## **Protestant Politics Jacob Sturm 1489 1553 And The German Reformation:**

**Protestant Politics** Thomas A. Brady Jr., 2023-08-21 Protestant Politics presents a new interpretation of the impact of the Protestant Reformation on the political culture and government of the Holy Roman Empire. It arose from a desire to re-examine this subject which was long dominated by the views of Leopold von Ranke (1795-1886) in the light of two recent developments: the liberation of pre-modern European history from its long domination by the idea of the nation-state and the recognition of the Reformation as a social movement. Protestant Politics is also the first narrative of the German Reformation based on original sources in more than half a century. The particular approach of Protestant Politics is to map the collision of the relatively unified Protestant movement with the dispersed multi-layered structure of authority and power in the late medieval Holy Roman Empire. The narrative thread which holds together the story's levels—local, provincial, regional, and Imperial—is the career of Jacob Sturm (1489-1553) of Strasbourg, the leading Protestant urban politician of the era. The rhythm of his career, from a heritage of local autonomy through the great Peasants War of 1525 to the trans-regional Protestant alliance (1531-47) and then back again to the local and provincial politics of the 1550s, mirrors the political career of German Protestantism from its explosive beginnings through expansion, defeat, and a loss of dynamism. This process, shaped by the peculiar political structures and traditions of the Empire, not the theology of Martin Luther, is responsible for German Protestantism's failure to develop a revolutionary potential similar to those of the French, English, and Netherlandish Protestant movements. Protestant Politics is written for historians and for students and readers of history at all levels. The quotes from original sources are all put into English and basis of interpretation is explained in a lengthy introduction. Protestant Politics is a revisionist work on politics and religion in Germany. It will be of interest to students of German history, late medieval and early modern German history, German historiography, and religion and politics.

**The Politics of the Reformation in Germany** Thomas A. Brady, 1997 In The Politics of the Reformation in Germany Thomas A. Brady Jr. constructs a new understanding of the Protestant Reformation through the biography of a little-known figure, the urban politician Jacob Sturm (1489-1553) of Strasbourg. At once a man of the late Middle Ages, the Reformation, and the Renaissance, Sturm's political career cut through every one of the levels of the complex political life of Germany in this era: the city, the province, the region, the Protestant movement, and the Holy Roman Empire. Examination of it reveals why Protestantism, which began as a radical movement, quickly allied with local and regional government to become a conservative force. Professor Brady places the Reformation in the context of the political pluralism of the late Middle Ages and in so doing provides an interpretation that does not see it as the beginning of Germany's movement towards national statehood. Rather, it gives full play to the popular movements, the largest and richest in Europe before the French Revolution, and to local interests and traditions. This perspective also allows for a reassessment of the impact of the Reformation on the political culture and government of the Holy Roman Empire and its potential for altering the future course of German history.

**From Liberal Democracy to Fascism** Peter Caldwell,William Scheuerman,2021-10-01 The Weimar Republic from 1919 until 1933 when Hitler came into power witnessed crucial debates on law and politics These debates are reexamined in this book Were for example democratic rules and procedures an adequate basis for democracy as Hugo Preuss and Hans Kelsen suggested Or should constitutional law elaborate the deeper basic principles embedded in the democratic constitution itself as Hermann Heller argued Was the president the immediate guardian of the constitution as Carl Schmitt s concept of representation suggested Or was Schmitt s concept itself subject to Walter Benjamin s critique of the aura of authenticity These and other typical Weimar era debates helped shape West German constitutionalism The former labor lawyer on the left Ernst Fraenkel for example began to develop a general theory of dictatorship mass democracy while in exile which influenced the new discipline of political science after the war Similarly Gerhard Leibholz an anti positivist lawyer in Weimar served on the first Constitutional Court of the Federal Republic of Germany helping to consolidate its new constitutional culture

Religious Identity in an Early Reformation Community Michele Zelinsky Hanson,2009 Debate over the usefulness of the confessionalization thesis as a way of understanding the Reformation s impact on later Sixteenth Century Europe has distracted attention from the experiences of people in the early years of reform Based on interrogations recorded in Augshurg Germany in the first half of the sixteenth century the compelling portraits of individual believers presented in this book provide a rare insight into the lives of ordinary people during one of the most controversial periods in religious history Speaking about their faith and encounters with others in their own words they rephrase the debate in terms of contemporary experiences The resulting study challenges previous assumptions about the importance of belief in constructing religious identities and reveals the potential for accommodation amidst conflict

**Johann Sleidan and the Protestant Vision of History** Alexandra Kess,2017-03-02 One of the major challenges faced by the emergent Protestant faith was how to establish itself in a hitherto Catholic world A key way it found to achieve this was to create a common identity through the fashioning of history emphasising Protestantism s legitimacy and authority In this study the life and works of one of the earliest and most influential Protestant historians Johann Sleidan 1506 1556 are explored to reveal how history could be used to consolidate the new confession and the states which adopted it Sleidan was commissioned by leading intellectuals from the Schmalkadic League to write the official history of the German Protestant movement resulting in the publication in 1555 of *De statu religionis et reipublicae Carolo Quinto Caesare Commentarii* Overnight his work became the standard account of the early Reformation referenced by Catholics and Protestants alike in

subsequent histories and polemical debates for the next three centuries Providing the first comprehensive account of Sleidan's life based almost entirely on primary sources this book offers a convincing background and context for his writings It also shows how Sleidan's political role as a diplomat impacted on his work as a historian and how in turn his monumental work influenced political debate in France and Germany As a moderate who sought to promote accommodation between the rival confessions Sleidan provides a fascinating subject of study for modern historians seeking to better understand the complex and multi faceted nature of the early Reformation

**Weathering the Reformation** Linnéa Rowlatt, 2024-05-08 Weathering the Reformation explores the role of the Little Ice Age in early modern Christian culture and considers climate as a contributing factor in the Protestant Reform The book focuses on religious narratives from Strasbourg between 1509 and 1541 pivotal years during which the European cultural concept of nature splintered along confessional differences Together with case studies from antagonistic religious communities Linnéa Rowlatt draws on annual weather reports for a period during which the climate became less hospitable to human endeavours Social unrest and the cultural upheaval of Reform are examined in relation to deteriorating climactic conditions characteristic of the Spörer Minimum This book will be of particular interest to scholars of religious history and climate history

**Charity and Economy in the Orphanages of Early Modern Augsburg** Thomas Max Safley, 2023-08-21 This book examines the complex interrelationship between charity confession and capital in the orphanages of the Free Imperial City of Augsburg To provide the best care at the least cost the administrators of these traditionally non capitalistic organizations engaged in a wide variety of capitalistic practices in capital commodity and labor markets Their market orientated practices inspired bourgeois virtues that included the assessments of long term risk and reward the avoidance of excess and waste and the practice of obedience persistence and industry Under the pressures of confessional tension efficiency slowly evolved into a more complex notion of utility that placed the needs of the orphanages over the dictates of economy and the divisions of religion The product of monumental original research this book offers a substantial revision of current historical scholarship on poor relief social discipline organization building and the advent of capitalism A forthcoming volume will pursue these issues through a close study of the fortunes and fates of 8 000 Augsburg orphans These studies make required reading for advanced students of early modern Europe

*Migration and Urbanization in the Ruhr Valley, 1821-1914* James H.

Jackson,2023-08-21 This book analyzes the human consequences of urbanization and geographical mobility for residents of a major city in the Ruhr Valley of Germany during the century long transition from an agrarian order to the industrial era By documenting the dynamism of Duisburg s population the interdependence of urban and rural life and the importance of households and social networks it reshapes the conventional understanding of central European migration The unprecedented scope of this analysis of these social processes is made possible by a unique combination of detailed census manuscripts vital records police residency registers and building permits that are unmatched by any other nineteenth century European or North American city      **Calvinism's First Battleground** Michael W. Bruening,2006-01-27 This book sheds new light on the origin of Calvinism and the Reformed faith through a detailed history of its progress in the Pays de Vaud A careful examination of twin conflicts the forced conversion of a Catholic populace to Protestantism by the Bernese and the struggle of Calvinists against the Zwinglian political and theological ideas that dominated the Swiss Confederation helps show why the Reformation bloomed where and when it did      The Negotiated Reformation Christopher W. Close,2009-09-30 Utilizing evidence from numerous imperial cities this book offers an explanation for the spread and survival of urban reform during the sixteenth century By analyzing the operation of regional political constellations it reveals a common process of negotiation that shaped the Reformation in the Holy Roman Empire It reevaluates traditional models of reform that leave unexplored the religious implications of flexible systems of communication and support among cities Such networks influenced urban reform in fundamental ways affecting how Protestant preachers moved from city to city as well as what versions of the Reformation city councils introduced This fusion of religion and politics meant that with local variations negotiation within a regional framework sat at the heart of urban reform The Negotiated Reformation therefore explains not only how the Reformation spread to almost every imperial city in southern Germany but also how it survived imperial attempts to repress religious reform
