Rancor And Reconciliation In Medieval England

Sarah Rees Jones

Rancor And Reconciliation In Medieval England:

Rancor and Reconciliation in Medieval England Paul R. Hyams, 2018-10-18 Duels and bloodfeuds have long been regarded as essentially Continental phenomena counter to the staid and orderly British ways of settling differences In this surprising work of social and legal history Paul R Hyams reveals a post Conquest England not all that different from the realms across the Channel Drawing on a wide range of texts and the long history of argument about these texts Hyams shatters the myth of English exceptionalism the notion that while feud and vengeance prevailed in the lands of the Franks England had advanced beyond such anarchic barbarism by the time of the Conquest and forged a centralized political and legal system This book provides support for the notion that feud and vengeance flourished in England long beyond the Conquest and that this fact obliges us to reconsider the genealogies of both common law and the English monarchy Moving back and forth between a broad overview of 300 years of legal history and the details of specific disputes Hyams attends to the demands of individuals who believed that they had been aggrieved and sought remedy He shows how individuals perceived particular acts of violence and responded to them These reactions in turn sparked central efforts to manage disputes and thereby establish law and order Respectable litigation however never eclipsed the danger of direct action often violent and physical

The Secular Clergy in England, 1066-1216 Hugh M. Thomas, 2014 The secular clergy priests and other clerics outside of monastic orders were among the most influential and powerful groups in European society during the central Middle Ages The secular clergy got their title from the Latin word for world *saeculum* and secular clerics kept the Church running in the world beyond the cloister wall with responsibility for the bulk of pastoral care and ecclesiastical administration This gave them enormous religious influence although they were considered too worldly by many contemporary moralists trying for instance to oppose the elimination of clerical marriage and concubinage Although their worldliness created many tensions it also gave the secular clergy much worldly influence Contemporaries treated elite secular clerics as equivalent to knights and some were as wealthy as minor barons Secular clerics had a huge role in the rise of royal bureaucracy one of the key historical developments of the period They were instrumental to the intellectual and cultural flowering of the twelfth century the rise of the schools the creation of the book trade and the invention of universities They performed music produced literature in a variety of genres and languages and patronized art and architecture Indeed this volume argues that they contributed more than any other group to the Twelfth Century Renaissance Yet the secular clergy as a group have received almost no attention from scholars unlike monks nuns or secular nobles In *The Secular Clergy in England 1066-1216* Hugh Thomas aims to correct this deficiency through a major study of the secular clergy below the level of bishop in England from 1066 to 1216

Excommunication in Thirteenth-Century England Felicity Hill, 2022-05-12 Excommunication was the medieval church's most severe sanction used against people at all levels of society It was a spiritual social and legal penalty Excommunication in Thirteenth Century England offers a fresh perspective

on medieval excommunication by taking a multi dimensional approach to discussion of the sanction Using England as a case study Felicity Hill analyzes the intentions behind excommunication how it was perceived and received at both national and local level the effects it had upon individuals and society The study is structured thematically to argue that our understanding of excommunication should be shaped by how it was received within the community as well as the intentions of canon law and clerics Challenging past assumptions about the inefficacy of excommunication Hill argues that the sanction remained a useful weapon for the clerical elite bringing into dialogue a wide range of source material allows effectiveness to be judged within a broader context The complexity of political communication and action are revealed through public conflicting accepted and rejected excommunications Excommunication could be manipulated to great effect in political conflicts and was an important means by which political events were communicated down the social strata of medieval society Through its exploration of excommunication the book reveals much about medieval cursing pastoral care fears about the afterlife social ostracism shame and reputation and mass communication

Identity and Insurgency in the Late Middle Ages Linda Clark, 2006 The most crucial issues in current research are debated in the latest volume in the series The essays collected here provide fresh insight into a range of important topics across the period They discuss religion both orthodox as revealed by the lives of anchoresses living in Norwich and heretical as practised by lollards living in Coventry politics exploring the motivations of individuals seeking election to parliament and how the way Cade's Rebellion was recorded by contemporaries affected its subsequent perception law whether it may be deduced from manorial court rolls that lawyers were employed by peasants and an examination of the process of peace making in feuds on the Scottish border national ethnic and political identity in the British Isles social ranking and chivalry in particular knighthood in Scotland and verse a consideration of the poem Lydgate addressed to Thomas Chaucer and the occasion of its composition Contributors JACKSON W ARMSTRONG JACQUELYN FERNHOLTZ TONY GOODMAN DAVID GRUMMITT CAROLE HILL MAUREEN JURKOWSKI JENNI NUTTALL SIMON PAYLING ANDREA RUDDICK KATIE STEVENSON MATTHEW TOMPKINS

Disputing Strategies in Medieval Scandinavia, 2013-09-25 In Scandinavia the study of disputes is still a relatively new topic The papers offered here discuss how conflicts were handled in Scandinavian societies in the Middle Ages before the emergence of strong centralized states What strategies did people use to contest power property rights honour and other kinds of material or symbolic assets Seven essays by Scandinavian scholars are supplemented by contributions from Stephen White John Hudson and Gerd Althoff to provide a new baseline for discussing both the strategies pursued in the political game and those used to settle local disputes Using practice and process as key analytical concepts these authors explore formal law and litigation in conjunction with non formal legal proceedings such as out of court mediation rituals emotional posturing and feuding Their insights place the Northern medieval world in a European context of dispute studies With introductory sections on social structure sources materials and the historiography of Scandinavian dispute studies Contributors are Gerd Althoff Catharina

Andersson Kim Esmark Lars Ivar Hansen Lars Hermanson John Hudson Au ur G Magn sd ttir Hans Jacob Orning Helle Vogt and Stephen D White The Origin Legends of Early Medieval Britain and Ireland Lindy Brady,2022-08-04 The inhabitants of early medieval Britain and Ireland shared the knowledge that the region held four peoples and the awareness that they must have originally come from elsewhere The Origin Legends of Early Medieval Britain and Ireland studies these peoples origin stories an important genre that has shaped national identity and collective history from the early medieval period to the present day These multilingual texts share many common features that repay their study as a genre but have previously been isolated as four disparate traditions and used to argue for the long roots of current nationalisms Yet they were not written or read in isolation during the medieval period Individual narratives were in constant development written and rewritten to respond to other texts This book argues that insular origin legends developed together to flesh out the history of the insular region as a whole *Oxford Handbook of Transitional Justice* ,2025-08-15 The Oxford Handbook of Transitional Justice is an authoritative guide to the rapidly growing domain of transitional justice the practices and processes of reckoning pursued in the aftermath of historic injustice Since the neologism s coining in the late 1990s transitional justice has become one of the 21st century s most influential practices of international humanitarianism However transitional justice projects often conceal the very violence they are intended to address or even inflict further violence on victims of atrocities Across 48 genre bending chapters the Handbook explores articulates and advances a multifaceted critique of transitional justice Ranging innovatively across space and time it interrogates the nature and legacies of the justice cascade that the prosecution of international crimes is said to have inspired An interdisciplinary cast of leading scholars questions the meaning and efficacy of transitional justice s modalities which range from archives to courts from memorials to reparations In so doing this volume s authors critically challenge the panglossian orthodoxies that have accumulated and ossified around efforts to come to terms with violent pasts from colonialism to genocide This global endeavor is not one of tear down however Rather it points toward a reimagined project that is more clear eyed about the promises of transitional justice and its inherent limits A definitive work on the subject The Oxford Handbook of Transitional Justice is essential reading for students scholars and practitioners interested in practices of reckoning *Unpredictability and Presence* Hans Jacob Orning,2008-05-31 This book inspired by historians like Fredric Cheyette Stephen White and William Miller applies a legal anthropological framework to Norwegian history At the same time it focuses on what happens when pre state conflict patterns encounters a more stable royal power in the high middle ages The author demonstrates how in the 12th and 13th century the king under strong clerical influence is depicted as just and omnipresent However a detailed survey of the king s conflicts shows that he to a substantial degree based his dominion on unpredictability and presence The results presented in this book will certainly be discussed but few will disagree that it formulates the question of state formation in a new and challenging way In addition it clearly demonstrates the relevance of studying Scandinavian history as part of European history **York** Sarah Rees

Jones,2013-10 This volume is a study of the development of the city of York as a place and as a community between 1068 and 1350

Introduction to English Legal History John Baker,2019-03-26 Fully revised and updated this classic text provides the authoritative introduction to the history of the English common law The book traces the development of the principal features of English legal institutions and doctrines from Anglo Saxon times to the present and combined with Baker and Milsom s *Sources of Legal History* offers invaluable insights into the development of the common law of persons obligations and property and also of criminal and public law It is an essential reference point for all lawyers historians and students seeking to understand the evolution of English law over a millennium The book provides an introduction to the main characteristics institutions and doctrines of English law over the longer term particularly the evolution of the common law before the extensive statutory changes and regulatory regimes of the last two centuries It explores how legal change was brought about in the common law and how judges and lawyers managed to square evolution with respect for inherited wisdom
