Raising Lifelong Learners Lucy Calkins, Lydia Bellino, 1997-09-07 For those interested in nurturing a child's future

Raising Lifelong Learners Lucy Calkins, 1998-08-21 Here the nationally acclaimed educator who transformed the way our children learn to read and write in school shows us how to nurture our children's imagination at home from the earliest days of babytalk to the time when we see them off to school Drawing upon her influential philosophy of active learning as well as her personal experience as a parent Calkins shows parents how to stimulate curiosity and spark creative thinking in children Having an open and creative approach to conversations chores and games can matter just as much as reading writing and math And even in traditional skills like reading and writing we need to encourage our children to read for meaning and write for expression rather than focus only on mechanics like phonics and spelling By giving parents new and imaginative techniques for educating children and by providing them with an insider's view of what goes on in the early grades *Raising Lifelong Learners* creates the ultimate partnership in learning between home and school parents and teachers

organization including an introduction to the chapter as a whole followed by historical considerations of the topic a discussion of central issues and theory a review of classical and modern research forecasts of future directions of theory and research and a set of conclusions Of course contributors own convictions and research are considered but contributions to this new edition present all major points of view and central lines of inquiry and interpret them broadly The Handbook of Parenting is intended to be both comprehensive and state of the art As the expanded scope of this second edition amply shows parenting is naturally and closely allied with many other fields
