the early years of the movement form the heart not the infancy of its spirituality and he emphasizes the crucial importance of its Wesleyan Holiness and nineteenth century revivalist restorationist roots Land s foundational study includes an account of the relationship of spirituality and theology a description and analysis of Pentecostal beliefs and practices a demonstration of how these beliefs and practices are integrated into Pentecostal affections a trinitarian definition of Pentecostal Spirituality arguing that a passion for the kingdom of God is ultimately a passion for God Himself **Dialogue as a Means of**

Collective Communication Bela H. Banathy, Patrick M. Jenlink, 2006-02-28 Dialogue as a Means of Collective Communication offers a cross disciplinary approach to examining dialogue as a communicative medium Presented in five parts the book takes the reader on a journey of exploring the power and potential of dialogue as a means for communication In particular this volume comes at a time when the global society s attention has been directed to creating more productive conversations in the name of world peace and harmony It provides a unique new work on dialogue that brings the reader into a dialogue with dialogue offering an opportunity to understand the communicative potential of dialogue In the book readers are introduced to five sections Section I examines the historical and cultural perspectives of conversation This examination helps to create a foundation for a deeper study of the emergent and salient aspects of conversation as it relates to cultural creativity and human systems design Sections II offers the reader an examination of dialogue through different philosophical and theoretical perspectives as well as methodological ideas related to conversation Section III explores different modalities of conversation and the application of design conversation within and across various types of design settings and human experiences Section IV examines the field of practice as related to use of different forms of conversation Here various authors will share their different approaches to conversation and their reflections and insights in using conversation in a variety of settings Concluding the book Section V reflectively examines the authors contributions to the book and provides the reader with a focus on the future *Practice, Power, and Forms of Life* Terry Pinkard, 2024-05-31 Philosopher Terry Pinkard revisits Sartre s later work illuminating a pivotal stance in Sartre s understanding of freedom and communal action Jean Paul Sartre s Critique of Dialectical Reason released to great fanfare in 1960 has since then receded in philosophical visibility As Sartre s reputation is now making a comeback it is time for a reappraisal of his later work In Practice Power and Forms of Life philosopher Terry Pinkard interprets Sartre s late work as a fundamental reworking of his earlier ideas especially in terms of his understanding of the possibility of communal action as genuinely free which the French philosopher had previously argued was impossible Pinkard reveals how Sartre was drawn back to Hegel a move that was itself incited by Sartre s newfound interest in Marxism Pinkard argues that Sartre constructed a novel position on freedom that has yet to be adequately taken up and analyzed within philosophy and political theory Through Sartre Pinkard advances an argument that contributes to the history of philosophy as well as key debates on action and freedom Tragedy and Theory Michelle

Zerba,2014-07-14 Michelle Zerba engages current debates about the relationship between literature and theory by analyzing responses of theorists in the Western tradition to tragic conflict Isolating the centrality of conflict in twentieth century definitions of tragedy Professor Zerba discusses the efforts of modern critics to locate in Aristotle s Poetics the origins of this focus on agon Through a study of ethical and political ideas formative of the Poetics she demonstrates why Aristotle and his Renaissance and Neoclassical beneficiaries exclude conflict from their accounts of tragedy The agonistic element the book argues first emerges in dramatic criticism in nineteenth century Romantic theories of the sublime and more influentially in Hegel s lectures on drama and history This turning point in the history of speculation about tragedy is examined with attention to a dynamic between the systematic aims of theory and the subversive conflicts of tragic plays In readings of various Classical and Renaissance dramatists Professor Zerba reveals that strife in tragedy undermines expectations of coherence closure and moral stability on which theory bases its principles of dramatic order From Aristotle to Hegel the philosophical interest in securing these principles determines attitudes toward conflict Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Interrupting Capitalism Matthew A. Shadle,2018-06-08 In the decade since the financial crisis of 2008 governments around the world have struggled to develop strategies to stabilize precarious markets encourage growth and combat mounting wealth inequality In the United States the recovery from that crisis has exacerbated the fears of the working and middle classes and pitted those classes against the wealthy Although we participate every day in economic life as workers consumers employers or activists we often experience the economy as a mysterious force that we cannot control or fully understand Matthew Shadle argues that Catholics ought to be able to draw on their faith to help navigate and make sense of economic life but too often the effort to get ahead or just stay afloat drowns out faith s appeal Interrupting Capitalism proposes a new strategy for Christian economic discipleship Rather than engage the two theological poles of continuity and rupture Christians should interrupt capitalism neither whole heartedly endorsing global capitalism

nor seeking to dismantle it This means breaking into the economy embracing those aspects that enhance human well being while transforming the market in a spirit of solidarity Shadle argues that all three of the dominant theological approaches dealing with economic life the progressive neoconservative and liberationist are theologies of continuity A fourth approach a communitarian one he believes can best embody the strategy of interrupting capitalism The Catholic tradition including its tradition of social teaching provides a cultural structure that along with their own social context conditions how Catholics think about and engage in economic activity Drawing on the resources of the tradition theologians reflect on this activity giving it a theoretical justification and offering correctives Both the experience of ordinary Catholics and the work of theologians feed into new articulations of Catholic social teaching Offering an overview of Catholic thought since the Second World War Shadle begins with the experience of Catholics in Western Europe at mid century moving to Latin America and the United States in the 1970s and 80s and then concluding with the phenomenon of globalization **Integral Community**

Enterprise in Africa Anselm Adodo, 2017-04-03 This book demonstrates that an institutionalized model of business and enterprise based on nature community spirituality and humanism as demonstrated by a Nigerian community enterprise is a better driver of social and technological innovation in Africa Father Anselm Adodo proposes the theory of Communitism as a more indigenous sustainable and integral approach to tackling the social political economic and developmental challenges of today s Africa and offers this as an African alternative to Capitalism Socialism and Communism a surer path to sustainable development in and from Africa **Crafting Community** Amy M.
