Department of State. Office of the Geographer, 1973 **State of the World's Cities 2008/9** Un-Habitat, 2012-05-04 Cities are perhaps one of humanity's most complex creations never finished never definitive They are like a journey that never ends Their evolution is determined by their ascent into greatness or their descent into decline They are the past the present and the future Cities contain both order and chaos In them reside beauty and ugliness virtue and vice They can bring out the best or the worst in humankind They are the physical manifestation of history and culture and incubators of innovation industry technology entrepreneurship and creativity Cities are the materialization of humanity's noblest ideas ambitions and aspirations but when not planned or governed properly can be the repository of society's ills Cities drive national economies by creating wealth enhancing social development and providing employment but they can also be the breeding grounds for poverty exclusion and environmental degradation The 21st Century is the Century of the City Half of humanity now lives in cities and within the next two decades 60 per cent of the world's people will reside in urban areas How can city planners and policymakers harmonize the various interests diversity and inherent contradictions within cities What ingredients are needed to create harmony between the physical social environmental and cultural aspects

of a city and the human beings that inhabit it This report adopts the concept of Harmonious Cities as a theoretical framework in order to understand today's urban world and also as an operational tool to confront the most important challenges facing urban areas and their development processes It recognizes that tolerance diversity social justice and good governance all of which are inter related are as important to sustainable urban development as physical planning It addresses national concerns by searching for solutions at the city level For that purpose it focuses on three key areas spatial or regional harmony which examines the main drivers of urban growth in the developing world and explores the spatial nuances of economic and social policies social harmony which presents and analyzes new data on urban inequalities worldwide and describes the types of shelter deprivations experienced by slum dwellers in developing world regions and environmental harmony which examines the role of cities in the climate change debate and the impact of global warming on the most vulnerable cities The report also assesses the various intangible assets within cities that contribute to harmony such as cultural heritage sense of place and memory and the complex set of social and symbolic relationships that give cities meaning It argues that these intangible assets represent the soul of the city and are as important for harmonious urban development as tangible assets Harmony within cities argues the report is both a journey and a destination Published with UN HABITAT

Roberts, 2016-11-30 Concerns about the place of

Islam in Palestinian politics are familiar to those studying the history of the modern Middle East. A significant but often misunderstood part of this history is the rise of Islamic opposition to the British in Mandate Palestine during the 1920s and 1930s. Across the empire, imperial officials wrestled with the question of how to rule over a Muslim majority country and came to see traditional Islamic institutions as essential for maintaining order. Islam under the Palestine Mandate tells the story of the search for a viable Islamic institution in Palestine and the subsequent invention of the Supreme Muslim Council. As a body with political recognition, institutional autonomy and financial power, the council was designed to be a counterweight to the growing popularity of nationalism among Palestinians. However, rather than extinguishing the revolutionary capacity of the colonized, it would become a significant opponent of British rule. Under its highly controversial president, the Grand Mufti of Jerusalem, Hajj Amin al-Husayni, making extensive use of primary sources from British and Israeli archives, this book offers an innovative account of the Supreme Muslim Council's place within a colonial project that aimed to control Palestinian religion and politics. Roberts argues against the standard view that the council's creation was an act of appeasement towards Muslim opinion, showing how British actions were guided by techniques of imperial administration used elsewhere in the empire.

#### **Sustainable Development and Local Government in South Korea**

Youngah Guahk, 2025-06-20. This book addresses one of the key issues of our time: the process of sustainable transition in modern industrial societies by looking at the dynamics associated with this objective at the decentralised local level in South Korea. The creation of eco-cities is a crucial aspect in the ongoing urbanisation of East Asia, and this book investigates specific examples of Korean local governments embarking on the path towards sustainable urban development and assesses their achievements. Making use of a wide range of sources and data collection methods, the book studies two diverse cases in great depth: Suwon City and Jeju Province. By systematically comparing the aims, strategies and decision-making processes in these two examples, the book illuminates the relative roles played by local leaders, central government, civil society representatives and even international organisations. Highlighting the challenges, driving forces and limitations impacting sustainable transition at the local level, this book will be a valuable resource to students and scholars of Korean politics, decentralisation, urban governance, sustainable development and city planning.

#### **War and Independence In Spanish America**

Anthony McFarlane, 2013-10-15. During the period from 1808 to 1826, the Spanish empire was convulsed by wars throughout its dominions in Iberia and the Americas. The conflicts began in Spain, where Napoleon's invasion triggered a war of national resistance. The collapse of the Spanish monarchy provoked challenges to the colonial regime in virtually all of Spain's American provinces, and colonial demands for autonomy and independence led to political turbulence and violent confrontation on a transcontinental scale. During the two decades after 1808, Spanish America witnessed warfare on a scale not seen since the conquests three centuries earlier. War and Independence in Spanish America provides a unified account of war in Spanish America during the period after the collapse of the Spanish government in 1808. McFarlane traces the courses

and consequences of war combining a broad narrative of the development and distribution of armed conflict with analysis of its characteristics and patterns He maps the main arenas of war traces the major campaigns by and crucial battles between rebels and royalists and places the military conflicts in the context of international political change Readers will come away with a fully realized understanding of how war and military mobilization affected Spanish American societies and shaped the emerging independent states The World's Great Classics ,1899 **Sessional Papers - Legislature of the Province of Ontario** Ontario. Legislative Assembly,1929 *The People of the Cobra Province in Egypt* Wolfram Grajetzki,2020-04-19 The book delivers a history from below for the first half of Egyptian history coveringthe earliest settlements state formation and the pyramid age The focus is on theWadjet province about 350 km south of modern Cairo in Upper Egypt Herearchaeological records provide an especially rich dataset for the material culture offarmers Histories of Ancient Egypt have focussed heavily on the kings monuments and inscriptions while the working population is hardly mentioned The book investigates the life of people far from the centres of power One main aim of the book is the interaction between farmers and the ruling classes at the centres of power and locally How did decisions at the royal centre affect the life of ordinary people The Introduction offers a critical survey of Egyptologists and their attitudes towardsthe working class The social and cultural background of these researchers is analysed to assess how heavily they are influenced by time and their political and cultural background The First chapter then describes the location and gives a history ofprevious research and excavations The archaeological sites and the recorded ancientplace names of the province are presented to provide a geographical framework forthe book The following chapters are arranged in chronological order mainly according to thearchaeological phases visible in the province It appears that in phases of a weakcentral government people in the provinces were much better off while in phases ofa strong central government burials of poorer people are almost absent The reasons for this are discussed A substantial part of the book comprises descriptions of single burials and the materialculture in the province The archaeology of the poorer people is the main focus Burial customs and questions of production are discussed For a fuller picture evidence from other parts of Egypt is also taken into account Thus settlement sites in other regions are presented to provide contemporary evidence for living conditions in particular periods As the book will focus on the lower classes the Tributary Mode of Production will be used as the main theoretical framework The Tributary Mode of Production previouslyknown as the Asiatic Mode of Production is a term that goes back to Karl Marx but was mainly used in the 20th century to describe ancient societies whose economies were not based on slaves A constant question will be the status of the working population Were they slaves serfs or free citizens It will be argued that they were most often in a dependent position comparable to that of serfs while there is little evidence for slavery The numerous burials presented in the volume are important for highlighting the diversity of burials in the different periods Many will be placed in special subchapters Readers can skip these chapters when they prefer to concentrate on the main text **The World Factbook 2016-17** Government Publications

Office,2016-08-18 The World Factbook provides information on the history people government economy geography communications transportation military and transnational issues for 267 world entities The World Factbook Reference tab includes maps of the major world regions as well as Flags of the World a Physical Map of the World a Political Map of the World a World Oceans map and a Standard Time Zones of the World map This annual edition also covers information about country profiles and country comparisons It would make an excellent and useful resource for world geography research papers and international relations classes that may study the people history and communication patterns of other countries
