**William Carlos Williams and the Diagnostics of Culture** Brian Bremen A.,1993-04-29 Bremen s study examines the development of William Carlos Williams s poetics focusing in particular on Williams s ongoing fascination with the effects of poetry and prose and his life long friendship with Kenneth Burke Using a framework based on Burke s and Williams s theoretical writings and correspondence as well as on the work of contemporary cultural critics Bremen looks closely at how Williams s poetic strategies are intimately tied to his medical practice incorporating a form of methodological empiricism that extends his diagnoses beyond the individual to include both language and community The book develops a series of rhetorical cognitive medical and political analogues that clarify the poetic and cultural achievements Williams hoped to realize in his writing **Unparalleled Poetry** Emmylou J. Grosser,2023-07-25 For more than 250 years biblical Hebrew poetry scholarship has been dominated by metrical assumptions and the idea of parallelism While a consensus is emerging that biblical poetry is not metrical no consensus has arisen regarding what parallelism is or what makes biblical poetry verse or poetry in the absence of meter graphical lineation and end marking of lines Unparalleled Poetry claims that a new paradigm for biblical poetry is needed a paradigm that is disentangled from parallelism as well as meter Drawing from the Cognitive Poetics work of Reuven Tsur Emmylou Grosser reorients the discussion of biblical poetic structure to how poetic structure can be heard and perceived She argues that the line units of biblical poetry emerge in the cognitive experience of the listener reader and provides an account of the free rhythm versification system of biblical poetry Grosser s cognitive approach to biblical poetry accounts for the wide diversity of lines and poems in the Bible and illuminates both the structures of biblical

poetry and the artistry of potential effects Unparalleled Poetry presents a rewarding new paradigm for readers of the Bible while modeling new possibilities for the study of nonmetrical poetries and phenomena called parallelism throughout the world

**Novel Pedagogy** Liwen Zhang, 2024-10-01 Is the novel a category of knowledge that merits serious study Even if the novel has shed the stigma of being mindless entertainment one might easily assume that reading a novel is not studying unless one reads closely and carefully preferably from a scholarly edition or for a scholarly purpose Novel Pedagogy explores how Victorian writers envisioned the novel s potential to become knowledge long before the form s ascendance into the ivory tower Liwen Zhang argues that Victorian novelists constant critique of schooling on the one hand and their frequent invocation of deep knowledge on the other are not self contradictory Instead of offering a blissful escape from education writers such as William Thackeray Charles Kingsley Charles Dickens Elizabeth Gaskell George Eliot and George Gissing seek to offer uniquely novelistic pathways to knowledge Novel Pedagogy offers a new model of novelistic epistemology by showing how the novel unlike other educational genres reflects on the unpleasant realities of learning and of not learning amid the ubiquity of ineffective textbooks reluctant students and false motivations
