Protection And Politics Conservative Economic Discourse 1815 185:

Protection and Politics Anna Gambles, 1999 Examination of debate within the Conservative party over the principles of free trade The complex and troubled relationship between protectionism and Conservatism in nineteenth century Britain is the focus of this book It looks at how the developing free trade orthodoxy was challenged within Conservatism and offers new perspectives on the intellectual controversies which precipitated the Conservative party's split of 1846 and the intricate denouement of 1846 52 In contrast to traditional accounts it also seeks to explore the intellectual character of opposition to the evolving mid Victorian consensus framed around free trade laissez faire and sound money revealing how Conservatives debated key aspects of economic policy Through an exhaustive reading of Conservative journals pamphlets and contributions to parliamentary debates the author is able to expose an alternative set of ideas about the direction of British economic and social change and the role of government in moulding it Dr ANNA GAMBLES is lecturer in modern British history University of Kent at Canterbury

The Emergence of Capitalism in Early America Christopher W. Calvo, 2020-02-03 Due to the enormous influence of Adam Smith's *The Wealth of Nations* on Western liberal economics a tradition closely linked to the United States many scholars assume that early American economists were committed to Smith's ideas of free trade and small government Debunking this belief Christopher W Calvo provides a comprehensive history of the nation's economic thought from 1790 to 1860 tracing the development of a uniquely American understanding of capitalism *The Emergence of Capitalism in Early America* shows how American economists challenged adjusted and adopted the ideas of European thinkers such as Adam Smith David Ricardo and Thomas Malthus to suit their particular interests Calvo not only explains the divisions between American free trade and the version put forward by Smith but he also discusses the sharp differences between northern and southern liberal economists Emergent capitalism fostered a dynamic discourse in early America including a homegrown version of socialism burgeoning in antebellum industrial quarters as well as a reactionary brand of conservative economic thought circulating on slave plantations across the Old South This volume also traces the origins and rise of nineteenth century protectionism a system that Calvo views as the most authentic expression of American political economy Finally Calvo examines early Americans' awkward relationship with capitalism's most complex institution finance Grounded in the economic debates Atlantic conversations political milieu and material realities of the antebellum era this book demonstrates that American thinkers fused different economic models assumptions and interests into a unique hybrid capitalist system that shaped the trajectory of the nation's economy [The English Historical Review](#) ,2012 [Arts & Humanities Citation Index](#) ,2002
