Protest Policy And The Problem Of Violence Against Women A Cross National Comparison:

Protest, Policy, and the Problem of Violence against Women S. Laurel Weldon, 2013-12-09 Violence against women is one of the most insidious social ills facing the world today Yet governmental response is inconsistent ranging from dismissal to aggressive implementation of policies and programs to combat the problem In her comparative study of thirty six democratic governments Laurel Weldon examines the root causes and consequences of the differences in public policy from Northern Europe to Latin America She reveals that factors that often influence the development of social policies do not determine policies on violence against women Neither economic level religion region nor the number of women in government determine governmental responsiveness to this problem Weldon demonstrates for example that Nordic governments take no more action to combat violence against women than Latin American governments even though the Swedish welfare state is often considered a leader in social policy particularly with regard to women s issues Instead the presence of independently organized active women s movements plays a greater role in placing violence against women on the public agenda The breadth and scope of governmental response is greatly enhanced by the presence of an office dedicated to promoting women s status Weldon closes with practical lessons and insights to improve government action on violence against women and other important issues of social justice and democracy *Living Gender after Communism* Janet Elise Johnson, Jean C. Robinson, 2006-12-12 How has the collapse of communism across Europe and Eurasia changed gender In addition to acknowledging the huge costs that fell heavily on women *Living Gender after Communism* suggests that moving away from communism in Europe and Eurasia has provided an opportunity for gender to multiply from varieties of neo traditionalism to feminisms from overt negotiation of femininity to denials of gender This development in turn has enabled some women in the region to construct their own gendered identities for their own political economic or social purposes Beginning with an understanding of gender as both a society wide institution that regulates people s lives and a cultural toolkit which individuals and groups may use to subvert or transvalue the sex gender system the contributors to this volume provide detailed case studies from Belarus Bosnia the Czech Republic Poland Romania Russia and Ukraine This collaboration between young scholars most from postcommunist states and experts in the fields of gender studies and postcommunism combines intimate knowledge of the area with sophisticated gender analysis to examine just how much gender realities have shifted in the region Contributors are Anna Brzozowska Karen Dawisha Nanette Funk Ewa Grigar Azra Hromadzic Janet Elise Johnson Anne Marie Kramer Tania Rands Lyon Jean C Robinson Iulia Shevchenko Svitlana Taraban and Shannon Woodcock [Getting Paid While Taking Time](#) Megan Sholar, 2016-09-28 The United States remains the only industrialized nation in the world that does not provide paid family leave at the national level for either men or women In the more than two decades since the passage of the Family and Medical Leave Act there have been numerous unsuccessful attempts to expand family leave benefits nationally However in the United States it is common for innovations in family

policies to arise at the state level In her timely book *Getting Paid While Taking Time* Megan Sholar explains the development of family leave policies at both the national and state levels in the United States She provides cogent studies of states that have passed and proposed family leave legislation and she pays special attention to the ways in which women s movement actors and other activists e g labor unions exert pressure on public officials to help influence the policymaking process In her conclusion Sholar considers the future of paid family leave policies in the United States and the chances for it ever equaling the benefits in other countries

Laurel Weldon, 2018-03-01 When and why do governments promote women's rights Through comparative analysis of state action in seventy countries from 1975 to 2005 this book shows how different women's rights issues involve different histories trigger different conflicts and activate different sets of protagonists Change on violence against women and workplace equality involves a logic of status politics feminist movements leverage international norms to contest women's subordination Family law abortion and contraception which challenge the historical claim of religious groups to regulate kinship and reproduction conform to a logic of doctrinal politics which turns on relations between religious groups and the state Publicly paid parental leave and child care follow a logic of class politics in which the strength of Left parties and overall economic conditions are more salient The book reveals the multiple and complex pathways to gender justice illuminating the opportunities and obstacles to social change for policymakers advocates and others seeking to advance women's rights

A History of Victims of Crime Stephen Strauss-Walsh, 2023-05-19 This book examines the evolution of the contemporary crime victim's procedural place within modern Western societies Taking the history of the Irish crime victim as a case study the work charts the place of victims within criminal justice over time This evolves from the expansive latitude that they had during the eighteenth century to their major relegation to witness and

informer in the nineteenth and back to a more contemporary recapturing of some of their previous centrality The book also studies what this has meant for the position of suspects and offenders as well as the population more generally Therefore some analysis is devoted to examining its impact on an offender's right to fair trial and social forms It is held that the modern crime victim has transcended its position of marginality This happened not only in law but as the consequence of the victim's new role as a key sociopolitical stakeholder This work flags the importance of victim rights conferrals and the social transformations that engendered such trends In this way victim re emergence is evidenced as being not just a legal change but a consequence of several more recent sociocultural transformations in our societies The book will be of interest to researchers academics and policy makers in criminal law human rights law criminology and legal history
