**The Encyclopedia of Social Reform** William Dwight Porter Bliss,1897 *Street Sex Workers' Discourse* Jill McCracken,2013-04-17 Incorporating the voices and insights of

street sex workers through personal interviews this monograph argues that the material conditions of many street workers the physical environments they live in and their effects on the workers bodies identities and spirits are represented reproduced and entrenched in the language surrounding their work As an ethnographic case study of a local system that can be extrapolated to other subcultures and the construction of identities this book disrupts some of the more prevalent academic and lay understandings about street prostitution by providing a thorough analysis of the material conditions surrounding street work and their connection to discourse McCracken offers an explanation of how constructions can be made differently in order to achieve representations that are generated by the marginalized populations themselves while placing responsibility for this marginalization on the society in which these people live

### **Sex Workers and Their Clients**

Jerald L. Mosley, 2020-12-15 This book draws on the voices of sex workers and their clients to critically assess the criminalization of prostitution in favour of decriminalization It does so by contrasting their voices with the claims made by prohibitionists those advocating the prohibition of prostitution or at least the prohibition of the purchase of sexual services and notes scholarly research that gives context to those accounts and claims Each chapter is dedicated to a particular issue which is given currency in academic and public debates on sex work The first part of each chapter reviews the state of research and publicly aired contentions and the second part compares sex workers voices with claims from prohibitionists It highlights the gap between what many sex workers have to say about themselves and what theorizing prohibitionists say about all prostitution It argues that there is often a striking contrast in attitude perspective interpretation and valuation This books speaks primarily to prohibitionist thinking and sex work stereotyping and secondarily to the debate on

decriminalization of sex work Sex, Drugs, Death, and the Law David A. J. Richards, 1986 Among the most commonly argued legal questions are those involving victimless crimes consensual adult sexual relations including homosexuality and prostitution the use of drugs and the right to die How can they be distinguished from proper crimes and how can we as citizens judge the complex moral and legal issues that such questions entail David Richards a teacher of law in the areas of constitutional and criminal law and a moral and legal philosopher concerned with the investigation of legal concepts applies an interdisciplinary approach to the question of overcriminalization he draws on legal and philosophical arguments and links the subject to history psychology social science and literature To demonstrate how gross and unjust overcriminalization has developed Professor Richards explores basic assumptions that often underlie the common American sense of proper criminalization
