Generations on the Land Joe Nick Patoski,2011-01-28 The landowners in this book have improved their land and done so by being profitable generous to their human community committed to family and desirous of leaving land better than when it came into their stewardship from the introduction by Brent Haglund In 2008 the Sand County Foundation and the Texas A M Department of Ecosystem Science and Management co hosted a workshop called Generations on the Land Working for Land Stewardship It brought to College Station winners of the foundation s Leopold Conservation Award who presented their stories and interacted with students and other land managers The common themes among the award winning ranchers and farmers were their commitment to progressive and ethical land management practices and their success in keeping their land and business operations in the same family over successive generations Following the workshop the Sand County Foundation asked Texas writer Joe Nick Patoski to spend time with seven of the award winners and profile them in extended essays that now make up this manuscript The foundation s goals in producing a

book were to more widely publicize the voluntary conservation achievements of private landowners across the country to recognize their roles as conservation leaders outside the agricultural communities where they live and to reinforce the value of family commitment to land stewardship The seven landowners profiled by Patoski in the book include five ranchers a forester and a vintner who live in California Nebraska Texas Utah Wisconsin and Wyoming Their conservation accomplishments range from providing a habitat corridor for pronghorn antelope to hammering out an endangered species safe harbor agreement for grape growers A short introduction by a fellow conservation or ranching professional precedes each of the personal portraits by Patoski which are written in an informal conversational style Brent Haglund president of the Sand County Foundation provides an introduction to the purpose and work of the foundation and a conclusion summarizes the substantive conservation contributions of the Leopold award winners Four to five color photographs accompany each profile including one family portrait see excerpt

A Presentation by National 4-H Conference Participants Concerning the Future of Agriculture in the United States United States. Congress. House. Committee on Agriculture. Subcommittee on Biotechnology, Horticulture, and Research, 2015

Paradise-Denio Livestock Grazing Management, 1981 **Examine new generation cooperatives and strategies to maximize farm and ranch income** United States. Congress. House. Committee on Agriculture, 2004

Economic, Social, and Cultural Aspects of Livestock Ranching on Española and Canjilon Ranger Districts of the Santa Fe and Carson National Forests Carol Raish, 2003 **Wilderness and the Common Good** Jo

Arney,2016-01-01 How can we save America s wilderness areas Wilderness and the Common Good argues that the answer to this question lies in the actions of America s citizens Beginning with The Wilderness Act of 1964 Dr Jo Arney examines the state of American environmental policies and how they intersect with individual citizen action Drawing on the work of environmental and political scientists advocates and philosophers Dr Arney argues that modern civic responsibility entails both an understanding of the importance of wilderness and citizen activism to ensure its existence True and lasting protection for wilderness will be borne out of a shared understanding of how protected wilderness areas enriches all of our lives Weaving in her own personal narratives Dr Arney shows that wild areas are not only important for the biodiversity that they safeguard but are also essential for the common good of our society
